THE MAHARAJA SAYAJIRAO UNIVERSITY OF
BARODA
VADODARA - 390 002, GUJARAT, INDIA

To,
The Chief Editor,

Press Note

The "Institute of Leadership and Governance" of The Maharaja Sayajirao University of Baroda, Vadodara has initiated a certificate course on "Health and Hygiene Education". Under this initiative the students from various faculties of The Maharaja Sayajirao University of Baroda, Vadodara were trained to become health educators. These students have conducted various sessions on the topics taught related to health and hygiene in Municipal Corporation Schools of Vadodara City, as a part of this course.

To incorporate some of the good practices and maintain hygiene on streets and public places such as markets, bus depots and railway station, a programme is planned on 21st March, 2016 at several public places namely; Sayaji Garden, Railway Station, Transcube Ved Mall and various Faculties of the University, wherein these students would be performing drama, street plays and would be cleaning the toilets of various faculties to create awareness among the masses about the concept of Public Hygiene at public places.

The major objective of initiating this cleanliness drive is to motivate maximum number of citizens of Vadodara city to take up responsibility for maintaining cleanliness and hygiene. Additionally, in order to achieve the mission of clean city, message should be spread across the city on various health and hygiene related aspects namely; avoiding throwing waste on streets and in public places, not urinating or defecating in open, no spitting of tobacco at public places, railway tracks, bus stops and ensuring not to contaminate their surroundings or spreading germs rather making a clean and hygienic environment at public places.

- 1) Mr S.K. Rajjada :- (President, Corp HR and Group IR Primal Glass Ltd.)

Objective/ Concept Note of the event:-

Venue:- Institute of Leadership and Governance, The Maharaja Sayajirao University of Baroda.

Activity Description:-

It is an open platform for the Human Resource Community where the Speakers would be called for sharing their professional journey as Human Resource Manager and to create a environment where we could understand that what would be the next big thing that would be happening in this HR eco system. There are various reforms that have come across the ages in this field and it has been a quite a big challenge in this competitive era to completely absorb the changes and practices that are introduced in the field. We are making this platform for bringing the well-known people from this field and aggressively making the awareness of the Human Resource Practices and guidelines and could make a high level of impact in this Human Resource Arena

Why Certificate Course on Bhagwat Geeta ?

Corporate and entrepreneurs, job seekers and job creators, are in constant search of real talent, right frame of mind, and value based human resource. They insist on hiring people with strong will, positive minds and team player attitude. Millions are spent on employee training and value inculcating programmes by these companies. Here is a programme that encompasses that very element of character building.

- ✓ Culture Curation
- ✓ Logic and Analysis
- ✓ Attitude Management
- ✓ Team Building and Leadership
- ✓ Professional excellence

Your Guide to Professional Excellence.....

Join in for the intellectual fodder, and emotional equilibrium exercise. The dialogue that sets logic, inspires questions and inculcates problem solving attitude. The dialogue: BHAGWAT GEETA 18-20 .

अजन्तम महिमानं तर्हि नया धामदान् परमेव तपि || 11 - 41 ||

Millennium 20 will be known for maximum innovation, developments, comforts brought to the mankind. The Human race has conceivd many hurdles and challenges which were never thought of. Life is becoming easier and pleasurable. No doubt it has also bred the problems that were never thought of. Every day new challenges, threats and clashes increase. The War is on! somewhere visibly and somewhere invisibly be it Conflicts of Man vs Man, Man vs State and Man vs Nature.

Many centuries before a Great War was fought on the battlefield of Kurukshetra, India. A divine dialogue between a Mahatma and Saarthi is available in 700 verses and 18 chapters, known as the Bhagwat Geeta. The same dialogue took Arjun on a journey from and his conscience to actions, from his question to solutions, from his frustration to peace. He initiates with "सीदन्ति माम् आर्जुन" - "Siddanti माम् गेतरां" and "ममैवे हिंसा - na karunkhe vijayam" and reaches the stage of "सर्वत्र हिंसा - nanta maha" and करिष्ये वयं तस्मै karishyke suchanam tena" through his Smart Navigator Krishna.

Isnt this conversation itself worth learning? Is it useful to me today? Will it be able to answer my challenges of millennium 20? A basic introductory course is designed in 20 days programme. Experts of various disciplines will explain each chapter (adhyay) a day and address challenges of the present century.

The curious minds "Rigvayana" are invited to the conversation with 18 prominent luminaries of various fields as Former Hon Justice and Governor Rama Jais, Former VC, M.S. University Dr. Anil Kane, President - Solihua Academy Bhagyesh Jha, Film and Playwriiter Mohr Bhasia, Eminent Poet Madhav Ramanandji, Tushar Shukla, Beloved Mentor - G. Narayana, Dynamic Municipal Commissioner Yood Rao, Renowned Solicitor Ramdas Gandhi, Eminent Chartered accountant Hitendra Gandhi, Dr. J. K. Bhatt, Innovative Educator Mukul Kanitkar & others will teach the lessons of Leadership at Institute of Leadership and Governance, The Maharaja Sayajirao University of Baroda, Vadodra.

16) I-Lend

Name of the program: - I-Lend

Type of the program: - Workshop

Date: -7 January, 2017

No. of Participants: - 15

Speakers/Experts/ Resource Person Details:-

Mrs.Aruna Shrivastav

Objective/ Concept Note of the event:-

- Participants will go through a profound personal exploration to know their intrinsic potential.
- The participants will identify their purpose, innate strengths, expectations and desires.
- Manage conflicts.
- Learn the art of decision making.
- Participants will strengthen emotional intelligence and relationships

Venue:- Institute of Leadership and Governance The Maharaja Sayajirao University of Boroda.

Activity Description:-

Instances of human suffering, when dissected minutely leads up to mind-set related issues. However, very little resources are available currently to build awareness and strengthen one's core self. What's valuable and what is not? What is doable what is not? What to do and how to do? Why do I feel the way I do? How do I address my relationship issues? These are some questions which has created conflicts in our minds time and again. These questions also sounded personal inhibiting us to raise them in a social context and hence they always remained with us. While we look for answers to above we also do not want anyone to dictate the answers as mostly we seek only indicators and we want the freedom to derive answers on our own merit. We are pleased to propose 2 days' workshop for young students which will equip the students to make right choices and manage oneself more effectively in the competitive journey of life so as to realise their qualities as human beings.

21st century will be known for maximum innovation, developments, comforts brought to the mankind. The human race has conceived many hurdles and challenges which were never thought of. Life is becoming easier and pleasurable. No doubt it has also bred the problems that were never thought of. Every day new challenges, threats and clashes increase. The War is on! somewhere visibly and somewhere invisibly be it Conflicts of Man vs Man, Man vs State and Man vs Nature.

Many centuries before a Great War was fought on the battlefield of Kurukshetra, India. A divine dialogue between a Maharathi and Saurthi is available in 700 verses and 18 chapters, known as the Bhagwad Gita. The same dialogue took Arjun on a journey from his conscience to actions, from his question to solutions, from his frustration to peace. He initiates with "सदेति वा गच्छामि - Sidanti mam garani" and "ममैव तेन - Nakaunkshe vijayam to finally एतेन मे - Karohye va chaham tva" and reaches the stage of "ममैव तेन - Nasto moha" through his Smart Navigator Krishna. The course is designed to understand and appreciate its Mahima. -सुब्रह्म

Isn't this conversation itself worth learning? Is it useful to me today? Will it be able to answer my challenges of 21 century? A basic introductory course is designed in 18 days programme. Experts of various disciplines will explain each chapter (adhyaya) a day and address challenges of the present century.

The curious minds "Jigyassu" are invited to the conversation with 18 prominent luminaries of various fields as Former Hon Justice and Lokayukta, Former IAS & Ex. President - Sahitya Academy, IAS & Ex. Commissioner for higher education, Eminent Poet, President Bharati Shiksha mandal, Lawyer and Sansayis & Academician will teach the Lessons of Leadership at Institute of Leadership and Governance, The Mahatma Swarnajayanti University of Baroda, Vadodara.

ONE DAY ONE CHAPTER ONE EXPERT

Why Certificate Course on Bhagwad Gita ?

Corporates and entrepreneurs, job seekers and job creators, are in constant search of real talent, right frame of mind, and value based human resource. They insist on hiring people with strong will, positive minds and team player attitude. Millions are spent on employee training and value inculcating programmes by these companies. Here is a programme that encompasses that very element of character building.

Your Guide to Professional Excellence.....

Join in for the intellectual fodder, and emotional equilibrium exercise. The dialogue that sets logic, inspires questions and inculcates problem solving attitude. The dialogue: Bhagwad Gita 18-21

Programme Take aways

- ✓ CULTURE DURATION
- ✓ LOGIC AND ANALYSIS
- ✓ ATTITUDE MANAGEMENT
- ✓ TEAM BUILDING AND LEADERSHIP
- ✓ PROFESSIONAL EXCELLENCE

ભગવદ ગીતા સાંભળવા આવેલા વિદેશી વિદ્યાર્થીઓએ કહ્યું
‘ભગવદ ગીતામાં જીવનની તમામ સમસ્યાનું સમાધાન રહેલું છે’

વડોદરા, સોમવાર

એમ.એસ.યુ.નિ. દ્વારા ૧૮ દિવસીય ભગવદ ગીતાનો કોર્સ શરૂ કરવામાં આવ્યો છે. જેમાં શ્રીલંકાથી આવેલી અને મ્યુઝિઓલોજી વિભાગમાં અભ્યાસ કરતી વિદ્યાર્થીની અમરી ચેત્તિકાએ કહ્યું કે, ‘હું અત્યારસુધી માનતી હતી કે ભગવદ ગીતામાં હિંદુ ધર્મનો જ ઉલ્લેખ છે પરંતુ ભગવદ ગીતા સાંભળ્યા પછી સમજાયું કે આ ગ્રંથમાં જીવનની તમામ સમસ્યાનું સમાધાન છે.’

એમ.એસ.યુ.નિ.માં પ્રથમવાર ૨૬ વિદેશી વિદ્યાર્થીઓએ ભગવદ ગીતા કોર્સમાં ભાગ લીધો

એમ.એસ.યુ.નિ.માં સતત ચોથીવાર ભગવદગીતા કોર્સનું આયોજન ઈન્સ્ટિટ્યુટ ઓફ લીડરશિપ એન્ડ ગવર્નન્સ દ્વારા સી.સી.મહેતા ઓરિટોરિયમ ખાતે કરાયું છે. જેમાં પ્રથમવાર ભૂતાન, શ્રીલંકા, ધાના, જાપાન સહિત અનેક દેશોમાંથી એમ.એસ.યુ.નિ.માં ભણવા આવેલા ૨૬ વિદ્યાર્થીઓએ ભાગ લીધો છે.

સી.સી.મહેતા ઓરિટોરિયમ ખાતે સિન્દી અને ગુજરાતી ભાષામાં ભગવદ ગીતા સમજાવાય છે. જ્યારે વિદેશી વિદ્યાર્થીઓ માટે યુનિ.ના ગ્રેસ્ટ હાઉસ ખાતે અંગ્રેજીમાં લેક્ચરનું આયોજન કરાયું છે. સંસ્કૃત સાહિત્ય અકાદમીના ભૂતપૂર્વ પ્રેસિડેન્ટ ગૌતમ પટેલે કહ્યું કે, ગીતા યુવાનો માટે છે જ્યારે ભગવદ ધરણમાં માટે છે.

ગીતા યુવાનોને રસ્તો ચીપે છે જ્યારે ભગવદ જીવનના અંતમાં કેવી રીતે શાંતિ પ્રાપ્ત કરવી તે શીખવાર છે.

જીવનની સરચાઈ જાણવા ભગવદ ગીતા સાંભળવા આવ્યા

વડોદરા, સોમવાર

ધાનાથી આવેલા અને કોમર્સમાં માસ્ટર કરી રહેલા માર્કલ વાંકસોમે કહ્યું કે, ભગવદ ગીતા સાંભળવા દરેક વિદેશી વિદ્યાર્થીઓને કરવામાં આવ્યું પરંતુ મારા મિત્રો આ ધાર્મિક અને કંટાળાજનક હશે એમ કહી ન આવ્યા.ભારત સંસ્કૃતિ, વેડો, પુરાણોનો ખજાનો છે. જીવનની સરચાઈ જાણવા ભગવદ ગીતા સાંભળવા આવ્યો છું. બે દિવસમાં ભગવદ ગીતામાંથી ઘણું શીખવા મળ્યું છે.

જીવનની ડુવોકોનોને હિંદુ શાસ્ત્રનું મૂળ સમજવું છે

વડોદરા, સોમવાર

સોશિયલ વર્ક કેકેડીમાં અભ્યાસ કરતી જાપાનની ડુવોકોનોએ કહ્યું કે, હિંદુ ધર્મ વિશે ઘણું સાંભળ્યું છે. ખાસ કરીને મહાત્મા ગાંધી અને ભગવદ ગીતા. એટલા જ માટે ૧૮ દિવસના આ કોર્સમાં જોડાઈ છું. અને હું તેની પરીસા પણ આપીશ.

ILG અને JCA વડોદરા અલ્હાપુરી દ્વારા નવા મોટરવાહન એક્ટ વિષય પર ચર્ચાસત્ર ચોજાયું
ટ્રાફિક પોલીસનું જ્યાયપૂર્વકનું ઇન્સ્પેક્શન નહિ કરાય તો કાયદાનું પાલન નહિ થાય : ઉમંગ મોદી

TALK ON VEHICLE ACT
શિથી રિપોર્ટર, વડોદરા

M.S.Uની ILG અને JCA વડોદરા અલ્હાપુરી દ્વારા નવા મોટરવાહન એક્ટ વિષય પર ચર્ચાસત્રનું આયોજન કરવામાં આવ્યું હતું. જે વિશે માહિતી આપતા WHOના લીંગલ ડેવલોપમેન્ટ પ્રોગ્રામ ઓફ રોડ સેફ્ટી મેમ્બર ઉમંગ મોદીએ જણાવ્યું હતું કે છેલ્લા 30 વર્ષથી સરકાર લોકોમાં અવેરનેસના માધ્યમથી રૂલ્સ કોલો કરાવવા માટે પ્રયત્ન કરી રહ્યા છે. જે નથી થઈ રહ્યું માટે આ પ્રકરના કાયદા લાવવામાં આવ્યા છે. જેમ ટ્રાફિકનો ભંગ કરનાર લોકોને દંડ થાય છે તો ટ્રાફિક સિગ્નલ અને જ્યાં ટ્રાફિક પોલીસ કાયદાનું પાલન કરવા માટે કમ્પાઈલી કરી રહ્યા હોય ત્યાં તેઓને પણ ઇન્સ્પેક્શન ન્યાયપૂર્વકનું થવું જોઈએ. જો તેમ થાય તો કાયદાનું પાલન સંપૂર્ણ રીતે થઈ શકશે.

ILG માટે નવા મોટરવાહન એક્ટ વિષય પર ચર્ચા કરી રહેલ શહેરીજનો.

PUC	₹100	₹1000

દંડના ડરથી કાયદાનું પાલન ના કરો

હેલ્મેટ અને સીટ બેલ્ટ નહિ પહેરીએ તો દંડ ચુકવવો પડશે પણ જો આપણે કાયદાનું સ્વયંમ કરીશું તો દંડ નહિ ભરવો પડે. હેલ્મેટ અને સીટ બેલ્ટનો ઉપયોગ નહિ થવાર ઉસ્મામાં જો અકસ્માત થાય તો ઇન્સ્યોરન્સ કંપનીઓ પણ હાથ નથી મૂકતી. - શિવામી પાઠક

આઈ કાર્ડ કરતા પહેલા હેલ્મેટ ચેક કરો

શાળામાં સાઈલક પર આવતા વિદ્યાર્થીઓને જ પ્રવેશ આપવો જોઈએ, જેથી કાયદાનું પાલન સરળતાથી થશે. એ જ પ્રકારે કોલેજમાં ID પહેલા હેલ્મેટ ચેક કરવું જોઈએ, જો આ પ્રકારે ચેકીંગ થાય તો શહેરમાં ટ્રાફિક પોલીસની જરૂર નાહ પડે. - મિતેષ પટેલ

8) PUBLIC SPEAKING

Programme name: Public Speaking

Type: Workshop

Date: September 16 to 22, 2019

12) “AYODHYA-THE UNASKED QUESTIONS

Program Name: Talk and Q-A by Koenraad Elst “Ayodhya-The unasked Questions

Type: Public Lecture”

Date: October 7, 2019

Venue: BBA Auditorium

No. of Participants: 45

Speaker:

- Koenraad Elst

Duration: -

Total days: 1

Total hours: 1hour

Objective and About the Speaker:

Koenraad Elst is a right wing **hindutva** activist, known primarily for his support of “Out of India Theory” and for publication of “Anti Islamic Literature”. Born into a Flemish catholic family, calls himself a “Secular Humanist”.

He graduated in **Indology** (Academic study of culture, language, history and literature of India), **Scinology** (Study of Chinese literature, language, culture & history) and philosophy at the Catholic University of Leuven. His doctoral dissertation on **Hindu** revivalism was published “Decolonizing the Hindu Mind”.

He is deemed as one of the leading proponents of the OIT school of thought.

He was an editor of “New Right”, Flemish Nationalist Journal “Teksten, Kommantaren en Studies”. He had been a regular contributor “The Brussels Journal”.

Elst’s work has drawn praise from fellow “hindutva” activists and conservatives,

David Frawly (an American Hindu Teacher) called his work on ayodhya “Definitive”.

Paul Belien (Author and Founder of Brussels Journal) described him as one of the Belgium’s best orientalist

Ramesh Nagraj Rao (Proff. Communication, Columbus State University) praised Elst for his unassuming and brilliantly meticulous research.

Frankois Gautier (Journalist based in India) considers Elst as one of the most acute Scholars on India.

In references to the question whether there really was a Hindu temple at the Ayodhya site later covered by the Babri Masjid, the focus is invariably on the case made by the Hindu side, viz. that there was a temple, and that different types of evidence confirm this. The standard question is: is this evidence for the temple demolition scenario valid? Have they succeeded in proving the existence of the temple? By contrast, the opponents of the temple hypothesis are but very rarely asked to put their evidence on the table. The non-temple argumentation is confined to two types of evidence: arguments from silence, and attempts to find fault with pieces of evidence offered

by the temple party. Criticism of the pro-temple argument is usually directed against a straw man, not against the actual argumentation as presented by pro-temple scholars. A number of much-acclaimed anti-temple publications bravely announce in the introduction or on the cover that they will demolish every argument given (or 'concocted' and 'maliciously propagated') by the temple party, but then fail to address or even mention

જન્મ સ્થળે જ રામ મંદિર બનવું જોઈએ: કોઈનરાડ ICAI દ્વારા દિપ ઓડિટોરિયમમાં ચર્ચાસત્ર યોજાયું

ચિત્રી સિગેટર | વડોદરા

ઈન્સ્ટીટ્યુટ ઓફ ચાર્ટર્ડ એકાઉન્ટન્ટ્સ ઓફ ઈન્ડિયા, ભારતીય વિચાર મંચ તેમજ ઈન્સ્ટીટ્યુટ ઓફ લીડરશીપ એન્ડ ગવરનન્સના સંયુક્ત ઉપક્રમે યુનિ.ના દિપ ઓડિટોરિયમમાં સોમવારે ખ્યાતનામ હિન્દુત્વ કાર્યકર કોઈનરાડ ઈલ્ટનું ચર્ચાસત્ર યોજાયું હતું. જેમાં કોઈનરાડ ઈલ્ટ દ્વારા અયોધ્યા વિશે અનેક અજાણી ચર્ચા કરવામાં આવી હતી.

કોઈનરાડ ઈલ્ટનો જન્મ કેથલિક પરીવારમાં થયો હતો. પરંતુ રોમન કેથોલિક ધર્મને નકારીને તેઓ પોતાને "ધર્મનિરપેક્ષ માનવતાવાદી" કહે છે. તેમના દ્વારા હિન્દુ ધર્મ અને કલ્ચર વોર, ગોડસેએ મહાત્માને કેમ માર્યા અને આર્ય સમાજ જેવા વિષયો પર પુસ્તક લખાઈ છે. કોઈનરાડ

ઈલ્ટએ જણાવ્યું હતું કે, ઓયોધ્યામાં રામ મંદીર અને બાબરી મસ્જીદનો ક્રીસ્ટો ખુબ જ સરળ છે. હિન્દુ અને ઈસ્લામ ધર્મો દ્વારા તેનો વધારે જટીલ બનાવાયો છે. તે જગ્યા હિન્દુઓની જ માનવામાં આવે છે. અને ત્યાં મંદીરનીજ સ્થાપના થવી જોઈએ.

The Maharaja Sayajirao University of Baroda,
Maharaja Pratapsinhrao Parisar, Fategunj, Vadodra

Monday, 23rd December 2019,
at 06:30 PM to 08:00 PM

Is the Indian civilization ancient, or is it recent? Is the Indian identity fractured as Aryans, Dravidian and Tribal or do we have a pan-India identity? Was India a recipient of knowledge from Greece and Babylon, or were we teachers to the world?

Come and hear Dr. Raj Vedam of Houston, Texas, present an astounding evidence-based narrative that takes you on a unique, fast-paced, spell-binding journey through archaeology, genetics, astronomy, and knowledge systems, as he connects the dots and makes a strong case for an ancient Indian civilization.

About the Speaker, Dr. Raj Vedam

Raj Vedam is a native of Bengaluru, where he completed his early schooling. He obtained his Bachelor's degree in Electrical Engineering from the University of Mysore, and his Master's degree in Electrical Engineering from Indian Institute of Science in Bengaluru. He obtained his Ph.D. degree in Electrical Engineering from Oregon State University in USA in 1994.

Raj Vedam has over 20 years of experience in diverse industries including power, aircraft, electronic design automation, and oil & gas. With several journal and conference papers and patents, he is an innovation leader with strong interests in multiple areas of technology. His current professional interests include optimization, machine learning, and artificial intelligence. He serves as external examiner for doctoral thesis evaluation for Hyderabad's Technological University in India, and has mentored students in India and USA for their graduate studies. He is currently based in Houston, Texas, and works in the Oil and Gas industry.

As an activist, Raj Vedam re-examines the records of modern sciences, mathematics and technology, a field that both glorify the histories of Babylon, Greece, Egypt, Rome, China, Hittite, Minoan and Arabs. Whereas Western narratives favor the origin of astronomy and medicine from Greece, he has reorganized outside India and imported into India during various invasions. Raj Vedam's multi-disciplinary studies using data from several published sources revealed otherwise. His research traces the reasons for such narratives about Indian history by various authors starting from the colonial historians, and argues that the first golden age of Indian civilization as having spread wisdom, math and sciences from outside India, and as it served as a source of progress in ancient Indian civilization that made great advances in several fields of endeavour.

13. Vedam believes that an evidence-based narrative of Indian history is urgently needed to correct several speculative and damaging mainstream narratives of Indian history. Towards that, he has his talks and workshops or published scientific literature from various fields.

Raj Vedam co-founded a think tank called Indian History Awareness and Research based in Houston, with an mission to popularize the findings. Since 2015, he has given his work public with several talks in US and Indian universities and public events. He has delivered over 60 talks on Indian history in several US and Indian cities. His team worked with the state of Telangana to improve the state history textbooks for various grades from 6th to 12th standards. His team also worked with the Texas Education Agency to review history textbooks for their content on Indian history. He has conducted and delivered history workshops for high school teachers in India in various cities, and spoken at many youth camps.

Raj Vedam serves as Director of Ansha Vidya Satyanga, a non-profit founded to spread awareness of Indian culture and learning.

40) COUNTRYBUTION

Name of the Programme: -Countrybution 2020-Summer Socio-Political Internship

Type of the programme: - Online Internship

Starting Date: - 30TH MAY, 2020

Ending Date: -21ST JUNE, 2020

Topic: Self Reliance Driven Leadership: Work Local Lead Global

ABOUT THE INTERNSHIP: -

It is 21 days non-paid internship focussing on various areas in which we as the citizens of our nation can contribute to it. Speakers from all over the nation and from different areas of expertise have taken up the sessions during this internship.

Venue / Digital Platform: - Facebook Live

Facebook Link: - www.facebook.com/themsubaroda

Duration

Total no. of days: - 21 days (1 seminar/per day)

Total no. of hours: - 42 hours (2hours/per day)

Speakers: -

- **Shri Ram Madhavjiis** an Indian politician, writer and journalist. He serves as the National General Secretary of the Bhartiya Janata Party. He is former member of the National Executive of RSS. He is also serving as the member of the governing body of 'India Foundation', Delhi.
- **Prof ParimalVyas:** Honorable Vice Chancellor of the Maharaja Sayajirao University of Vadodara.
- **Dr. Jigar Inamdar:** He is an inspiration to the youth. He is Senate and Syndicate Member of MSU, Baroda. He is founder, director and current advisor of Institute of Leadership and Governance, MSU, Baroda. He is also serving as the Regional Director at Indian Council for Cultural Relations.
- **Dr.Reena Bhatia:** Honourable Director of Institute of Leadership and Governance, The Maharaja Sayajirao University of Vadodara

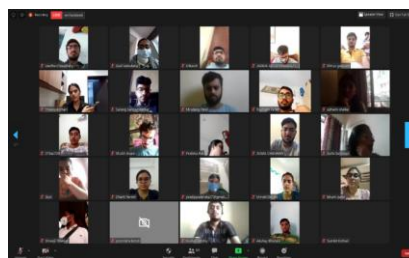

Objectives: -

- Channelizing Youth's Energy in Transforming India.
- Learning various aspects of Governance, Administration, Entrepreneurship, Industry, etc. and many other fields necessary in self-reliant India
- Learning tools which can make citizens an effective part of Governance system
- Understanding ground level realities from relevant experts.

Activity description: - The speakers at inaugural session put forth their wonderful insights to give the cheerful start to this internship where all the three speakers guided the interns regarding the self-reliance driven leadership and enlightened them with the importance of youth to implement the concept of Work Local Lead Global.

- Ram Madhavji clarified about the spirit of self-reliance and said that we have to take the country forward by understanding the vision of Hon'ble Prime Minister Modi ji. In the crisis of Corona period, PM Modi has presented India as an example to the whole world.
- The entire Indian society faced this crisis with strength and discipline. But in the upcoming times, we must be ready to face the financial difficulties and overcome this crisis. Self-reliance and self-reliant India is the responsibility of all citizens. Japan can withstand the attacks on nuclear weapons, the root cause of which is a sense of self-reliance and self-respect. Any country stands by the awakening of its people and society. Calling the youth, Shri Ram Madhavji said that for our brands to have a global identity, we also have to be ready for this.
- We need to strengthen the ground level economy. We have to travel from indigenous to self-reliance. The time is now for Act Local Think Global. We have to prepare according to the global market. A new world order is being created after the Corona crisis. Renewable energy, climate change and health issues will be major topics in the future. Ayurveda, Yoga and Indian cuisine are giving direction to the entire world. Further, Shri Ram Madhav Ji said that there is a lot of potential to lead Indian youth in the field of Artificial Intelligence and Robotics. The Maharaja Sayajirao University of Baroda can also do a lot in this field.

Some glimpses of the event: -

DAY: 1

Date: - 30th May' 2020

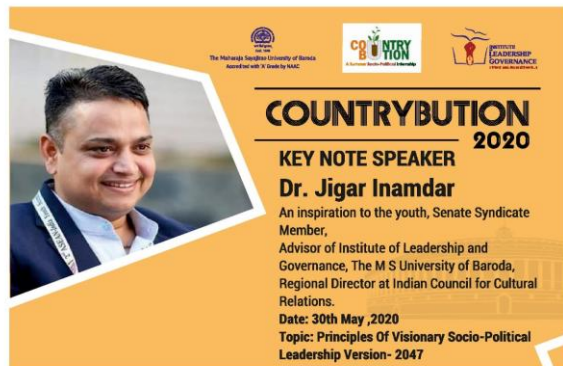

Speaker: - Dr. Jigar Inamdar

Topic: - Principles of Visionary Socio – Political Leadership Vision 2047

Activity description: -

- To understand the principles and ethics of political leadership.
- To discuss about how it going to get moulded over a period of time.

Venue / Digital Platform: - Zoom digital platform, YouTube

DAY: 2

Name of the Programme: -Countrybution 2020-Summer Socio-Political Internship

Type of the programme: - Online Internship

Date: - May 31, 2020

No. of Participants: - 143

Topic: Self Confidence to Self-Reliance

Speakers: -Mr. Pratap Rao- He is Prominent Journalist and content head at “RITAM”.

He has worked as a consulting editor and editor in chief in various news channels.

Objective: - Understanding the ground level realities with the diversified experience of the speaker and turning the youth’s mindset towards nation building and self-reliance.

Venue / Digital Platform: - Zoomdigital platform,YouTube

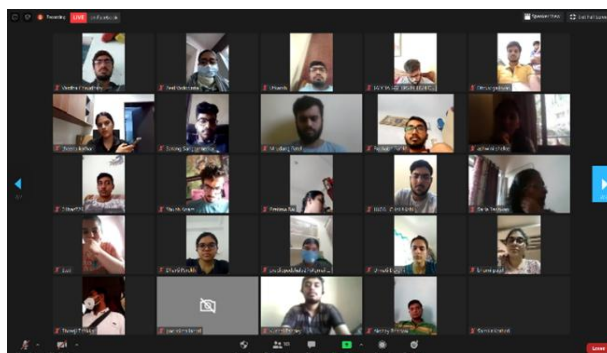

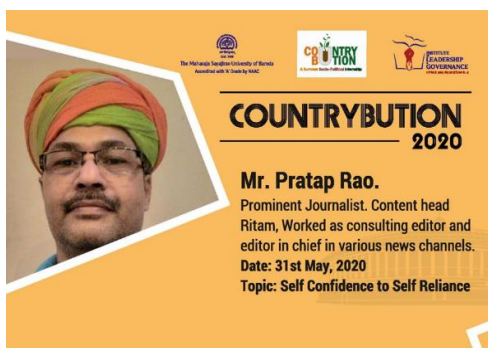

Video link: <https://youtu.be/jEnQ5hyQsEk>

Activity Description: -

- The keynote speaker Shri Pratap Rao Ji while addressing the participants said that the Corona has given us an opportunity to think about the country, the recognition of India which the world has demolished that concept. This mutual understanding and cooperation are our great strength, our morality is our inner strength.

- We will progress on the basis of this morality. The vision and path of Modi government is absolutely clear, it is a matter of great pleasure. Recovering from Corona's initial position, we can now confidently say that Corona will lose and the country will win
- Now we are moving towards unlocking not lockdown. This is a result of our strong mindset and confidence. It is the achievement of the Corona period that the confidence of Indians has not deterred but has strengthened.

Screenshots of the event:-

DAY: 3

Name of the Programme: -Countrybution 2020-Summer Socio-Political Internship

Type of the programme: - Online Internship

Date: - June 01, 2020

No. of Participants: -147

Speakers/Experts/ Resource Person Details: -Dr. Vikrant Singh Tomar

He is a young acknowledged management consultant.

He is an internationally certified NLP practitioner.

He is director at UMS India, director of Helios BusinessSchool, director of Maharaja Institute of management.

Topic: Great Team for Great Results

Objective/ Concept Note of the event: -Learning various aspects of Governance, Administration, Entrepreneurship, Industry, etc and many other fields necessary for Self-Reliant India

Venue / Digital Platform: - Zoomdigital platform,YouTube

Video link- NOT RECORDED

Activity Description: -

- He addressed the participants on the theme ‘**Great Team and Great Results.**’ Before starting the topic, he gave a parable that there was a small child. His father was able to give him less time as he worked in the army. One day the father was busy, but the son said that father, I want to play with you. Being busy and unable to play with the child, the father asked him to cut world map and said, "Add it, and when you are done with it, then we will play together and he starts on his duty."
- After a while, the map was attached to the child. Papa was surprised, asked how it is impossible to add it, then the child said that father, I do not know that this is a map of the world. But when I turned back, I saw a picture of a human being and when I started connecting them, the world connected. Once you get the man's right to get the manager's right. The problem is not the addition of outside team. The problem is connecting the inside team. Civilizations are destroyed not by external invasions but by internal invasions.
- Referring to the Taittiriya Upanishad, he said, whenever a person works for himself, that work is most beautiful. It is best and when the same task has to be done for someone else, he gets tired in that work. have no interest
- Always ask yourself the first question. What is not known while doing it?What is that? What is the work you are not tired of doing and what is it that you are willing to do without money?
He said, professors are also of two ways. By profession by default. Construction and Holocaust play in the teacher's dock.
So always try to find it. What are your blessings this is the blissful treasure of Taittiriya Upanishad?
- What is the purpose of life and spend your life in the purpose? All the great people who have been born have some purpose in their life. While stating further, Dr. Vikram Singh Tomar said. Try to know what the world needs in today's time and try to find out what other things the world can give you value for. There are 2 ways in the world. One is on the basis of internal call and secondly on the basis of business, when a man works for his own self, he never retires. And when he works for business. So he has to retire for 1 day and he also gets tired. This is the science of science.
- Moving forward, he gave the example of Manometer Kosh. When asked how you work with such concentration in Air Traffic Control at New York ATC, he said that our formula is One Flight at a time, in the sky, there can be thousands of flights in the sky. But let's focus on one topic, one thing, and one flight. Taking this topic further, he said that one problem at a time and one subject at a time is the same. Get focused on the work you have taken up. When you act the Promise done with you, it is called self-confidence. All these actions come under PranmayKosh. Come under action. Further Dr. Tomar said that after this we should also take care that what you eat? How do you keep yourself healthy? Giving the example of Guru Nanak Dev Ji, he said that the same kind of colour is consistent. This whole life should be like a yajna and you are a sacrifice. That is why in the yajna we call swaha and as much purity, as much as mindfulness, as much diligence as we call swaha, we bless God and God according to the same swaha. God the Supreme Father tells us that we will invest as much energy as we do in grooming our lives. We will get the blessings of cosmic energy in return for this great goal.

SELF ANALYSIS ASSIGNMENT: -

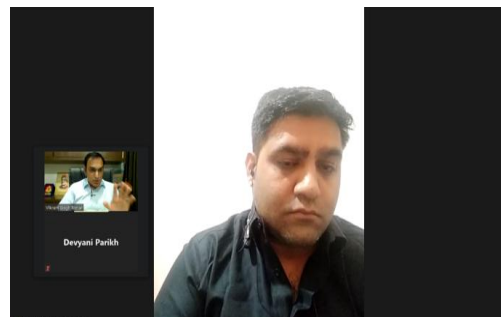

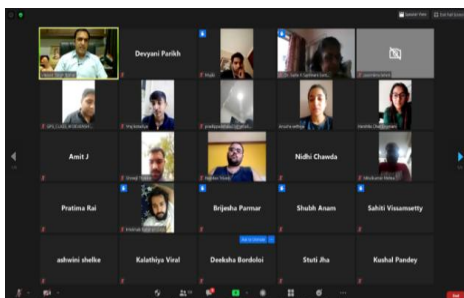

- Write down your own strengths, weakness, opportunities, and challenges (SWOC)?

HINT: SWOC is a self-analysis method and constant efforts with this approach are a way to self-improvement. Write down 5 points in each category that could be a word or a sentence.

- Describe about work or activity that gives you immense satisfaction and eternal happiness? Also, mention your privileges or things you feel blessed about?
- Describe the purpose of your life?
- What is the most required element that the world needs today? (Calling)
- What skill do you have that can become the source of your revenue generation?
- Does the purpose of your life keep you driven every morning to achieve it and live it?
- Does the same thought pop up in your mind when you open your eyes every morning?
- Do you put enough effort regularly to fulfill the purpose of your life?
- Are you ready to coming out of all the odds if you fail in achieving your goal?
- Are you conscious regarding;
 - a. What do you eat as a portion of food and your mindset when you consume that food?

b. What are the energies or set of people whom you accompany or prefer to spend time with? 10. Are you aware or conscious about the people with whom you share your meals?

DAY: 4

Name of the Program: -Countrybution 2020-Summer Socio-Political Internship

Type of the program: - Online Internship

Date: - June 02,2020

No. of Participants: - 125

Topic: Post COVID effects on administration

Speaker: - Mr. Shakti Sinha

Director of Atal Bihari Vajpayee Institute of Policy Research and International studies

- Distinguished fellow and Former Director of India Foundation

-1979 Batch IAS officer

- Former Director of NMML

- He has also served as a Joint secretary in the Prime Minister's office in the past.

Objective: - Learning various aspects of Governance, Administration, Entrepreneurship, Industry, etc and many other fields necessary for Self-Reliant India

Venue / Digital Platform: - Zoom digital platform, YouTube

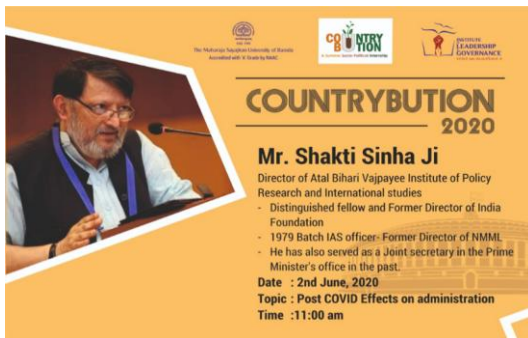

Video link: www.facebook.com/the_msubaroda

Activity Description: -

- He started the statement and told the participants that the Corona period is the biggest challenge for Indian society and system after independence.
- Even before this, there have been economic crises but due to lack of some policy, but this crisis is due to health reasons. We have a lot of livelihoods here. In comparison to other countries, we have a lot of inequalities, such as many shortcomings in schools and hospitals in rural areas. If a license or document is required in the government sector, then the common man has to be very upset, but during the cyclone, election, natural disaster, we perform very well.
- This epidemic is testing our administrative capabilities a lot but all the government machinery including our officers have done very well. Railways has done a very good job. At the end of April, we were at number 16 in the global covid-19 list but on May 31, we had reached eighth position.
- If we add new cases, today we are at number four. We will be number one by the end of July. We have to accept this. This is a matter of concern for our population. We are also working on this with priority.
- But much better is also a 50% recovery rate and very low about 3% death rate is a very positive thing. Covid-19 spread rate is very high in Delhi Mumbai metro cities. The Delhi government is yet to make full preparations that large hotels are now preparing as Covid-19 treatment centres. State governments will have to get ready for Covid-19. One important point is that due to lockdown fatigue, we are also distracted by Covid-19. It is a matter of concern It is an invisible enemy and there is no resolution available. Along with this, attention should also be paid to how the immune system of our citizens should grow. It is a matter of luck that our Prime Minister started making Yoga Ayurveda aware 5 years ago.
- Further, Shri Shakti Sinha said that one of the topics to be noted is that 40% of the population in our country is migrant, but regular migrant labourers are also 10 crores. They also need to be resolved.

- We have 54 labor laws at the center, separate from the states. He said that along with all these problems, our education system also needs attention. DTC has a vacancy of 1000 drivers, Plumbers are not available in Delhi. There is a need to inspire the youth for all this but there is more need to train youth to become advanced economic power, work will have to be done in the field of making study oriented.
- According to some reports, 27% of the labor force is unemployed, one-third units may not be able to reopen. The Central Government is seriously considering and taking appropriate steps to solve all these problems. But this is the collective responsibility of all of us during this corona period or disaster. It is the duty of every citizen. Let's work as a unit. If the government and society work as a single unit, then we will surely overcome this crisis.

ACTIVITY: - During the session: speech on “My Journey in the Lockdown”: Interactive Experience Sharing session has taken place on how one has spent his/her time during the lockdown, what new thing you have learnt, what beliefs you have changed inside them, any New Skill you have developed during the lockdown.”

Day 5: -

Name of the Programme: -Countrybution 2020-Summer Socio-Political Internship

Type of the programme: - Online Internship

Date: - June 03, 2020

No. of Participants: - 136

Topic: Effective Communication Speech and Modulation

Speakers: -Dr. Harish Vyas

He is Voice and Speech Trainer Faculty and course designer for “Anchor. Host Announcer Workshop “at Lifelong education centre” Vadodara.

He is having 27 years’ experience at faculty of performing arts, The Maharaja Sayajirao University of Vadodara.

Objective: - Channelizing Youth’s Energy in Transforming India

Venue / Digital Platform: - Zoom digital platform, YouTube

Video link: - <https://youtu.be/dwWtjYmYPjA>

Activity Description: -

He trained participants on the subject of influential speech art. Dr. Harish Vyas started the dialogue and said that speech is the most powerful medium of communication. There are many communication factors. Visibility is also body language, but speech is the most important.

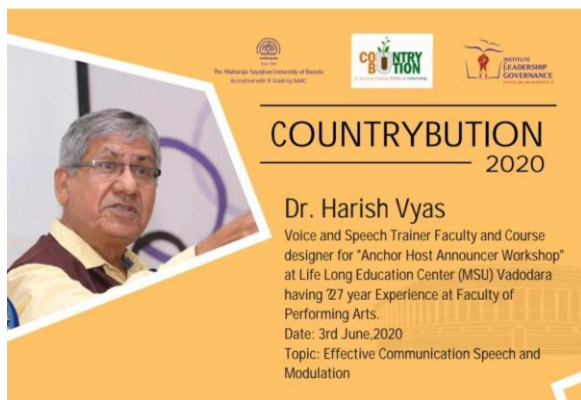

Krishna Arjun dialogue is also a unique example of speech effect which has overcome Arjun's beau Karishevavakamtava. On one hand, Draupadi became the origin of Mahabharata with her speech.

- The child first learns to speak according to family and environment.
- People are drawn to a person's speech and say if the speaker is there and if someone speaks, then they say that he is talking.
- We use this speech. Speech uses conspiracy, expressions in conspiracy.
- Speak in a different way with different people in a different situation.
- We all have a certain tone. It is God-given. Speech and respiration use the same system of pronunciation. Lip tooth palate nasal etc. The languages of our Indian origin which are made up of all Sanskrit are entirely scientific. Panini said that Shiva became a sutra by playing the Damaru of Lord Shiva, Panini became grammar. A is classified as hypnosis and B is in the category of aspiration. The pronunciation of b is heavier than a.
- Dr. Harish Vyas explained in detail about the alphabet's orthogonal palatal dentistry. Sturdian is the character of Veer Ras. These characters are not used in makeup juice. How scientific it is that child first learns the alphabet. Because at that age only the child learns the operation of the lips. Dr. Vyas went into the depth of the subject and said that communication is the basis pillar of diversity. For speaking while talking, attention should be paid to the important words such as stress, ascension, intensity of voice, volume of voice, speed of speaking, rhythm and punctuation style and melody. He also said not to give undue weight to all words. Babies often do not come to action. In the style of Gaita, do not speak and the last words should also be heard clearly, do not let loose. On all these topics Shri Harish Vyas Ji also made the participants to practice various examples.

Assignment: VOICE MODULATION ACTIVITY-There were two poems attached in assignment the voice modulation of two poems BHARAT ZAMEEN KA TUKDA NAHI and GEET NAYA GATA HOON written by poetic prime minister of India Shri Atal Bihari Vajpayee Ji.

2. Inters had to record their video reciting the same poems and be cautious about the voice modulation that's the prime focus.

Type of the programme: - Online Internship

Date: - June 04, 2020

No. of Participants: - 123

Topic: Legal Aids to the citizens: R.T.I and P.I.L -Tools of common man for ensuring accountability and transparency

Speaker: -Mr. Apurv Kumar Mishra

- He is Faculty of Law at Ashoka University And also the senior research fellow at India Foundation.
- He has been the editor-in-chief of India Law Journal and also leads the Abhinav lecture series.
- He has previously worked at Washington based strategic advisory firm called Albright Stonebridge group

Objective: - Learning tools which can make citizens an effective part of Governance system

Venue / Digital Platform: - Zoom digital platform

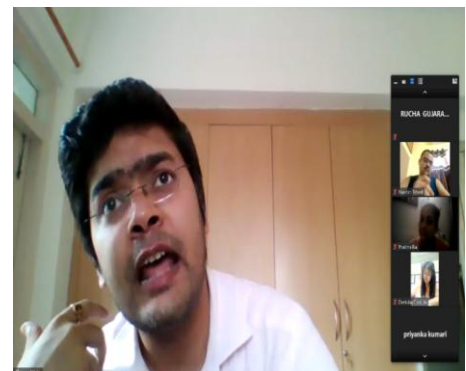

Video link: Not Recorded

Activity Description: -

- According to him, after the Emergency in 1978, our law-and-order system changed a lot. The idea of increasing citizens' contact with the government was somewhere in the psyche of the Supreme Court as well. It is also the basic and positive beginning of all these rules. We have four types of rights. Directive principals are the legal rights of citizens in a legal sense, while protecting fundamental rights is of paramount importance. The basic element of duties is the directive principal.
- After this comes legal rights. The government can change the legal right by using its powers to change the list of rights. Earlier the right to education was in the moral rights directive principal, but after the 86th Amendment it became a category of fundamental rights. The Maneka Gandhi vs Union of India case in 1978 played a major role in law-and-order changes. The Emergency was ruled by dictatorship. Then the Supreme Court also started thinking that citizens should be given some rights so that such chaos does not happen again and governments become accountable to the people of the country. Maneka Gandhi went to the Supreme Court due to stop traveling abroad and confiscation of passport and argued that according to Article 21, free work is my basic right.
- Many such cases laid the foundation of rules like RTI and PIL. Giving rights to citizens is not enough, but arrangements have to be made to protect these rights. Protecting fundamental rights is also very difficult for the people of our country. PIL came into existence for this. Earlier, the lawyer and the court local stand used to ask what would be your personal loss, but due to RTI and PIL, the competent people were empowered to stand for the citizens of weaker sections. They could not apply for bail due to lack of money. Many times the criminal spent more time in jail than the punishment for the crime. KapilaHingorani filed a PIL in this favour and 40,000 people were released by the Bihar government. Who had spent more time in prison than his conviction?

- Later, the women's cell at the police station is also the result of a PIL filed by KapilaHingorani. Converting government buses into CNG buses in Delhi is the result of PIL. Catching large scams is also the result of many PILs. A ban on public smoking was also imposed as a result of a PIL.
- Similarly, moving forward Apoorva Mishra, the root cause of RTI is hidden somewhere in the emergency that there should be some way of communication between the people and the government.
- Before 2005, when all these efforts were made, any person who asked for any clarification from the government was under the Official Secrets Act 1923 which was implemented in India by the British. The British certainly suffered from a colonial mindset as they did not want to share policy decisions with any Indian. That is why he established the Secret Act of this way, but after independence no secret act of this method is needed. According to Article 19 Fundamental Rights, the right to information is necessary for the exercise of fundamental rights.
- The basic people of all kinds of powers in democracy. Therefore, the public has the right to know this. This case became clear from Raj Narayan vs Indira Gandhi.
- And because of this the current form of RTI came into being. The core of RTI is that maximum information should be shared, only special information which is related to national security should be hidden. If you do not reply for 30 days under RTI, then applicants can go to the State / Center Information Commission. If you do not get an explanation then you can go to the Supreme Court. If an IS has given false information in RTI, tries to hide the information, then its service record is bad and service record is very important for a government official. ITIs do not require local standi like PIL. You can do RTI for anyone else wherever you are. RTI is very easy to do, even on simple paper. Shri Apoorva Mishra said that RTI and PIL is a powerful medium to make people aware of their rights in the present times.

Type of the programme: -Online Internship

Date: -June 05, 2020

No. of Participants: -129

Topic: -Bharat-India's journey towards making Smart Villages

Speaker: -Mr. Himanshu Patel

He is the youngest sarpanch of India- Sarpanch of Punsari village for the tenure of 2006-2016 and has turned the village into Model village of India. Under his tenure Punsari was awarded with "Gaurav Gram Sabha".

PM Narendra Modi has acknowledged Punsari village as "Adarsh Gram" in 2014, "Aatma Gaamni-Suvidha Shaherni" (the soul of Village- The facilities of city) was his motto for Punsari village

He is currently working for Smart Anganwadis Project for 11 states of the country, Created Smart Sarpanch Group of around 1000 Sarpanch all over the country and giving training to them for the Model Village concept.

Objective: -Understanding ground level realities from the speaker and also channelizing youth's energy in transforming India.

Venue / Digital Platform: -Zoom digital platform, YouTube

Video link: -https://youtu.be/lfrze1Fb_E

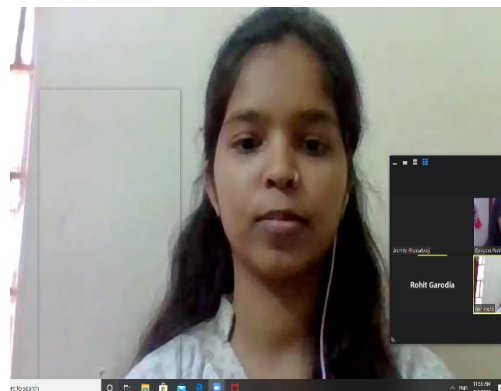

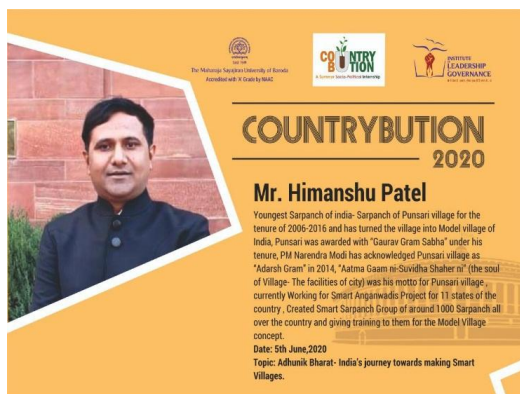

Activity Description: -

- Himanshu Patel explained the concept of Adarsh Village, that there are 650000 villages in the country and 255000-gram panchayats. He also used to come to the village on Diwali like the common people and contested in 2007 after graduating in 2006 when he had to stay in the village. He says that he won by losing the election of sarpanch. When he first became a sarpanch at the age of 23, by a margin of 50 votes, he came to experience that perhaps what the old elderly grandfather of the village used to say was right. Taking the village in the direction of the ideal village or smart village was not so easy. The election of Sarpanchi is much harder than the election to the Lok Sabha Rajya Sabha Assembly. All of you can understand this well. Internal Politics, Dirty Politics and Mouth to Mouth Talk constitute a large part of rural elections. If you come to power, then you know how much our strength is and at what level can we change? When Himanshu Patel came for the first time, there was no office to sit in the Gram Panchayat. Only 30% of the houses in the village had toilets and tap water was not available.
- In order to improve the village, it is very important to have the involvement of those people to take the village in the right direction. There is as much difference between an ideal village and a smart village as we understand between India and Bharat. Providing 100% toilet for people, 100% drinking water system and not only drinking water system, but also pure. When it came to mind that drinking water is available to the people of the village but their TDS is 2800, and then arranged RO water in the village.

Every house in the village has connectivity with the road. There should be availability of electricity in the village as well as employment in the village.

- Mr. Himanshu Patel told that in the initial stage of this journey, it was seen that what the young Prime Minister should do, sitting on the chaupal at the crossroads in the village, what the Chief Minister should do. Let's discuss this. I told them that if something has to be done, then let us provide pure water to the people of the village. I started several government schemes of the Finance Commission in the village. Drinking water for ₹ 4 and if cold water to drink, then 20 liters of water at ₹ 6 per liter made available to the people of the village.
- Cluster Village was created and at that time people could not think that the facility of public announcement should also be in the village. WiFi facilities should also be in the village 10 years before today. It was made available to the people of Punsari at that time so that the people have a connection with the government schemes. If the people of the village do not know about the government schemes then how will they be able to take advantage of them?
- Today the progress of the village is that more than 97% of the family is connected with the government scheme. Initially there was a lot of protest. People in Gujarati newspapers also protested that what it wants to do is youth, but I knew my direction is right. Security camera in the village at a time when it was not prevalent even in cities. Then get this facility provided as it is also necessary to monitor the system.
- Anganwadi School post office all these people have constant contact in the village. If there is any deficiency of any kind in the running of a Steering Committee in the village by connecting all people, then these people. To improve it. Birth rate, education rate, availability of employment will work on all these, only then the vision of the ideal village will come true.
- He believed that the people of the village should also be on Twitter, but they should also read 16 chapters of Gita. And the result of all these efforts was that in 2014 Punsari was declared the best village in the country.
- When we work in the village, it is seen that 50% of the youth is public work, social work and therefore contribute. 30% people find their advantage in it and 20% people oppose it if we need 100% people support to create ideal village status. If the most beneficiary of Mudra schemes is in a village in the country, then it is a Punsari. SBI gave a loan of about one and a half crores and today I can proudly say that there is not a single NPA case in my village if this country has to be taken to the level of Vishwa Guru. Out of 6:30 lakh villages, at least 1 lakh village will have to be made an ideal village. Today I am not working only in Punsari. I am going around the country and training the sarpanches of about 1000 villages so that the Punsari model can be replicated all over the country. If any village has to be taken in the direction of progress. If the ideal village is to be built, then the youth of that village, the women of that village and the children of that village, this is the biggest power to handle that village. If all the villagers work together with positivity, then it is possible to realize the ideal village.

DAY: 8

Name of the Programme: -Contribution 2020-Summer Socio-Political Internship

Type of the programme: -Online Internship

Date: -June 06, 2020

No. of Participants: -132

Topic: Organic Agriculture

Speakers: - **Mr. Shantanu Sukhdevkar.**

He has Graduated from The Maharaja Sayajirao University of Vadodara and by occupation he is Farmer having farms located at Shri Sukhdevkshetra, Rajpipla.

He is currently Researching and practicing “JaivikKheti” on the main plantations of Mango and Banana.

Objective: - Understanding ground level realities from the experience of the speaker and Channelizing Youth’s Energy in Transforming India.

Venue / Digital Platform: - Zoom digital platform, YouTube

Video Link (if any): <https://youtu.be/9y0RgTzRRGQ>

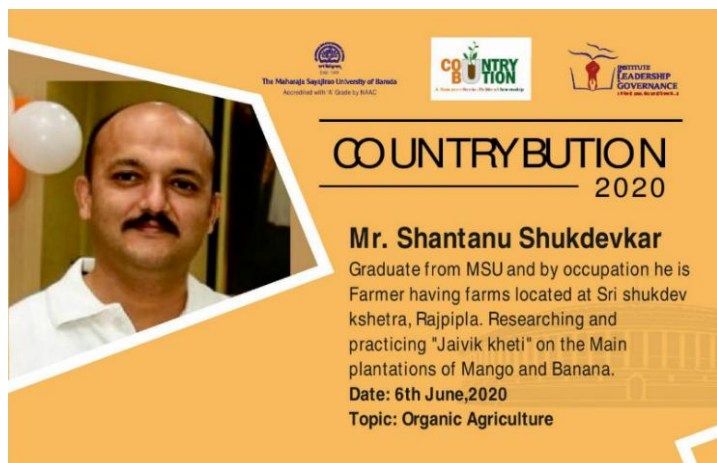

Activity Description: -

- He said that organic farming is a very profound subject affecting our lives. 55% of our country's population lives in 6.70 villages. Agriculture has a profound impact on the economic system. The point being 1% agriculture growth is .5% industrial growth. And .7% increase in national income.
- The first Green Revolution took place in India in 1965 whereas in the western world it was only in 1850. The sad part is that after this the use of chemical fertilizer in our country increased in greater quantity. After giving 5 times more yields in the beginning, now it is seen that even after adding a greater number of chemical fertilizers, the yield is

not increasing. It is a matter of concern that when we did an investigation, it was found that microbes used to change the state of chemical fertilizers.

- Their quantity is only in the condition of ending up in the soil. It is seen that the chemical fertilizers and the Green Revolution brought benefits or more losses to our country. Punjab, which is the most agro-based state in India, runs a cancer train from Bathinda to Bikaner. That is, farmers put so much chemical fertilizer in their land that they also poisoned their crops. In the present situation we have no other choice.
- That we have to turn to organic farming as soon as possible. There is also a fear and mindset that if the chemical fertilizer is not put in the earth, the yield is reduced by about 30% in the first 3 years. But if we do not return to organic farming. So, a bigger threat than Corona has stood before us. Due to misuse of chemical fertilizers, the air is standing on the verge of destruction of the soil and the entire ecosystem. Cow is an essential medium for us in organic farming. Organic farming has been a part of our culture since very old times. Eco system balancing has been done in our country for thousands of years. Compost from cow dung can be cultivated for about 10 to 15 acres and very good yield can be taken. At present, quality as well as quantity have to be given a lot of attention. Gomutrais also used as a pesticide.
- When farmers use chemical pesticides, scientific research suggests that a substance called nitrous oxide is produced which is CO₂. Is 300 times more harmful. Increasing the yield of the farmer is not the only reason for his income growth. Further, Shri Shantanu Sukhdevkar said that we have to worry about organic products being available to all sections. It should not happen that the organic product is confined to a particular elite class.
- For the western world, globalization means that the whole world is a market for them, whereas for us VasudevKutumbakam means that the whole world is a family for us. This basic ideology makes us different from the western world. And this is the difference between the idea of organic farming and organic farming. There are 835000 farmers doing organic farming in India today, but even then, there is a lot of competition in front of us. And today Australia is leading the world in organic farming. Australia dominates 36% of the organic product. Many states have started working in this direction too, like Sikkim has declared itself as a biological state. To make organic farming successful in India, one has to move towards cow base farming. It is a matter of excitement that our farmers are seriously thinking about this subject and are slowly moving in this direction. Today, a market of 100 billion organic products has been opened in front of us.
- The subject is how ready we are for that, organic farming can prove to be a big step towards self-sufficiency. But for this, both the society and the farmer have to step together.

Screenshots of the event

DAY: 9

Name of the Programme: -Countrybution 2020-Summer Socio-Political Internship

Type of the programme: -Online Internship

Date: - June 07, 2020

No. of Participants: - 123

Topic: GramSwaraj and EkatmaManavvad- India's answers to Economic crises

Speakers: -**Prof. Shri Prakash Singhji**

He is faculty at Department of Political Science University of Delhi.

He is Former Chair Professor at DR. Ambedkar Chair in Social justice Indian Institute of Public Administration.

Objective: - Channelizing Youth's Energy in Transforming India and Learning various aspects of governance, administration, entrepreneurship, industry etc. and many other fields necessary in Self-Reliant India

Venue / Digital Platform: - Zoom digital platform, YouTube

Video Link (if any): -https://youtu.be/P_Y1g1xabFU

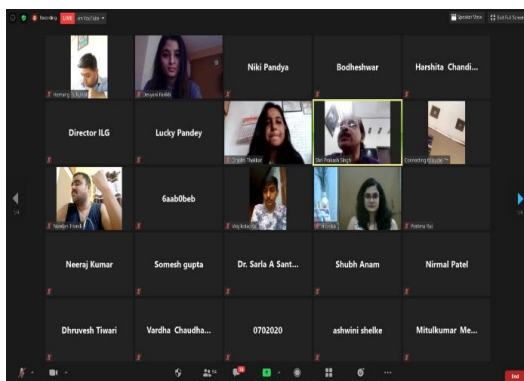

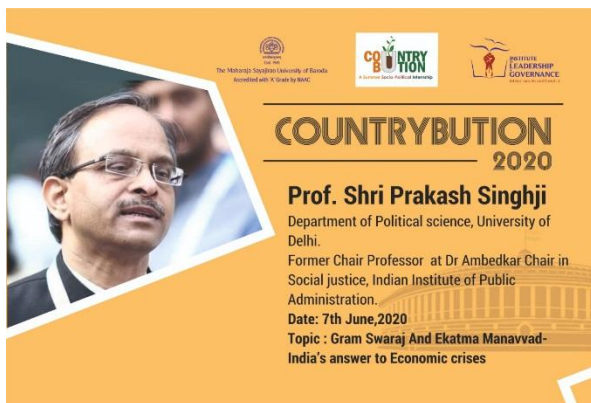

Activity Description:

- The focus of the speaker was on the three topics throughout the session: **Gramsaran, Self-reliant and India's response to economic crisis.**
- He addressed that The GramSwaraj, a special term coined by Mahatma Gandhi and later developed by Vinoba which promotes conversion of every village into a self-efficient autonomous entity where all the systems and facilities for a dignified living are available. Gandhian ideology has inspired to keep human happiness in tandem with sustainable growth. Swaraj is self-rule with continuous effort towards independence and self-reliance. Gram Swaraj or village self-rule is decentralized, human centric and non-exploiting. It adheres to working towards simple village economy and to achieve self-sufficiency.
- Good governance demands respect for human rights, rule of law, strengthening of democracy, promoting transparency and capacity in public administration. The

responsiveness of the state and its institutions to the needs and aspirations of the people, and inclusive citizenship are imperative to good governance. Democracy depends upon the equality of all human beings, their right to participate in social and political transformation and the right to development, to live in dignity. Panchayat Raj is a system and process of good governance. Villages have always been the basic units of administration in India since ancient times. The Gram Sabha can become the cornerstone of the whole Panchayat Raj institutional set-up, thereby the Indian democratic system. So, the focus is on Gandhian concept of Panchayat Raj. This is useful to development of India. So, in 21st century this concept becomes powerful in the Nation.

- It's the vehicle that was most ideal to initiate both political and economic democracy at the grassroots level was the Panchayat Raj system. Mahatma Gandhi's tours all across the country reinforced his convictions that India would benefit if the villages were governed by Village Panchayats based on the principal of "simple living and high thinking". These were village republics which were self-contained and self-reliant and having all that people want. These were the institutions where minimum standard of living could be accorded to all human beings. An individual has maximum freedom and opportunity to develop his personality to the greatest extent. In this republic, there would be a diminution of the state and the roots of democracy deepened. According to him centralization cannot be sustained as a system without adequate force.²
- The affairs are to be managed by Panchayats consisting of five persons elected annually. Gandhi aimed at the individual the centre of the local administration. People are expected to take personal interest and turn up in large numbers at the meeting to deliberate problems of common interest such as village industries, agricultural production, obligation and planning.

Screenshots of the event

DAY:10

Name of the Programme: -Countrybution 2020-Summer Socio-Political Internship

Type of the programme: -Online Internship

Date: - June 08, 2020

No. of Participants: - 115

Topic: Volunteering- a social perspective towards making a new India

Speaker: - Ms. Swathi Ram Mam

She is the Vice President at “Socially Good” - the world’s first online market place social change.

She is currently the National Executive Member at youth for Sava.

Objective: -Learning tools which can make Citizens an effective part of governance and Channelizing Youth’s Energy in Transforming India

Venue / Digital Platform: - Zoom digital platform, YouTube

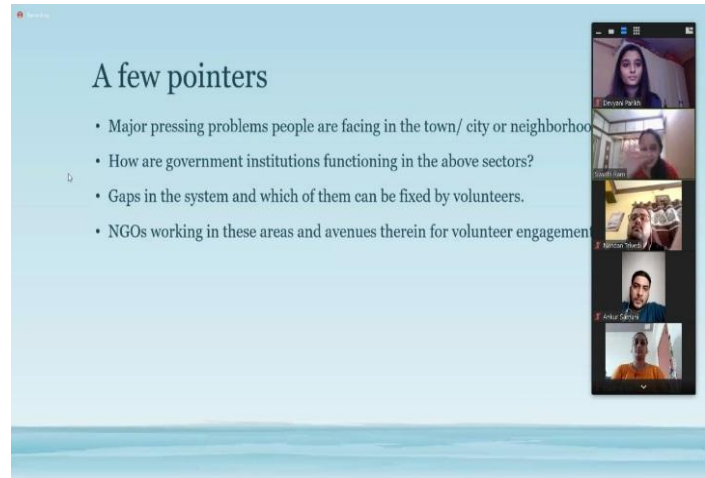

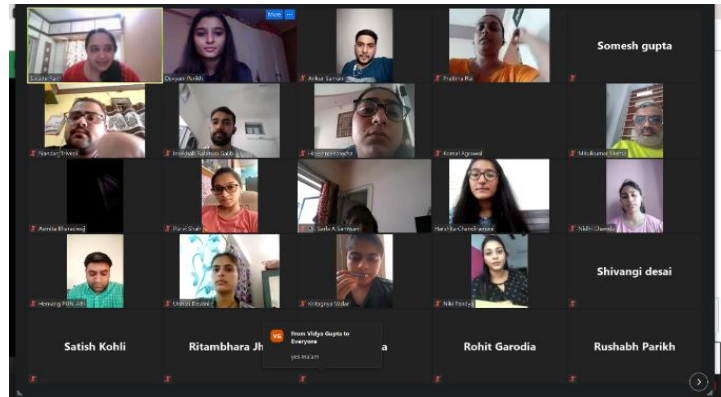

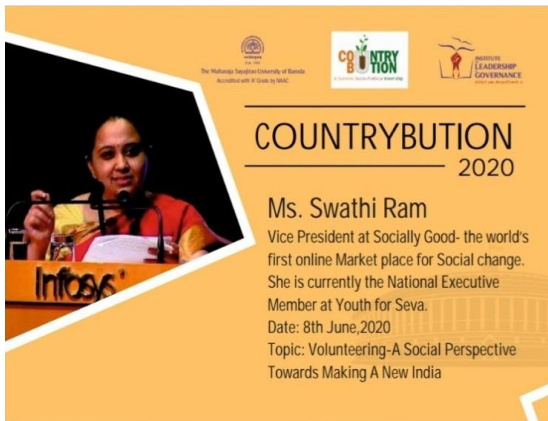

Video Link (if any): <https://youtu.be/jrZElhEqzA>

Activity Description: -

- Keynote speaker Swathi Ram told the participants that two-thirds of the country's population is young, full of energy, wants to do something, even after all, the present form of India is not very satisfying. It can be seen in depth that despite having such a large youth power, our country is struggling with very basic problems.
- The main reason for this is the lack of a sense of nation building. Our general belief is that development is the sole responsibility of the government. While it is the responsibility of every Indian citizen as a whole. Volunteering is an activity that uses our time, abilities, and qualities to raise the standard of living of others without feeling of any benefit. Volunteering awakens the sense of complacency in us, say 52% of the volunteers while 30% consider it as social work experience but a sense of service that I can change with my efforts in the lives of others, He is the origin of volunteering.
- When volunteering, one should keep in mind what others need. Service is the very basis of self-transformation. When we make small positive changes around us that is the basis of big change. Small good works are the basis of great works. The atmosphere of positive and mutual cooperation is created by solving local problems, while the role of social changes is created.
- If we look closely, we can see deep meaning in these words:
- Survey Bhavantu Sukhin Survey Santi Niramaya Survey Bhadrani Pashyantu

Only the spirit of happiness and health of the all-purpose beings is the root of volunteering. If all citizens, especially the youth, can bring this feeling into their lives, then it is possible to build a developed nation.

Topic: History of Constitution Making- A first step towards Self Reliance

Speakers/Experts/ Resource Person Details: -Prof.(Dr.) Amit Dholakia

Prof. Amit Dholakia teaches Political Science at The Maharaja Sayajirao University of Baroda, Vadodara, and Gujarat.

*Earlier, he has held the positions of Provost (Vice Chancellor), GSFC University, Vadodara and Registrar, The Maharaja Sayajirao University of Baroda.

*His areas of academic interest include peace and conflict studies, Indian political system and Gujarat politics.

*He has published two books and several research papers and book chapters. His articles are regularly published in the mainstream and digital media.

*Prof. Dholakia has been invited to participate in international academic programmes in the United States, Germany and Sri Lanka, apart from numerous seminars and conference in India.

*He is the Secretary of the Baroda Lions Education Trust.

*Vice President of the Samvitti Foundation and a trustee of the GSFC Science Foundation." GSFC University, Vadodara. Former Registrar (Officer on Special Duty), the Maharaja Sayajirao University of Baroda

Objective: -

- 1-Channelizing Youth's Energy in Transforming India.
- 2-Learning various aspects of Governance, Administration, Entrepreneurship, Industry, etc. and many other fields necessary in self-reliant India
- 3- Learning tools which can make citizens an effective part of Governance system

Venue / Digital Platform: - Zoom digital platform, YouTube

Video Link (if any): <https://youtu.be/Kk5NycheCsE>

Activity Description: -

- Dr. Dholakia said that the word 'Constitution' refers to the relationship with the government somewhere. Government is not a person's word as it sometimes appears, but the government is a group of power that is established and governed by law. The basic meaning of government is the law.
- The person is limited to following the rules only. The law is built on the principles of Fundamental Rights. The constitution has been called the Mother Institute, on the basis of which other interpretations have been done by law. On the basis of this, other laws are envisaged but rather the constitution of the state comes out on the basis of the constitution.
- The constitution is the most important compilation for any nation. Even in ancient times, there was a system for controlling the emperor's emperors. The present form of a systematic constitution for running democratic governments emerged after 17 -18th century. The biggest contribution to this was the USA, where the first systematic written constitution was presented as an example. The Constitution of India is one of the most balanced legislations in the world, due to which such a diverse country is on the path of development. The average age of constitution made after 1947 in colonial states is only

17 years. Second, the classification of power in which a balanced classification of power is made between the administrator, the judiciary and the executive and the third fundamental right

- Very few constitutions of the world have protected the rights of the public. But the Constitution of India provides protection of rights to citizens. Our constitution gives administrative powers to a three-tier government system so that the classification of functions can be done in a big way. The Supreme Court has been made the protector of the rights of the citizens of India. The public is ultimately universal. The rest are subsidiaries. The Indian Constitution is the largest written constitution in the world. The former role of the Constitution was hidden in Swaraj. Our struggle was not only for independent attainment, the basic feeling of freedom is self-rule. Self-government includes decentralization of power, protection of indigenous, cultural heritage, etc. The future constitution was laid out at the All-Party meeting after opposition from the Simon Commission. A draft of this was presented in 1928.
- This draft became the authority of the working of the Constituent Assembly in 1946. On 26 January 1930, PurnaSwrajwas demanded.
- The foundation of India's independence was laid during the Second World War. The constitution was ready in November 1949, but the constitution came into force on 26 January 1950 due to the feeling of 26 January PurnaSwraj Day.
- In the end, we have to understand that a word like freedom is not complete in itself. The power and future of freedom is hidden in Swarajya in which self-reliance is inherent in itself. The meaning of Swarajya is that people can make beneficial decisions and policies

DAY:13

Name of the Programme: -Countrybution 2020 Summer Socio-Political Internship

Type of the programme: - Online Internship

Date: - June 11, 2020

No. of Participants: - 190

Topic: Transforming Education: Real time challenges in virtual ways.

Speaker: - **Dr. Manpreet Manna**

President Awardee

Former Director AICTE

Member of UNO SDG4

Advisor at Asia Entrepreneurship Skill association

Sr. Member IEEE, US; ISRD HK; IACSIT Singapore

Objective/ Concept Note of the event: -

- Channelizing Youth's Energy in Transforming India
- Learning tools which can make citizens an effective part of Governance system
- Understanding ground level realities from relevant experts.

Venue / Digital Platform: - Zoom digital platform, YouTube

Video Link (ifany):<https://youtu.be/nc6gRld38LU>

Activity Description: -

- Dr. Manpreet Manna told the students that according to a survey conducted on 27 March 2020, 150 million students will be affected by Corona. According to a survey, 43% of the people do not have internet facility at home. 82 crore people do not have computers at home and 72 crore students have at home.
- This is also a big problem. India is the second-largest population of the world, where the number of Internet users is increasing very fast. So, it has increased from 18% to 38% in a few years. It is also a matter that 97% of our total users use the internet through mobile phones. In the coming times, we have to understand that the business life cycle is going to be 25 to 10 years due to reduction. Education currently needs to be redesigned, redesigned, and reimaged. He said that nowadays many professors complain that students do not have books. But they have to understand that in this era of technology, we will have to use new technology tools to spread education. Today is the time that we have to redesign the National Education Policy. Why our students are not ready for international jobs? He further explained that through open education learning, models, slip learning, and Massive Online Open Courses, we are helping our students to compete.
- The 3 pillars of education are Curriculum, Conduction, and Evaluation. In these three, we have to understand how we can use more and more technology. Artificial intelligence is going to have a lot of use in the education system in the coming times. The teacher can use it in voice assistant. I can use this for advanced facial recognition. It can be used for emotional monitoring so that maximum concentration in the classroom can be studied by students.
- Artificial intelligence will prove very useful. He further explained that we have to understand the 5R theory in open education. Regarding flip learning, he told us that in the

Topic: Skills for effective Leadership in 21st century

Speakers: -**MrBhargav Parekh**

He is senior program manager, Primal Foundation for Education Leadership.

He is Coordinator at Samastri institute for integrative learning, PhD School, the Faculty of Social work (MSU)

Objective: - Channelizing Youth's Energy in Transforming India

-Learning various aspects of Governance, Administration, Entrepreneurship, Industry, etc. and many other fields necessary in self-reliant India

Venue / Digital Platform: - Zoom digital platform, YouTube

Video Link (ifany): <https://youtu.be/fBBLJWBJ72w>

Activity Description: -

- Bhargav Parekh trained the participants on the Skills for Effective Leadership on 12/06/2020 on the fourteenth day of the Contribution 2020 under the auspices of The MS University Vadodara and Institute of Leadership and Governance. The speaker started by asking questions to the participants, what are our expectations from this course?
- The basic reason for learning and learning new is the need of 21st century leadership in the shade of human values today. In the coming times, the relevance of the three skills will be maximum Learn, Unlearn and Re-Learn. It is important to understand what leadership means to us? Learning has three parts. Input, Process, Output.
- According to Harvard University, Leadership is an art that encourages and gives direction to others so that they can work towards achieving the goal set by consensus while maintaining unity, ethics, and positivity in the group. The opportunities and competitions of the 21st century will be brand new. 21st-century leaders will have to learn to align servicing empowering these four elements, according to noted author Bill George.
- According to Daniel, the quality of coaching others is very important for the leader. In today's time, it is very important for the leader to be an expert on the subject. Doesn't being a technical master decide that you will be a good leader? But if you have a mastery in your behaviour, it is very likely that you can become one.
- Conscience is of the highest importance with all abilities. Without conscience, we cannot understand global human principles without which leadership is of no importance. Only high ideals and humane principled leadership can provide the right direction. Life values influence our behaviour as well as determine the direction of our leadership. What we do are our life values that we think are not our life values. Testing, understanding and elevating one is the first step towards leadership. It is most important to know yourself. Self-awareness develops the qualities of leadership. Well imported to Costume Sales management is its second step Self-configurationSelf-healingSelf-optimizationSelf-protectionAnd the third step is self-management Ability to delay gratification Company

Topic: -Entrepreneurship and Start-up Tools

Speaker: -Mr. KhushBrahmbhatt

- He has been working in the field of Start-ups since 2014 and has been developing concepts and communities for start-ups.
- He has played pivotal role by developing World's Longest Start-up Summit-SAYAJI STARTUP SUMMIT in 2017 and 2018 at MSU.
- He is also the cofounder of DeviAhilyaStart-up Summit. By profession, he is an advocate with an entrepreneurial attitude.
- Currently he is on a mission to create "The Start-up India Network" which will create 28 state-based communities. And he has his own law firm as well named "Aadharshila"

Objective: - Channelizing Youth's Energy in Transforming India

Learning various aspects of Governance, Administration, Entrepreneurship, Industry, etc. and many other fields necessary in self-reliant India

Venue / Digital Platform: - Zoom digital platform, YouTube

Video Link (if any): <https://youtu.be/FW7baVmJcQ>

Activity Description: -

- Under the auspices of The MS University Vadodara and Institute of Leadership and Governance, on the fifteenth day of the Contribution 2020 on 13/06/2020, Shri KhushBrahmbhatt trained the participants on Entrepreneur and Start-up Tools.
- One should remain positive rather than focusing on problems in life. The pace of life is constant. With the pace of life, working on resolving continuous problems should be kept moving forward. To become a successful entrepreneur, one has to lead a disciplined life.
- The biggest risk in life is to not take any risk, to complete any new idea, one has to constantly plan and work. If you have done a need assessment if you have a problem advising skill. So, you can be a successful start-up entrepreneur.
- We have to cultivate the patience of not listening. Only then can we finally succeed. Gujarat Government has launched the Student Start-up Innovation Policy. That is why the Government of Gujarat deserves thanks.

Undoubtedly, the path of self-sufficient India is hidden in entrepreneurship itself.

ASSIGNMENT: STARTUP ASSIGNMENT

1. Imagine you are looking for funding partner for your College event/school event or start-up but the interested stakeholders wanted your proposal in brief.

2. It can have text, audiovideo, poster, drawing, animation, doodles, sketching, cartoons or any kind of creativity is welcome to project your ideas etc in it but it should depict that how it is beneficial for stakeholder to invest in your college event/start-up.

We have created Google slide/Google docs/Google drawings that you can edit and send back to us.

Speaker: -**Mr. BhagyeshJha**

He is Retired IAS officer.

He has also been chairperson of Gujarat Sahitya Academy Gandhinagar.

He has served as Secretary of youth and cultural affairs of state government.

He is Receiver of best collector's award twice.

He has also the poet by heart and written many literary books in Gujarati and also receiver of "VishishthSanskritSewavritiSamman Award"

Objective: -

- 1-Channelizing Youth's Energy in Transforming India
- 2-Learning various aspects of Governance, Administration, Entrepreneurship, Industry, etc. and many other fields necessary in self-reliant India
- 3- Learning tools which can make citizens an effective part of Governance system
- 4-Understanding ground level realities from relevant experts.

Venue / Digital Platform: - Zoom digital platform

Video Link (ifany): NOT RECORDED

Activity Description: -

- The speaker told the trainees that for many years after the industrial revolution, the government has been seen as a partner with society and a promoter. We now see the role of the government as the facilitator going forward.
- As a collector, he told us that the collector should leave the AC room and be among the public. Should be in the middle of the public. Redefining the Role of Bureaucracy Why people have a reluctance to meet an officer. 72 There are reasons why a common man has to go to the Collector office. As a collector, he decided that a fixed time limit should be set for the works within which that work should be done. Bureaucracy has to be constantly prepared for uncertain disasters and problems.

Bureaucracy means public work management. In this, the responsibilities are clearly set out in writing or the responsibilities are fixed. Bureaucracy has to act according to the guidance of political leadership. If we will not come to bureaucracy with service and

It will be difficult to work if you have a feeling of power-seeking. In public administration, the responsibility of every person is fixed and he has to answer to someone. Here it is an arrangement.

- Major positive results can be achieved if bureaucracy uses social engineering. Corporate has learned a lot from governance. This is the Art of Science of Coordination. This society is full of diversities. You cannot be a successful bureaucrat if you are not inquisitive, not an apprentice.
- **ASSIGNMENT: BUREAUCRACY AND HUMAN EMOTIONS**

INSTRUCTIONS: -

DAY:19

Name of the Programme: -Countrybution 2020 Summer Social-Political Internship

Type of the programme: - Online Internship

Date: -June 17, 2020

No. of Participants: - 129

Topic: - Post Covid-19 industrial solutions

Speaker: - Dr. Ajay Ranka

CEO at Zydex Industries Pvt.ltd.

Director of International board of Road Federation (IRF)

Objective: - Channelizing Youth's Energy in Transforming India

Venue / Digital Platform: - Zoom digital platform, YouTube

Video Link (ifany):

Activity Description: -He explain how every business impacted by this (Pandemic) disruption in one way or another, industries are reflecting on 2020 as a significant inflection point in global operations. Business-as-usual is being replaced with a new landscape embracing remote connectivity and digital technologies. Tools for the reconnection are Capture and transmission of streaming Industrial IoT sensor and machine data Intelligence at the edge: gateway devices analyse and act in real-time. Smart asset tags and trackers help manage raw material and work-in-process assets throughout production, as well as finished goods, equipment, vehicles in the field.

Post COVID Industrial Solutions

By the perspective of India there are 4 major factors which will impact Indian economy in a very positive manner:

1. Dr. Ajay Ranka started with the crude oil prices being remain stable between \$30 -\$50 posts COVID which is a good sign for India with digitization being increased rapidly.
2. Cost of Capital for borrowing in industry is decreasing day by day i.e.in other words in International markets one can get capital/money on a lower rate of interest. Interest cost is a contributing factor in businesses of India.
3. Structural Reforms by Government in order to control the economic stress.
4. **Technology Enablement i.e.,**journey towards a virtual world.

Also, there are many factors which in inversely affect the Indian Economy at the same by unless we know how to control them, he added.

Presently there is \$73 Trillion Economy which will go up to \$200 Trillion by 2050. For creating this wealth in next 30 years youth will or can play a very important role.

How the wealth is generated? Or which country can be called a wealthy country? This we need to keep in mind:

1. Production of Good & Services is more per person i.e., Productivity per Person. In other words, increase of wealth with the increase in productivity
 - E.g. During 1910s & 20s evolution of Electric Bulb led to increase in productivity of people around & a huge amount of surge came and economy went up
 - 1960s – Automation, Assembly lines, roads, highways, increase in speed of commuting whole mechanization lead to productivity
 - 1980s - Computers made our lives easier
 - Last evolution in telecommunication & internet connectivity

How do we increase productivity in next 20 – 30 years?

- Automation will convert into robotization

In today's scenario in about \$1000 a human head can be simulated. 2016 is been remember because from that particular year more emphasis was started being given to Robotization or AI.

Cost of maximum technology related products have become cheaper and affordable by most of the country & companies. This will be the biggest revolution in next 30 year.

This technology will accelerate post COVID as economies are turning self-reliant.

- Impact of AI technology:

1. Labour employment (Industrial, Agriculture, Construction labour etc) for this we need to retrain or retool society
2. Limitations of Indian Industries in future (Where India needs to improve)
 - Innovation (Innovation as a mind-set of the country with sacrificial attitude i.e. at own cost)
 - Excellence (Companies pursuing excellence at their own cost will grow)
 - Worker or Executive shies away from hard work

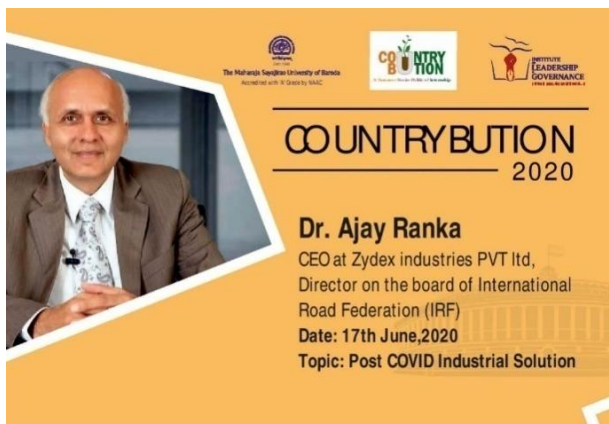

Post COVID Industrial Revolution we need to work on Innovation over Capital i.e., changing mind-set towards sacrificial attitude.

Hard work + Innovation + Faster work + Excellence will lead our country to desired GDP growth of 8 -9% unless we fail to follow this our GDP growth will stick to 4 -5% only.

Next Ajay Ranka Ji focused on Capital formation of country has dropped by 20% as we compare the same 15 years back and we need to work on that in other words for an industry to maintain positive cash flow in order to grow.

Furthermore, in the end, he commented on different sectors like agriculture, medical etc and its growth & effect post COVID and then we moved to Q&A session.

Screenshots of event

35

DAY:20

18th June' 2020 – Dr. Virendra Singh Chauhan

New Kashmir, New India

He initiated the session by quoting India/ Bharat is the oldest & ancient nation. 'New India' means we keep making new changes & alterations to our ancient India. 'New Kashmir' means after this abolishment of 370 & 35A we can proudly say now Kashmir is our Shirmani (King) of our Nation.

There were some issues in past which made Kashmiri hinder from many laws, schemes & facilities that are being provided to normal Indian. This has happened after since the Constitution of India came into existence in 1950s. And why were all these acts, laws etc. we're not applied to Jammu & Kashmir? Because there was this law mentioned in the constitution that stated without the permission of Kashmir Government & Vidhan Sabha no act, provisions, laws etc can be applied in the state except Defence & other 3 matters. In other words, Constitution of India will be applied in Jammu & Kashmir State through Article 370. There was seen a line of difference between the Government of India & Government of Jammu & Kashmir with different flags, constitutions, President, PM Etc.

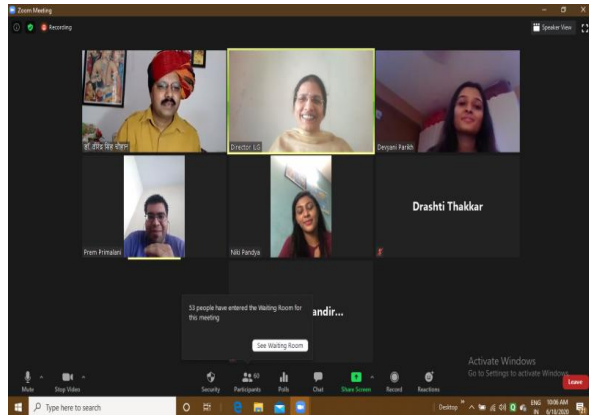

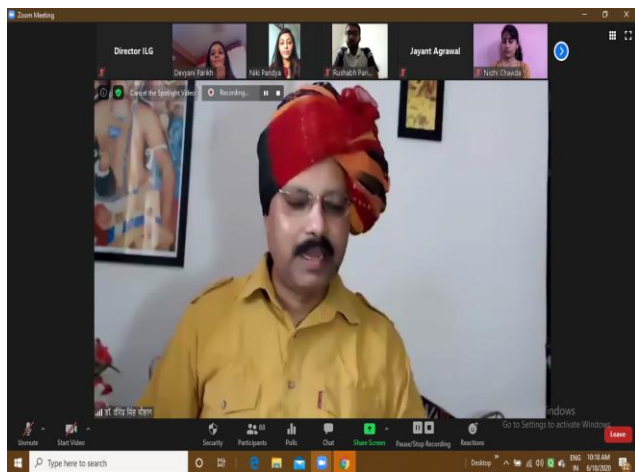

Many were against Article 370 but sacrifice of Dr. Shyama Prasad Mukherjee is to be remembered. Issue was raised during Constituent Assembly & many were against Article 370 but everybody was told that to apply Constitution of India in the state of J&K is which why 370 is there we'll remove it eventually. Almost every party was against article 370. Gulzarilal Nanda, Home Minister agreed to remove 370 & asked for time to make it work but it didn't work.

Now Veranda Ji discussed about the Article 35A. Article 35A was worse/ worse than Article 370. People were divided into two, which are State Subject & Non-State Subject. The worse thing about this article was no consideration was taken of Parliament before amendments made in constitution and with that also Constitution assembly also agreed. These amendments were made with the order of Dr. Rajendra Prasad and after this many lawyers, or the ones who were expert in constitution didn't know Article 35A existed in the constitution. This situation of not knowing about 35A came into existence when country started opposing this article few years before abolishment of 35A & 370.

He added in current situation, New Kashmir came into existence after Constitution of India was now applicable in the state of J&K i.e. abolishment of Article 370 & 35A. Now Kashmiris can enjoy same rights, duties, provisions, act etc like any other citizen of India after 3 decades of being deprived of any rights with one flag.

This is the whole gist of the session.

Some screenshots of the event

DAY 21: -

19th June' 2020 – Dr. JigarInamdar

Individual Social Responsibility

Dr. Jigar sir started his session by quoting “All Humans are Equal” there’s no point or very disgracing to distinguish them by their caste, religion, colour etc...

As our country is moving towards a Self-Reliant Nation, to use & to promote Swedish product is our dharma. From all our 5 senses it is very difficult to please taste sense and also give up our taste sense is all together a great sacrifice and it about sacrificing vidheshi and trust Swedish. Next, he mentioned about Regions Freedom, it is right of every religion to feel proud of it & respect it. But religious freedom is valid till we do not disgrace or demean other religions in other words we have to respect all other religions.

He added to respect every religion as Mahatma Gandhi has 11 vows. Jigar sir has attempted to relate vows with a person’s national character. If a person’s national character is not strong then our nation is also not strong, this has come from past experiences. Every Indian needs to understand India’s National Character.

Lastly He quoted:

- Onebajhan by “Vaishnavajhan to tenekahiye je pidhparayiJane re” emphatizing pain of others and also work for them is true sense of Individual Social Responsibility.
- Be your own version
- AdarshokaChayan (Choosing proper ideal)

19th June' 2020 – Shri TarunChugh

Valedictory session– “Self-Reliance, Sustainable Development Goals”

Tarunji started with greeting all of the participants. And session was started by listing down the work done by BJP government during the course of 6 years of BJP Government. Like URI Army Attack, Phulwama Case, Jan Dhan, SwachataAbhiyan, Ram Mandir Case conclusion, Article 370 & 35A abolishment, Kartarpur express etc...

He talked about Economic growth in India which has reached top 5 economies of world during this course of 6 years. 48 new airport building, Electricity in villages, Health schemes, COVID 19 period fight etc... India is successfully fighting COVID19 better than other developed economies. And Modi government to bring back economy to normal has launched 20 Lakh crore packages for the citizens. This government is successfully tackling the problem faced during this COVID19 phase.

In this fight of COVID19 & economy crisis, every Indian has to work to make India growth & make India a Self-Reliant Nation. Every Indian citizen has to work together to make this happen & make India growth worldwide.

45) LAUNCHING OF THE BOOK ENTITLED

“વૃષિલક્ષ્મણવરદાન”

Name of the Programme - Launching of Book entitled “વૃષિલક્ષ્મણવરદાન”

Type of the programme: - Book Launch

Date: -June 23, 2020,

Time: - 10.00 am

No. of Participants: less than 400 participants on Facebook live and in Pandit Deen Dayal Upadhyay Auditorium

Speakers: -

Dandi Sanyasi Shri Matsyaswami Pujya Shri SadanandSaraswatiMaharaj

About the event: -

This ceremony of book launching was conducted to launch a book entitled “વૃષિલક્ષ્મણવરદાન” authored by Adv. Tushar Vyas Ji, Former Member of the Syndicate, and The Maharaja Sayajirao University of Baroda by the pious Dandi Sanyasi Shri Matswami Pujyaand Shri Sadanand Saraswati Maharaj. This was the first event that was organized after the Covid-19 Lock Down on the auspicious day of અભિષેકવૃષ્ટિ, under the Centre for Indic Studies, Institute of Leadership and Governance.

Venue / Digital Platform: - Pandit Deen Dayal Upadhyay Auditorium and Facebook Live (ILG and MSU)

Activity Description: -

The dignitaries on the dais included Prof. (Dr.) Parimal Vyas Ji (Honourable Vice-Chancellor), Prof. (Dr.) M.N. Parmar, Dean (I/c.)(Faculty of Social Work), Dr. Reena Bhatia(Director, Institute of Leadership and Governance),Dandi Sanyasi Shri MatswamiPunjya,Shri SadanandSaraswatiMaharaj, Adv. Tushar Vyas Ji(Former member of the Syndicate, The M. S. University of Baroda), Dr. JigarInamdard(Founder Director, Institute of Leadership and Governance), The Maharaja Sayajirao University of Baroda.

The session was inaugurated by Prof. (Dr.) Parimal Vyas Jiwith due respect to Dandi Sanyasi Shri MatswamiPunjyaand Shri SadanandSaraswatiMaharaj. He stated the first event that was organized after the Covid-19 Lockdownon the auspicious day of અભિષેકવૃષ્ટિ. He thanked all the participants present on this occasion. Then after him, Dr. Rampal Shuklaoffered prayer to this occasion.

Thereafter the author of this book, Adv. Tushar Vyas Ji started his speech with our Nation facing multifaceted problems be it border issues, health issues and future challenges. Further he quoted the examples from Shrimad Bhagwat Geeta on positive mindset, how it is related to boon. He threw light on those great souls in the past who had no willingness for any kind of boon. He then ended his speech by thanking all the participants in the occasion.

Thereafter the book entitled વૃષિલક્ષ્મણવરદાનgot launched with the chants of SaraswatiDevji Mantra. He insisted that every course should compulsorily include the preaching of Bhagwat

Geeta Ji to inculcate certain morals in every individual life by quoting examples of BhishmaPitamah, Dhronacharya and Arjun. He had a good vision for the Baroda Sanskrit Mahavidhyalaya to impart the holy preaching of Shrimad Bhagwat Geeta Ji. He quoted the values of Nachiketa.

He strongly advocated that no change in the preaching past several thousand years. If we are not able to understand it, we must make efforts to understand it but taking out wrong meaning from this holy preaching should not be entertained.

He then threw light the souls after departing from their body religiously known as शरीरनिर्गमन . Everybody should have curiosity to go for moral learning. For all these qualities, human birth is the only one and the most valuable birth on this earth. He gave the moral of his speech to wish to reach to the Almighty and hence, all other wishes and wills will be of no value as a wish to reach God is the supreme of all the possible wishes. This would in turn relieve us from the pains of all kinds of sorrows in our life and would path a way towards the aim of ultimate human worth. He explained with a simplest way by giving an example of our wish to have a hut for us would be of negligible worth if we wish to stay in a big or a better house. Finally, Dr. Reena Bhatiaconveyed a warm vote of thanks to all the participants in the seminar.

Duration: -

Total no. of days: 01 day

Total no. of hours: 01 hour 03 minutes

Outcome: -

All the participants present in the ceremony learnt a lot from the Holy Speech of Swami Shri SadanandSaraswatiMaharaj. Majority of the participants expressed their wish to have the book for them.

Your view on the presentation of the speaker	Projected Confidence; Spoke brilliantly; Used sense of humor; Was spontaneous	Projected Confidence; Spoke brilliantly; Used sense of humor; Was spontaneous	Projected Confidence; Used sense of humor	Spoke brilliantly	Projected Confidence; Spoke brilliantly; Used sense of humor; Was spontaneous
Please give your valuable suggestions for improvement	It was the best webinar so far, I have attended many webinar till now but this one was mind blowing it would have been more amazing if the webinar for continued for longer time as it was only for 1hr, it was so interesting that I wanted to attend it for longer. I hope we get more webinar like this.	Presentation of the topic was excellent as always	Many more such topics can be conducted / one more thing I wish to highlight here how to engage the stranded mass during lock down at the shelter homes created by govt. I think we can contribute a lot	..

Total hours: - 42 hours (2hours/per day)

Feedback

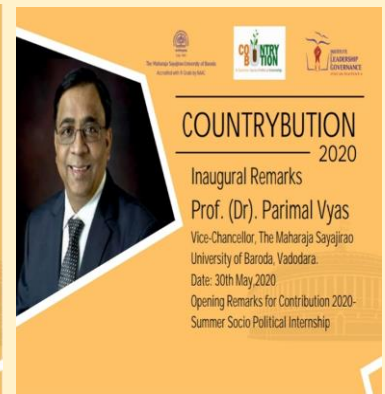

Activity description:- The speakers at inaugural session put forth their wonderful insights to give the cheerful start to this internship where all the three speakers guided the interns regarding the self-reliance driven leadership and enlightened them regarding the importance of youth to implement the concept of Work Local Lead Global.

- Ram Madhavji clarified the spirit of self-reliance and said that we have to take the country forward by understanding the vision of Hon'ble Prime Minister Modi ji. In the crisis of Corona period, PM Modi has presented India as an example to the whole world.

- The entire Indian society faced this crisis with strength and discipline. But in the coming times, we have to be ready to face the financial difficulties and overcome this crisis. Self-reliance and self-reliant India is the responsibility of all citizens. Japan can also stand back after attacks on nuclear weapons, the root cause of which is a sense of self-reliance and self-respect. Any country stands by the awakening of its people and society. Calling the youth, Shri Ram Madhavji said that for our brands to have a global identity, we also have to be ready for this.
- We need to strengthen the ground level economy. We have to travel from indigenous to self-reliance. The time is now for Act Local Think Global. We have to prepare according to the global market. A new world order is being created after the Corona crisis. Renewable energy, climate change and health issues will be major topics in the future. Ayurveda, Yoga and Indian cuisine are giving direction to the entire world. Further, Shri Ram Madhav Ji said that there is a lot of potential to lead Indian youth in the field of Artificial Intelligence and Robotics. The M S University can also do a lot in this field.

• **Pictures**

1. Brochure

30th May' 2020 – Dr. Jigar Inamdar

Principles of Visionary Socio – Political Leadership Vision 2047

Jigar Sir started by welcoming participant to 5th Year of Countrybution & congratulated the team. He briefed participants about the Countrybution and its concept.

He began with the topic by bifurcating the title & started with:

Principles – “Siddhant” in other words one which can be proven till the end

Visionary – One who can see future?

Socio – Political – Samajik & Rajnitic

Leadership – Netrutva

He said session will be divided into

- Past Politics
- Present Politics
- Future Politics or how politics should be in future

He gave example of Sardar Vallabhbhai Patel, when he died his bag was handed to his daughter Maniben in which there were some clothes, money and 15 lac rupee in an envelope reading National Congress fund to be handed to Nehruji which was handed over to Nehruji by Maniben. In this situation if he wished he could have kept the fund or by politics he could have made a lot of wealth but instead he worked for our country for years, he respected the word of Gandhiji and gave up the post to become Prime Minister and he did many more things.

We can also take example of Lal Bahadur Shashtri ji. His bank balance was also similar to Sardar Patel ji which we need to appreciate and get inspired from.

Presently there are also examples of corruptions or IT raids in politics. Even a Sarpanch who has no vehicle to commute has four wheeler within 6 months of his period this is the face of present politics. And if we can vision politics of 2047 considering this example we could clearly imagine what could be the situation.

Principles are of 3 types:

- Truth (Satya)
- Authenticity (Pramanikta)
- Kartavya Nishtha

Truth & authenticity are both interrelated with politics in some way or the other.

As our topic is revolving around politics we need to understand what politics is. Politics means power our target is to not letting anyone exceed from us or move ahead from us & all other things of ups & downs revolving around the power. Politics has two types of allegations one is money & other is character.

Afterwards he gave examples of past political leaders like Nehruji , Indira Gandhiji, Shashtri Ji, Rajiv Gandhiji and explained that every leader can make some mistakes with that they have achieved something for the country so we cannot judge any situation instead see situation with eyes of truth.

Truth has types which are your truth, mine truth & actual truth.

And by all these examples if we need to see what politics of 2047 will be like for that we have to develop our mindset to openness and acceptance of the truth.

Day 2

Name of the program: - Countrybution 2020-Summer Socio-Political Internship

Type of the program: - Online Internship

Date: - May 31, 2020

No. of Participants: - 143

Topic: Self Confidence to Self-Reliance

Speakers/Experts/ Resource Person Details: - Mr. Pratap Rao- He is Prominent Journalist and content Head at “RITAM”.

He has worked as a consulting editor and editor in chief in various news channels.

Objective/ Concept Note of the event: - Understanding the ground level realities with the diversified experience of the speaker and turning the youth’s mindset towards nation building and self-reliance.

Venue / Digital Platform: - Zoom **digital platform, YouTube**

Video link: <https://youtu.be/jEnQ5hyQsEk>

Activity Description:-

- The keynote speaker Shri Pratap Rao Ji while addressing the participants said that the Corona has given us an opportunity to think about the country, the recognition of India that the world has demolished that concept. This mutual understanding and cooperation is our great strength, our morality is our inner strength.
- We will progress on the basis of this morality. The vision and path of Modi government is absolutely clear, it is a matter of great pleasure. Recovering from Corona's initial position, we can now confidently say that Corona will lose and the country will win
- Now we are moving towards unlocking not lockdown. This is a result of our strong mindset and confidence. It is the achievement of the Corona period that the confidence of Indians has not deterred but has strengthened.

Day 3

Name of the program: - Countrybution 2020-Summer Socio-Political Internship

Type of the program: - Online Internship

Date: - June, 01, 2020

No. of Participants: - 147

Speakers/Experts/ Resource Person Details: - Dr. Vikrant Singh Tomar

He is a young acknowledged management consultant.

He is an internationally certified NLP practitioner.

He is director at UMS India, director of Helios Business School, director of Maharaja Institute of management.

Topic: Great Team for Great Results

Objective/ Concept Note of the event: - Learning various aspects of Governance, Administration, Entrepreneurship, Industry, etc. and many other fields necessary for Self Reliant India

Venue / Digital Platform: - Zoom **digital platform, YouTube**

Video link- NOT RECORDED

Activity Description:-

- He addressed the participants on the theme **Great Team and Great Results**. Before starting the topic, he gave a parable that there was a small child. His father was able to give him less time as he worked in the army. One day the father was busy, but the son said that father, I want to play with you. Being busy and unable to play with the child, the father asked him to cut world map and said, "Fix it, and when you are done with it, then we will play together and he starts on his duty."
- After a while, the map was fixed by the child. Papa was surprised, asked how it is impossible to fix it, then the child said that father, I do not know that this is a map of the world. But when I turned back, I saw a picture of a human being and when I started connecting them, the world connected. Once you get the man's right to get the manager's right. The problem is not the addition of outside team. The problem is connecting the inside team. Civilizations are destroyed not by external invasions but by internal invasions.
- Referring to the Taittiriya Upanishad, he said, whenever a person works for himself, that work is most beautiful. It is best and when the same task has to be done for someone else, he gets tired in that work. have no interest
- Always ask yourself the first question. What is not known while doing it? What is that? What is the work you are not tired of doing and what is it that you are willing to do without money?

He said, Professors are also of two ways. By Profession by Default. Construction and Holocaust play in the teacher's dock.

So always try to find it. What are your blessings this is the blissful treasure of Tai tray Upanishad?

- What is the purpose of life and spend your life in the purpose? All the great people who have been born have some purpose in their life. While stating further, Dr. Vikram Singh Tomar said. Try to know what the world needs in today's time and try to find out what other things the world can give you value for. There are 2 ways in the world. One is on the basis of internal call and secondly on the basis of business, when a man works for his own self, he never retires. And when he works for business. So he has to retire for 1 day and he also gets tired. This is the science of science.
- Moving forward, he gave the example of Manomaya Kosh. When asked how you work with such concentration in Air Traffic Control at New York ATC, he said that our formula is One Flight at a time, in the sky, there can be thousands of flights in the sky. But let's focus on one topic, one thing, and one flight. Taking this topic further, he said that one problem at a time and one subject at a time is the same. Get focused on the work you have taken up. When you act the Promise done with you, it is called self-confidence. All these actions come under Pranmay Kosh. Come under action. Further Dr. Tomar said that after this we should also take care that what you eat? How do you keep yourself healthy? Giving the example of Guru Nanak Dev Ji, he said that the same kind of color is consistent. This whole life should be like a Yajna and you are a sacrifice. That is why in the Yajna we call swaha and as much purity, as much as mindfulness, as much diligence. God the Supreme Father tells us that we will invest as much energy as we do in grooming our lives. We will get the blessings of cosmic energy in return for this great goal.
- **SELF ANALYSIS ASSIGNMENT-**. Write down your own strengths, weakness, opportunities, and challenges (SWOC)?
- **HINT:** SWOC is a self-analysis method and constant efforts with this approach are a way to self-improvement .Write down 5 points in each category that could be a word or a sentence.

- 1. Describe about work or activity that gives you immense satisfaction and eternal happiness? Also, mention your privileges or things you feel blessed about?
- 2. Describe the purpose of your life?
- 3. What is the most required element that the world needs today? (Calling)
- 4. What skill do you have that can become the source of your revenue generation?
- 5. Does the purpose of your life keep you driven every morning to achieve it and live it?
- 6. Does the same thought pop up in your mind when you open your eyes every morning?
- 7. Do you put enough effort regularly to fulfill the purpose of your life?
- 8. Are you ready to come out of all the odds if you fail in achieving your goal?
- 9. Are you conscious regarding :
 - A. what do you eat as a portion of food and your mindset when you consume that food?
 - B. what are the energies or set of people whom you accompany or prefer to spend time with?
- 10. Are you aware or conscious about the people with whom you share your meals?

Day 4

Name of the program: - Countrybution 2020-Summer Socio-Political Internship

Type of the program: - Online Internship

Date: - June 02, 2020

No. of Participants: - 125

Topic: Post COVID effects on administration

Speakers/Experts/ Resource Person Details: - Mr. Shakti Sinha

Director of Atal Bihari Vajpayee Institute of Policy Research and International studies

- Distinguished fellow and Former Director of India Foundation

-1979 Batch IAS officer

- Former Director of NMML

- He has also served as a Joint secretary in the Prime Minister's office in the past.

Objective/ Concept Note of the event: - Learning various aspects of Governance, Administration, Entrepreneurship, Industry, etc. and many other fields necessary for Self Reliant India

Venue / Digital Platform: - Zoom digital platform, YouTube

Video link: www.facebook.com/themsubaroda

Activity Description:-

- He started the statement and told the participants that the Corona period is the biggest challenge for Indian society and system after independence.
- Even before this, there have been economic crises due to lack of some policy, but this crisis is due to health reasons. We have a lot of livelihoods here. In comparison to other countries, we have a lot of inequalities, such as many shortcomings in schools and hospitals in rural areas. If a license or document is required in the government sector, then the common man has to be very upset, but during the cyclone, election, natural disaster, we perform very well.
- This epidemic is testing our administrative capabilities a lot but all the government machinery including our officers have done very well. Railways has done a very good job. At the end of April, we were at number 16 in the global covid-19 list but on May 31, we had reached eighth position.
- If we add new cases, today we are at number four. We will be number one by the end of July. We have to accept this. This is a matter of concern for our population. We are also working on this with priority.
- But much better is also a 50% recovery rate and very low about 3% death rate is a very positive thing. Covid-19 spread rate is very high in Delhi Mumbai metro cities. The Delhi government is yet to make full preparations that large hotels are now preparing as Covid-19 treatment centers. State governments will have to get ready for Covid-19. One important point is that due to lockdown fatigue, we are also distracted by Covid-19. It is a matter of concern. It is an invisible enemy and there is no resolution available. Along with this, attention should also be paid to how the immune system of our citizens should grow. It is a matter of luck that our Prime Minister started making people aware of Yoga and Ayurveda 5 years ago.

- Further, Shri Shakti Sinha said that one of the topics to be noted is that 40% of the population in our country is migrant, but regular migrant labourers are also 10 crores. They also need to be resolved.
- We have 54 labor laws at the center, separate from the States. He said that along with all these problems, our education system also needs attention. DTC has a vacancy of 1000 drivers, Plumbers are not available in Delhi. There is a need to inspire the youth for all this but there is more need to train youth to become advanced economic power, work will have to be done in the field to make it study oriented.
- According to some reports, 27% of the labor force is unemployed, one-third units may not be able to reopen. The Central Government is seriously considering and taking appropriate steps to solve all these problems. But this is the collective responsibility of all of us during this corona period or disaster. It is the duty of every citizen. Let's work as a unit. If the government and society work as a single unit, then we will surely overcome this crisis.
- **ACTIVITY while in session:** Speech on “My Journey in the Lockdown: Interactive Experience Sharing session on how one has spent his/her time during the lockdown, What new thing you have learnt, What beliefs you have changed , any New Skills you have developed during the lockdown.”

Type of the program: - Online Internship

Date: - June 03, 2020

No. of Participants: - 136

Topic: Effective Communication Speech and Modulation

Speakers/Experts/ Resource Person Details: - Dr. Harish Vyas

He is Voice and Speech Trainer Faculty and course designer for “Anchor Host Announcer Workshop “at Lifelong education center” Vadodara.

He is having 27 years’ experience at faculty of performing arts, The Maharaja Sayajirao University of Vadodara.

Objective/ Concept Note of the event: - Channelizing Youth’s Energy in Transforming India

Venue / Digital Platform: - **Zoom digital platform, YouTube**

Video link: - <https://youtu.be/dwWtJYmYPjA>

Activity Description:-

He trained participants on the subject of influential speech art. Dr. Harish Vyas started the dialogue and said that speech is the most powerful medium of communication. There are many communication factors. Visibility is also body language, but speech is the most important. Krishnarjuna dialogue is also a unique example of speech effect which has overcome Arjuna's beau Karishyevava kamtava. On one hand, Draupadi became the origin of Mahabharata with her speech.

- The child first learns to speak according to family and environment.
- People are drawn to a person's speech and say if the speaker is there and if someone speaks in between, then they say that he is talking.
- We use this speech. Speech uses conspiracy, expressions in conspiracy.
- Speak in a different way with different people in a different situation.
- We all have a certain tone. It is God-given. Speech and respiration use the same system of pronunciation. Lip tooth palate nasal etc. The languages of our Indian origin which are made up of all Sanskrit are entirely scientific. Panini said that Shiva became a sutra by playing the Damaru of Lord Shiva, Panini became grammar. A is classified as hypnosis and B is in the category of aspiration. The pronunciation of b is heavier than A.
- Dr. Harish Vyas explained in detail about the alphabet's orthogonal palatal dentistry. Sturdier is the character of Veer Ras. These characters are not used in makeup juice. How scientific it is that child first learns the alphabet. Because at that age only the child learns the operation of the lips. Dr. Vyas went into the depth of the subject and said that communication is the basic pillar of diversity. For speaking while talking, attention should be paid to the important words such as stress, ascension, intensity of voice, volume of voice, speed of speaking, rhythm and punctuation style and melody. He also said not to give undue weight to all words. Babies often do not come to action. In the style of Gaita, do not speak and the last words should also be heard clearly, do not let loose. On all these topics Shri Harish Vyas Ji also made the participants to practice various examples.

Assignment: VOICE MODULATION ACTIVITY-There were two poems attached in assignment the voice modulation of two poems BHARAT ZAMEEN KA TUKDA NAHI and GEET NAYA GATA HOON written by poetic Prime Minister of India Shri Atal Bihari Vajpayee Ji.

2. Interns had to record their video reciting the same poems and be cautious about the voice modulation that's the prime focus.

Speakers/Experts/ Resource Person Details: - **Mr. Apurv Kumar Mishra**

- He is Faculty of Law at Asoka University and also the Senior Research Fellow at India Foundation.
- He has been the editor-in-chief of India Law Journal and also leads the Abhinav lecture series.
- He has previously worked at Washington based strategic advisory firm called Albright Stonebridge group

Objective/ Concept Note of the event: - Learning tools which can make citizens an effective part of Governance system

Venue / Digital Platform: - **Zoom digital platform**

Video link: Not Recorded

Activity Description:-

- According to him, after the Emergency in 1978, our law and order system changed a lot. The idea of increasing citizens' contact with the government was somewhere in the psyche of the Supreme Court as well. It is also the basic and positive beginning of all these rules. We have four types of rights. Directive principals are the legal rights of citizens in a legal sense, while protecting fundamental rights is of paramount importance. The basic element of duties is the directive principal.
- After this comes legal rights. The government can change the legal right by using its powers to change the list of rights. Earlier the right to education was in the moral rights directive principal, but after the 86th Amendment it became a category of fundamental rights. The Maneka Gandhi vs. Union of India case in 1978 played a major role in law and order changes. The Emergency was ruled by dictatorship. Then the Supreme Court also started thinking that citizens should be given some such rights so that such chaos does not happen again and governments become accountable to the people of the country. Maneka Gandhi went to the Supreme Court due to stop traveling abroad and confiscation of passport and argued that according to Article 21, free work is my basic right.
- Many such cases laid the foundation of rules like RTI and PIL. Giving rights to citizens is not enough, but arrangements have to be made to protect these rights. Protecting fundamental rights is also very difficult for the people of our country. PIL came into existence for this. Earlier, the lawyer and the court local stand used to ask what would be your personal loss, but due to RTI and PIL, the competent people were empowered to stand for the citizens of weaker sections. They could not apply for bail due to lack of money. Many times the criminal spent more time in jail than the punishment for the crime. Kapila

Hingorani filed a PIL in this favour and 40,000 people were released by the Bihar Government. Who had spent more time in prison than his conviction?

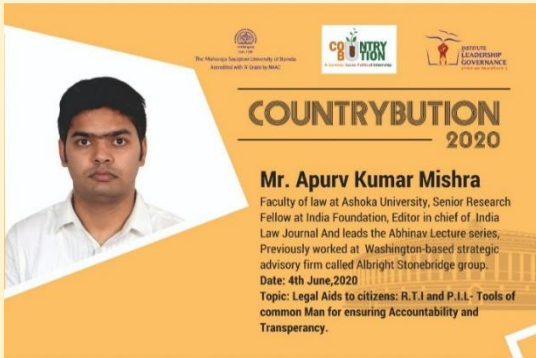

- Later, the women's cell at the police station is also the result of a PIL filed by Kapila Hingorani. Converting government buses into CNG buses in Delhi is the result of PIL. Catching large scams is also the result of many PILs. A ban on public smoking was also imposed as a result of a PIL.
- Similarly, moving forward Apoorva Mishra, the root cause of RTI is hidden somewhere in the emergency that there should be some way of communication between the people and the government.
- Before 2005, when all these efforts were made, any person who asked for any clarification from the government was under the Official Secrets Act 1923 which was implemented in India by the British. The British certainly suffered from a colonial mindset as they did not want to share policy decisions with any Indian. That is why he established the Secret Act of this way, but after independence no secret act of this method is needed. According to Article 19 Fundamental Rights, the right to information is necessary for the exercise of fundamental rights.
- The basic people have all kinds of powers in democracy. Therefore, the public has the right to know this. This case became clear from Raj Narayan vs. Indira Gandhi.
- And because of this the current form of RTI came into being. The core of RTI is that maximum information should be shared, only special information which is related to national security should be hidden. If you do not reply for 30 days under RTI, then applicants can go to the State / Center Information Commission. If you do not get an explanation then you can go to the Supreme Court. If an IS has given false information in RTI, tries to hide the information, then its service record is bad and service record is very important for a government official. You can do RTI for anyone else wherever you are. RTI is very easy to do, even on simple paper. Shri Apoorva Mishra said that RTI and PIL is a powerful medium to make people aware of their rights in the present times.

Topic: Adhunik Bharat-India's journey towards making Smart Villages

Speakers/Experts/ Resource Person Details: - Mr. Himanshu Patel

He is the youngest Sarpanch of India- Sarpanch of Punsari village for the tenure of 2006-2016 and has turned the village into Model village of India. Under his tenure Punsari was awarded with "Gaurav Gram Sabha".

PM Narendra Modi has acknowledged Punsari village as "Adarsh Gram" in 2014, "Aatma Gaamni- Suvidha Shaherni" (The soul of Village- The facilities of city) was his motto for Punsari village

He is currently working for Smart Anganwadis Project for 11 states of the country, Created Smart Sarpanch Group of around 1000 Sarpanch all over the country and giving training to them for the Model Village concept.

Objective/ Concept Note of the event: - Understanding ground level realities from the speaker and also channelizing youth's energy in transforming India.

Venue / Digital Platform: - **Zoom digital platform, YouTube**

Video link: - https://youtu.be/lfrze1Fb_E

Activity Description:-

- Himanshu Patel explained the concept of Adarsh Village, that there are 650000 villages in the country and 255000 gram panchayats. He also used to come to the village on Diwali like the common people and contested in 2007 after graduating in 2006 when he had to stay in the village. He says that he won by losing the election of sarpanch. When he first became a sarpanch at the age of 23, by a margin of 50 votes, he came to experience that perhaps what the old elderly grandfather of the village used to say was right. Taking the village in the direction of the ideal village or smart village was not so easy. The election of Sarpanch is much harder than the election to the Lok Sabha Rajya Sabha Assembly. All of you can understand this well. Internal Politics Dirty Politics and Mouth to Mouth Talk constitute a large part of rural elections. If you come to power, then you know how much our strength is and at what level can we change? When Himanshu Patel came for the first time, there was no office to sit in the Gram Panchayat. Only 30% of the houses in the village had toilets and tap water was not available.
- In order to improve the village, it is very important to have the involvement of those people to take the village in the right direction. There is as much difference between an ideal village and a smart village as we understand between India and Bharat. Providing 100% toilet for people, 100% drinking water system and not only drinking water system, but also pure. When it came to mind that drinking water is available to the people of the village but their TDS is 2800, then arranged RO water in the village.

Every house in the village has connectivity with the road. There should be availability of electricity in the village as well as employment in the village.

- Mr. Himanshu Patel told that in the initial stage of this journey, it was seen that what the young Prime Minister should do, sitting on the chaupal at the crossroads in the village, what the Chief Minister should do. Let's discuss this. I told them that if something has to be done, then let us provide pure water to the people of the village. I started several government schemes of the Finance Commission in the village. Drinking water for ₹ 4 and if cold water to drink, then 20 liters of water at ₹ 6 per liter made available to the people of the village.
- Cluster Village was created and at that time people could not think that the facility of public announcement should also be in the village. WiFi facilities should also be in the village 10 years before today. It was made available to the people of Punsiri at that time so that the people have a connection with the government schemes. If the people of the village do not know about the government schemes then how will they be able to take advantage of them?
- Today the progress of the village is that more than 97% of the family is connected with the government scheme. Initially there was a lot of protest. People in Gujarati newspapers also protested that what it wants to do is youth, but I knew my direction is right. Security camera in the village at a time when it was not prevalent even in cities. Then get this facility provided as it is also necessary to monitor the system.
- Anganwadi School, Post office all these people have constant contact in the village. If there is any deficiency of any kind in the running of a Steering Committee in the village by connecting all people, then these people worked and improved it. Birth rate, education rate, availability of employment will work on all these, only then the vision of the ideal village will come true.
- He believed that the people of the village should also be on Twitter, but they should also read 16 chapters of Gita. And the result of all these efforts was that in 2014 Punsri was declared the best village in the country.
- When we work in the village, it is seen that 50% of the youth is public work, social work and therefore contribute. 30% people find their advantage in it and 20% people oppose it if we need 100% people support to create ideal village status. If the most beneficiary of Mudra schemes is in a village in the country, then it is a Punsari. SBI gave a loan of about one and a half crores and today I can proudly say that there is not a single NPA case in my village. If this country has to be taken to the level of Vishwa Guru out of 6:30 lakh villages, at least 1 lakh village will have to be made an ideal village. Today I am not working only in Punsari. I am going around the country and training the sarpanches of about 1000 villages so that the Punsari model can be replicated all over the country. If any village has to be taken in the direction of progress, if the ideal village is to be built, then the youth of that village, the women of that village and the children of that village, this is the biggest power to handle that village. If all the villagers work together with positivity, then it is possible to realize the ideal village.

Topic: Organic Agriculture

Speakers/Experts/ Resource Person Details: - **Mr. Shantanu Sukhdevkar.**

He has Graduated from The Maharaja Sayajirao University of Vadodara and by occupation he is Farmer having farms located at Shri Shukhdevkshetra, Rajpipla .

He is currently Researching and practicing “Jaivik Kheti” on the main plantations of Mango and Banana.

Objective/ Concept Note of the event: - Understanding ground level realities from the experience of the speaker and Channelizing Youth’s Energy in Transforming India.

Venue / Digital Platform: - Zoom **digital platform, Youtube**

Video Link (if any): <https://youtu.be/9y0RgTzRRGQ>

Activity Description:-

- He said that organic farming is a very profound subject affecting our lives. 55% of our country's population lives in 6.70 villages. Agriculture has a profound impact on the economic system. The point being 1% agriculture growth is 5% industrial growth and 7% increase in national income.
- The first Green Revolution took place in India in 1965 whereas in the western world it was only in 1850. The sad part is that after this the use of chemical fertilizer in our country increased in greater quantity. After giving 5 times more yields in the beginning, now it is seen that even after adding more amount of chemical fertilizers, the yield is not increasing. It is a matter of concern that when we did an investigation, it was found that microbes used to change the state of chemical fertilizers.
- Their quantity is only in the condition of ending up in the soil. It is seen that the chemical fertilizers and the Green Revolution brought benefits or more losses to our country. Punjab, which is the most agro-based state in India, runs a cancer train from Bathinda to Bikaner. That is, farmers put so much chemical fertilizer in their land that they also poisoned their crops. In the present situation we have no other choice.
- We have to turn to organic farming as soon as possible. There is also a fear and mindset that if the chemical fertilizer is not put in the earth, the yield is reduced by about 30% in the first 3 years. But if we do not return to organic farming a bigger threat than Corona has stood before us. Due to misuse of chemical fertilizers, the air is standing on the verge of destruction of the soil and the entire ecosystem. Cow is an essential medium for us in organic farming. Organic farming has been a part of our culture since very old times. Eco system balancing has been done in our country for thousands of years. Compost from cow dung can be cultivated for about 10 to 15 acres and very good yield can be taken. At present, quality as well as quantity have to be given a lot of attention. Gomutra is also used as a pesticide.
- When farmers use chemical pesticides, scientific research suggests that a substance called nitrous oxide is produced which is CO₂. Is 300 times more harmful. Increasing the yield

of the farmer is not the only reason for his income growth. Further, Shri Shantanu Sukhdevkar said that we have to worry about organic products being available to all sections. It should not happen that the organic product is confined to a particular elite class.

- For the western world, globalization means that the whole world is a market for them, whereas for us Vasudhaiva Kutumbakam means that the whole world is a family for us. This basic ideology makes us different from the western world. And this is the difference between the idea of organic farming and organic farming. There are 835000 farmers doing organic farming in India today, but even then there is a lot of competition in front of us. And today Australia is leading the world in organic farming. Australia dominates 36% of the organic product. Many states have started working in this direction too, like Sikkim has declared itself as a biological state. To make organic farming successful in India, one has to move towards cow base farming. It is a matter of excitement that our farmers are seriously thinking about this subject and are slowly moving in this direction. Today, a market of 100 billion organic products has been opened in front of us.
- The subject is how ready we are for that, organic farming can prove to be a big step towards self-sufficiency. But for this, both the society and the farmer have to step together.

Topic: Gram Swaraj and Ekatma Manavvad- India's answers to Economic crises

Speakers/Experts/ Resource Person Details: - **Prof. Shri Prakash Singh Ji**

He is faculty at Department of Political Science University of Delhi.

He is Former Chair Professor at DR. Ambedkar Chair in Social Justice Indian Institute of Public Administration.

Objective/ Concept Note of the event: - Channelizing Youth's Energy in Transforming India and Learning various aspects of governance, administration, entrepreneurship, industry etc. and many other fields necessary in Self-Reliant India

Venue / Digital Platform: - Zoom **digital platform, Youtube**

Video Link (if any):- https://youtu.be/P_Y1g1xabFU

Activity Description:

- The focus of the speaker was on the three topics throughout the session: **Gram Swaraj, Self-reliant and India's response to economic crisis.**
- He addressed that The Gram Swaraj, a special term coined by Mahatma Gandhi and later developed by Vinoba which promotes conversion of every village into a self-efficient autonomous entity where all the systems and facilities for a dignified living are available. Gandhi an ideology has inspired to keep human happiness in tandem with sustainable growth. Swaraj is self-rule with continuous effort towards independence and self-reliance. Gram Swaraj or village self-rule is decentralized, human centric and non-exploiting. It adheres to working towards simple village economy and to achieve self-sufficiency.
- Good governance demands respect for human rights, rule of law, strengthening of democracy, promoting transparency and capacity in public administration. The responsiveness of the State and its institutions to the needs and aspirations of the people, and inclusive citizenship are imperative to good governance. Democracy depends upon the equality of all human beings, their right to participate in social and political transformation and the right to development, to live in dignity. Panchayat Raj is a system and process of good governance. Villages have always been the basic units of administration in India since ancient times. The Gram Sabha can become the cornerstone of the whole Panchayat Raj institutional set-up, thereby the Indian democratic system. So the focus is on Gandhi an concept of Panchayat Raj. This is useful to development of India. So in 21st century this concept becomes powerful in the Nation.
- It's the vehicle that was most ideal to initiate both political and economic democracy at the grassroots level was the Panchayat Raj system. Mahatma Gandhi's tours all across the country reinforced his convictions that India would benefit if the villages were governed by Village Panchayat based on the principal of "simple living and high thinking". These were village republics which were self-contained and self-reliant and having all that people want. These were the institutions where minimum standard of living could be accorded to

all human beings. An individual had maximum freedom and opportunity to develop his personality to the greatest extent. In these republics there would be a diminution of the State and the roots of democracy deepened. According to him centralization cannot be sustained as a system without adequate force.

- The affairs are to be managed by Panchayats consisting of five persons elected annually. Gandhi aimed at the individual center of the local administration. People are expected to take personal interest and turn up in large numbers at the meeting to deliberate problems of common interest such as village industries, agricultural production, obligation and planning.

Topic: Volunteering- a social perspective towards making a new India

Speakers/Experts/ Resource Person Details: - **Ms. Swathi Mam**

She is the Vice President at “Socially Good” - the world’s first online market place social change.

She is currently the National Executive Member at youth for Sava.

Objective/ Concept Note of the event: - Learning tools which can make Citizens an effective part of governance and Channelizing Youth’s Energy in Transforming India

Venue / Digital Platform: - **Zoom digital platform, Youtube**

Video Link (if any):<https://youtu.be/jrZElhlEqzA>

Activity Description:-

- Keynote speaker Swati Ram told the participants that two-thirds of the country's population is young, full of energy, wants to do something, even after all this, the present form of India is not very satisfying. It can be seen in depth that despite having such a large youth power, our country is struggling with very basic problems.
- The main reason for this is the lack of a sense of nation building. Our general belief is that development is the sole responsibility of the government. While it is the responsibility of every Indian citizen as a whole. Volunteering is an activity that uses our time, abilities, and qualities to raise the standard of living of others without feeling of any benefit. Volunteering awakens the sense of complacency in us, say 52% of the volunteers while 30% consider it as social work experience but a sense of service that I can change with my efforts in the lives of others, He is the origin of volunteering.
- When volunteering, one should keep in mind what others need. Service is the very basis of self-transformation. When we make small positive changes around us that is the basis of big change. Small good works are the basis of great works. The atmosphere of positive and mutual cooperation is created by solving local problems, while the role of social changes is created.
- If we look closely, we can see deep meaning in these words:
- Survey Bhavantu Sukhin Survey Santi Niramaya Survey Bhadrani Pashyantu

Only the spirit of happiness and health of the all-purpose beings is the root of volunteering. If all citizens, especially the youth, can bring this feeling into their lives, then it is possible to build a developed nation.

*Vice President of the Samvitti Foundation and a trustee of the GSFC Science Foundation."

GSFC University, Vadodara. Former Registrar (Officer on Special Duty), The Maharaja Sayajirao University of Baroda

Objective/ Concept Note of the event:-

1-Channelizing Youth's Energy in Transforming India.

2-Learning various aspects of Governance, Administration, Entrepreneurship, Industry, etc. and many other fields necessary in self-reliant India

3- Learning tools which can make citizens an effective part of Governance system

Venue / Digital Platform: - Zoom **digital platform, Youtube**

Video Link (if any):<https://youtu.be/Kk5NycheCsE>

Activity Description:-

- Dr. Dholakia said that the word 'Constitution' refers to the relationship with the government somewhere. Government is not a person's word as it sometimes appears, but the government is a group of power that is established and governed by law. The basic meaning of government is the law.
- The person is limited to following the rules only. The law is built on the principles of Fundamental Rights. The constitution has been called the Mother Institute, on the basis of

which other interpretations have been done by law. On the basis of this, other laws are envisaged but rather the constitution of the State comes out on the basis of the constitution.

- The constitution is the most important compilation for any nation. Even in ancient times, there was a system for controlling the emperor's emperor. The present form of a systematic constitution for running democratic governments emerged after 17 -18th century. The biggest contribution to this was the USA, where the first systematic written constitution was presented as an example. The Constitution of India is one of the most balanced legislations in the world, due to which such a diverse country is on the path of development. The average age of constitution made after 1947 in colonial states is only 17 years. Second, the balanced classification of power made between the administrator, the judiciary and the executive and the third fundamental right
- Very few constitutions of the world have protected the rights of the public. But the Constitution of India provides protection of rights to citizens. Our constitution gives administrative powers to a three-tier government system so that the classification of functions can be done in a big way. The Supreme Court has been made the protector of the rights of the citizens of India. The public is ultimately universal. The rest are subsidiaries. The Indian Constitution is the largest written constitution in the world. The former role of the Constitution was hidden in Swaraj. Our struggle was not only for independent attainment, the basic feeling of freedom is self-rule. Self-government includes decentralization of power, protection of indigenous, cultural heritage, etc. The future constitution was laid out at the All-Party meeting after opposition from the Simon Commission. A draft of this was presented in 1928.
- This draft became the authority of the working of the Constituent Assembly in 1946. On 26 January 1930, Purna Swaraj was demanded.
- The foundation of India's independence was laid during the Second World War. The constitution was ready in November 1949, but the constitution came into force on 26 January 1950 due to the feeling of 26 January Purna Swaraj Day.
- In the end, we have to understand that a word like freedom is not complete in itself. The power and future of freedom is hidden in Swarajya in which self-reliance is inherent in itself. The meaning of Swarajya is that people can make beneficial decisions and policies for themselves. The utility of freedom is possible only in the meaning of self-rule.

Topic: Transforming Education: Real time challenges in virtual ways.

Speakers/Experts/ Resource Person Details: - **Dr. Manpreet Manna**

President Awardee

Former Director AICTE

Member of UNO SDG4

Advisor at Asia Entrepreneurship Skill association

Sr. Member IEEE, US; ISRD HK; IACSIT Singapore

Objective/ Concept Note of the event:-

- Channelizing Youth's Energy In Transforming India
- Learning tools which can make citizens an effective part of Governance system
- Understanding ground level realities from relevant experts.

Venue / Digital Platform: - Zoom **digital platform, Youtube**

Video Link (if any): <https://youtu.be/nc6gRld38LU>

Activity Description:-

- Dr. Manpreet Manna told the students that according to a survey conducted on 27 March 2020, 150 million students will be affected by Corona. According to a survey, 43% of the people do not have internet facility at home. 82 crore people do not have computers at home and 72 crore students have at home.
- This is also a big problem. India is the second-largest population of the world, where the number of Internet users is increasing very fast. So it has increased from 18% to 38% in a few years. It is also a matter that 97% of our total users use the internet through mobile phones. In the coming times, we have to understand that the business life cycle is going to be 25 to 10 years due to reduction. Education currently needs to be redesigned, and reimagined. He said that nowadays many professors complain that students do not have books. But they have to understand that in this era of technology, we will have to use new technology tools to spread education. Today is the time that we have to redesign the National Education Policy. Why our students are not ready for international jobs? He further explained that through open education learning, models, slip learning, and Massive Online Open Courses, we are helping our students to compete.
- The 3 pillars of education are Curriculum, Conduction, and Evaluation. In these three, we have to understand how we can use more and more technology. Artificial intelligence is going to have a lot of use in the education system in the coming times. The teacher can use it in voice assistant. I can use this for advanced facial recognition. It can be used for emotional monitoring so that maximum concentration in the classroom can be studied by students.

- Artificial intelligence will prove very useful. He further explained that we have to understand the 5R theory in open education. Regarding flip learning, he told us that in the coming time after Covid-19, blended learning will be the only solution left to us. We have to adopt a four-pillar based education system.
- In which e-tutorials, e-content, discussion forums, and assessments are very big parts of any education system. After Kovid-19 in our life, we have to digitalize education so that we remain social while maintaining physical distancing.
- Finally, session moderator Shivani Shah thanked the keynote speaker on behalf of Mr. Parimal Vyas, Vice-Chancellor of The M S University, Vadodara, Senate Dr. Jigar Inamdar and Dr. Reena Bhatia, Director of IILG.

Assignment: Education System

Participants were asked to write their stand on the following:-

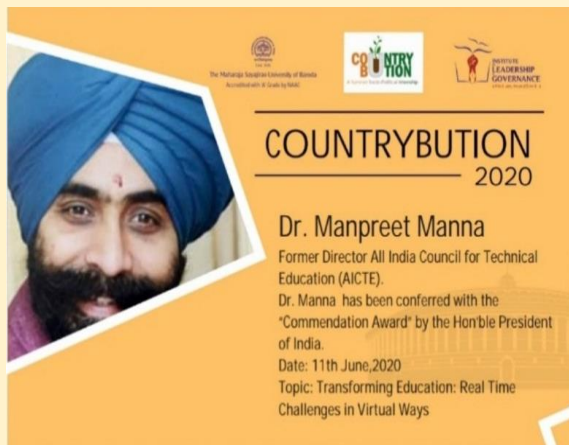

Ancient Education System in India v/s Modern Education System (100-150 words)

Topic: Skills for effective Leadership in 21st century

Speakers/Experts/ Resource Person Details: - Mr. Bhargav Parekh

He is Senior Program Manager, Primal Foundation for Education Leadership.

He is Coordinator at Samsara institute for integrative learning, PhD School, the Faculty of Social work (MSU)

Objective/ Concept Note of the event: - Channelizing Youth's Energy in Transforming India
-Learning various aspects of Governance, Administration, Entrepreneurship, Industry, etc. and many other fields necessary in self-reliant India

Venue / Digital Platform: - **Zoom digital platform, Youtube**

Video Link (if any):<https://youtu.be/fBBLJWBJ72w>

Activity Description:-

- Bhargava Parekh trained the participants on the Skills for Effective Leadership on 12/06/2020 on the fourteenth day of the Contrybution 2020 under the auspices of The M S University Vadodara and Institute of Leadership and Governance. The speaker started by asking questions to the participants, what are our expectations from this course?
- The basic reason for learning and learning new is the need of 21st century leadership in the shade of human values today. In the coming times, the relevance of the three skills will be maximum Learn, Unlearn and Re-Learn. It is important to understand what leadership means to us? Learning has three parts. Input, Process, Output.
- According to Harvard University, Leadership is an art that encourages and gives direction to others so that they can work towards achieving the goal set by consensus while maintaining unity, ethics, and positivity in the group. The opportunities and competitions of the 21st century will be brand new. 21st-century leaders will have to learn to align servicing empowering these four elements, according to noted author Bill George.
- According to Daniel, the quality of coaching others is very important for the leader. In today's time, it is very important for the leader to be an expert on the subject. Doesn't being a technical master decide that you will be a good leader? But if you have a mastery in your behavior, it is very likely that you can become one.
- Conscience is of the highest importance with all abilities. Without conscience, we cannot understand global human principles without which leadership is of no importance. Only high ideals and humane principled leadership can provide the right direction. Life values influence our behavior as well as determine the direction of our leadership. What we do are our life values that we think are not our life values. Testing, understanding and elevating one self is the first step towards leadership. It is most important to know yourself. Self-awareness develops the qualities of leadership. Well imported to Costume Sales management is its second step Self-configuration Self-healing Self-optimization Self-protection and the third step is self-management ability to delay gratification, Company of Wise People, Time management, Reflection and learning. Throughout this journey, we will also have to install some filters.
- Ahimsa Asthe Brahmacharya

According to Berry Shevartz, the most important point to be taught to the next generation in the 21st century is character. If the character is bright and ideal, then surely, he will become a worthy leader.

Activity Description:-

- Under the auspices of The M S University Vadodara and Institute of Leadership and Governance, on the fifteenth day of the Contrybution 2020 on 13/06/2020, Shri Kush Brahmhatt trained the participants on Entrepreneur and Start-up Tools.
- One should remain positive rather than focusing on problems in life. The pace of life is constant. With the pace of life, working on resolving continuous problems should be kept moving forward. To become a successful entrepreneur, one has to lead a disciplined life.
- The biggest risk in life is to not take any risk, to complete any new idea, one has to constantly plan and work. If you have done a need assessment, if you have a problem advising skill, you can be a successful start-up entrepreneur.
- We have to cultivate the patience of not listening. Only then can we finally succeed. Gujarat Government has launched the Student Start-up Innovation Policy. That is why the Government of Gujarat deserves thanks.

Undoubtedly, the path of self-sufficient India is hidden in entrepreneurship itself.

ASSIGNMENT: STARTUP ASSIGNMENT

1. Imagine you are looking for funding partner for your College event/school event or startup but the interested stakeholders wanted your proposal in brief.

2. It can have text, audio, video, poster, drawing, animation, doodles, sketching, cartoons or any kind of creativity is welcome to project your ideas etc. in it but it should depict that how it is beneficial for stakeholder to invest in your college event/startup.

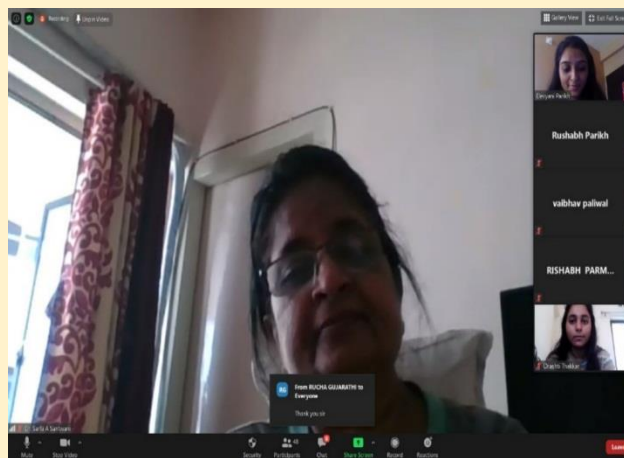

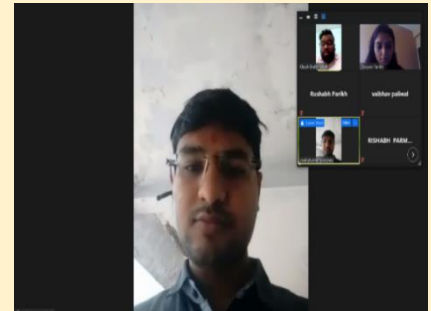

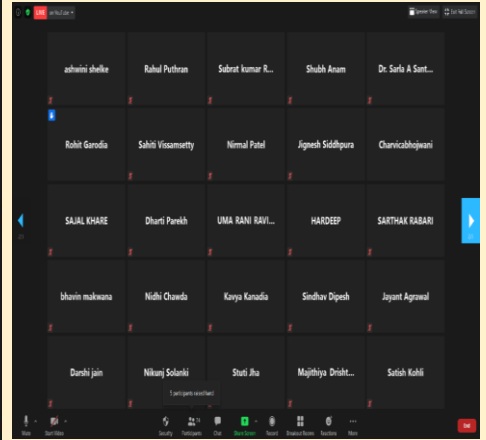

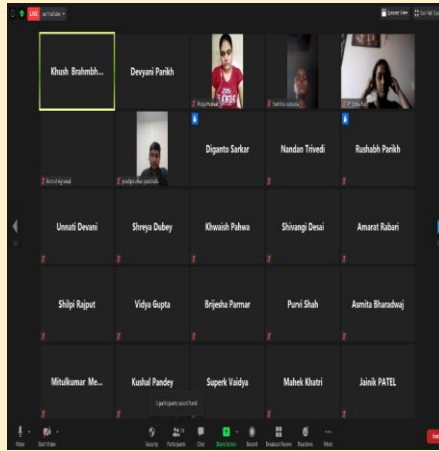

We have created Google slide/Google docs/Google drawings that you can edit and send back to us.

Topic: - Bureaucracy: features, limitations, disaster management

Speakers/Experts/ Resource Person Details: - **Mr. Bhagyesh Jha**

He is Retired IAS officer.

He has also been chairperson of Gujarat Sahitya Academy Gandhinagar.

He has served as Secretary of youth and cultural affairs of state government.

He is Receiver of best collector's award twice.

He is also the poet by heart and written many literary books in Gujarati and also receiver of "Vishishth Sanskrit Sewavriti Samman Award"

Objective/ Concept Note of the event:-

1-Channelizing Youth's Energy in Transforming India

2-Learning various aspects of Governance, Administration, Entrepreneurship, Industry, etc. and many other fields necessary in self-reliant India

3- Learning tools which can make citizens an effective part of Governance system

4-Understanding ground level realities from relevant experts.

Venue / Digital Platform: - **Zoom digital platform**

Video Link (if any): NOT RECORDED

Activity Description:-

- The speaker told the trainees that for many years after the industrial revolution, the government has been seen as a partner with society and a promoter. We now see the role of the government as the facilitator going forward.
- As a collector, he told us that the collector should leave the AC room and be among the public. Should be in the middle of the public. Redefining the Role of Bureaucracy is important. Why people have a reluctance to meet an officer. There are reasons why a common man has to go to the Collector office. As a collector, he decided that a fixed time limit should be set for the works within which that work should be done. Bureaucracy has to be constantly prepared for uncertain disasters and problems.

Bureaucracy means public work management. In this, the responsibilities are clearly set out in writing or the responsibilities are fixed. Bureaucracy has to act according to the guidance of political leadership. If we will not come to bureaucracy with service it will be difficult to work if you have a feeling of power-seeking. In public administration, the responsibility of every person is fixed and he has to answer to someone. Here it is an arrangement.

- Major positive results can be achieved if bureaucracy uses social engineering. Corporate has learned a lot from governance. This is the Art of Science of Coordination. This society is full of diversities. You cannot be a successful bureaucrat if you are not inquisitive, not an apprentice.
- **ASSIGNMENT: BUREAUCRACY AND HUMAN EMOTIONS**
INSTRUCTIONS: ALL QUESTIONS ARE COMPULSORY

HINDI OR ENGLISH CAN BE USED TO GIVE RESPONSE

COPYING FROM ANY MEDIUM WILL BE CONSIDERED AS CASE OF PLAGIARISM AND WE WILL NOT BE ABLE TO ALLOT MARKS FOR SUCH SUBMISSIONS

Speakers/Experts/ Resource Person Details: - Dr. Ajay Ranka

CEO at Zydex industries Pvt. Ltd.

Director of International board of Road Federation (IRF)

Objective/ Concept Note of the event: - Channelizing Youth's Energy in Transforming India

Venue / Digital Platform: - **Zoom digital platform, Youtube**

Video Link (if any):

Activity Description :- : He explained how every business impacted by this (Pandemic) disruption in one way or another, industries are reflecting on 2020 as a significant inflection point in global operations. Business-as-usual is being replaced with a new landscape embracing remote connectivity and digital technologies. Tools for the reconnection are Capture and transmission of streaming Industrial IT sensor and machine data Intelligence at the edge: gateway devices analyze and act in real-time. Smart asset tags and trackers help manage raw material and work-in-process assets throughout production, as well as finished goods, equipment, vehicles in the field.

Post COVID Industrial Solutions

By the perspective of India there are 4 major factors which will impact Indian economy in a very positive manner:

1. Dr. Ajay Ranka started with the crude oil prices which remained stable between \$30 -\$50 posts COVID which is a good sign for India with digitization being increased rapidly.
2. Cost of Capital for borrowing in industry is decreasing day by day i.e.in other words in International markets one can get capital/money on a lower rate of interest. Interest cost is a contributing factor in businesses of India.
3. Structural Reforms by Government in order to control the economic stress.
4. Technology Enablement **i.e.** journey towards a virtual world.

Also there are many factors which inversely affect the Indian Economy unless we know how to control them he added.

Presently there is \$73 Trillion Economy which will go up to \$200 Trillion by 2050. For creating this wealth in next 30 years youth will or can play a very important role.

How the wealth is generated? Or which country can be called a wealthy country? This we need to keep in mind:

1. Production of Goods & Services is more per person i.e. Productivity per Person. In other words increase of wealth with the increase in productivity
 - E.g. During 1910s & 20s evolution of Electric Bulb led to increase in productivity of people around & a huge amount of surge came and economy went up
 - 1960s – Automation, Assembly lines, roads, highways, increase in speed of commuting whole mechanization lead to productivity
 - 1980s - Computers made our lives easier

- Last evolution in telecommunication & internet connectivity

How do we increase productivity in next 20 – 30 years?

- Automation will convert into robotization

In today’s scenario in about \$1000 a human head can be simulated. 2016 is been remembered because from that particular year more emphasis was started being given to Robotization or AI.

Cost of maximum technology related products have become cheaper and affordable by most of the country & companies. This will be the biggest revolution in next 30 year.

This technology will accelerate post COVID as economies are turning self-reliant.

- Impact of AI technology:

1. Labor employment (Industrial, Agriculture, Construction labour etc) for this we need to retrain or retool society
2. Limitations of Indian Industries in future (Where India needs to improve)
 - Innovation (Innovation as a mindset of the country with sacrificial attitude i.e. at own cost)
 - Excellence (Companies pursuing excellence at their own cost will grow)
 - Worker or Executive shies away from hard work

Post COVID Industrial Revolution we need to work on Innovation over Capital i.e. changing mindset towards sacrificial attitude.

Hard work + Innovation + Faster work + Excellence will lead our country to desired GDP growth of 8 -9% unless we fail to follow this our GDP growth will stick to 4 -5% only.

Next Ajay Ranka ji focused on Capital formation of country has dropped by 20% as we compare the same 15 years back and we need to work on that in other words for an industry to maintain positive cash flow in order to grow.

And in the end he commented on different sectors like agriculture, medical etc and its growth & effect on Post COVID and then we moved to Q&A session.

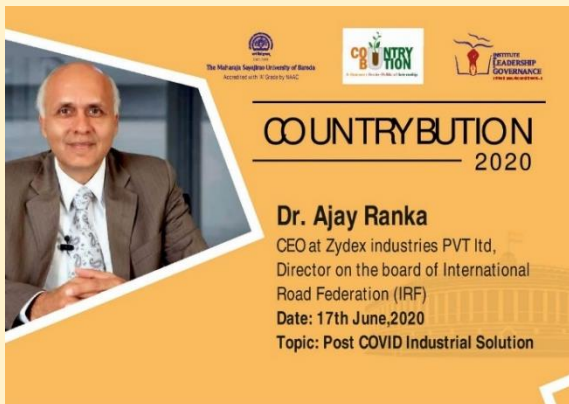

Duration

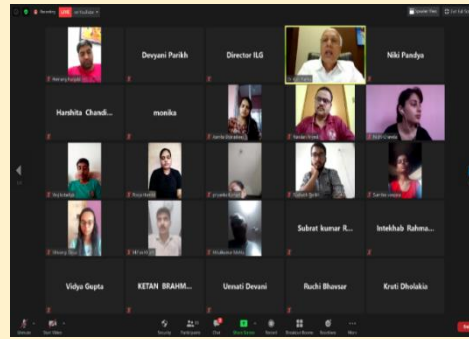

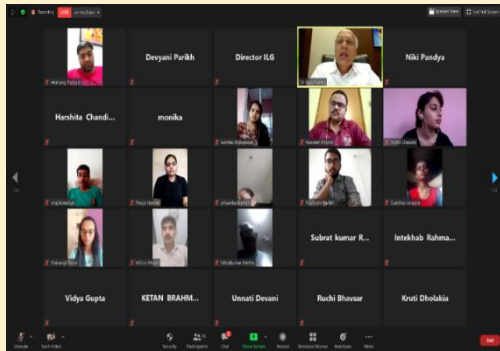

Total days: 21days (1 seminar /per day)

Total hours: 42 hours (2hours /per day)

Pictures

Brochure

**18th June' 2020 – Dr. Virendra Singh Chauhan
New Kashmir, New India**

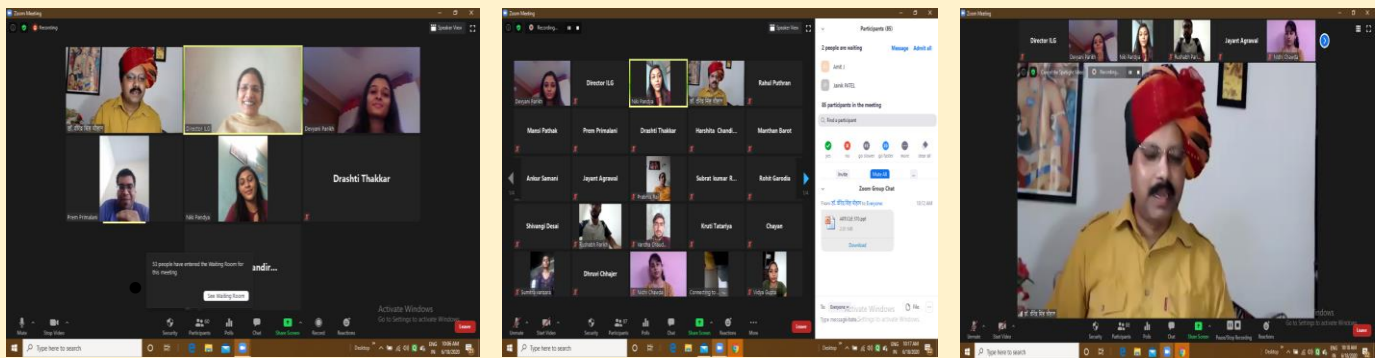

He initiated the session by quoting India/ Bharat is the oldest & ancient Nation. ‘New India’ means we keep making new changes & alterations to our ancient India. ‘New Kashmir’ means after this abolishment of 370 & 35A we can proudly say now Kashmir is our Shirmani (King) of our nation.

There were some issues in past which made Kashmiri hinder from many laws, schemes & facilities which are being provided to normal Indian. This has happened since the Constitution of India came into existence in 1950s. And why were all these acts, laws etc. were not applied to Jammu & Kashmir? Because there was this law mentioned in the constitution that stated without the permission of Kashmir Government & Vidhan Sabha no act, provisions, laws etc. can be applied in the State except Defense & other 3 matters. In other words Constitution of India will be applied in Jammu & Kashmir State through Article 370. There was seen a line of difference between the Government of India & Government of Jammu & Kashmir with different flags, constitutions, President, PM Etc.

Many were against Article 370 but sacrifice of Dr. Shyama Prasad Mukherjee is to be remembered. Issue was raised during Constituent Assembly & many were against Article 370 but everybody were told that to apply Constitution of India in the state of J&K is which why 370 is there we'll remove it eventually. Almost every party was against article 370. Gulzarilal Nanda, Home Minister agreed to remove 370 & asked the time to make it work but it didn't work. Now Virendra ji discussed about the Article 35A. Article 35A was more bad/ worse than Article 370. People were divided into two which are State Subject & Non State Subject. The worse thing about this article was no consideration was taken of Parliament before amendments made in constitution and with that also Constitution assembly also agreed. These amendments were made with the order of Dr. Rajendra Prasad and after this many lawyer, or the ones who were expert in constitution didn't know Article 35A existed in the constitution. This situation of not knowing about 35A came into existence when country started opposing this article few years before abolishment of 35A & 370.

He added in current situation, New Kashmir came into existence after Constitution of India was now applicable in the State of Jammu & Kashmir i.e. abolishment of Article 370 & 35A. Now Kashmiris can enjoy same rights, duties, provisions, Act etc like any other citizen of India after 3 decades of being deprived of any rights with one flag.

This is the whole gist of the session.

19th June' 2020 – Dr. Jigar Inamdar Individual Social Responsibility

Dr. Jigar Sir started his session by quoting “All Humans are Equal” there's no point or very disgracing to distinguish them by their caste, religion, color etc...

As our country is moving towards a Self-Reliant Nation, to use & to promote Swadeshi product is our dharma. From all our 5 senses it is very difficult to please taste sense and also give up our taste sense is all together a great sacrifice and it about sacrificing Vidheshi and trust Swadeshi. Next he mentioned about Religious Freedom, it is right of every religion to feel proud of it & respect it. But religious freedom is valid till we do not disgrace or demean other religions in other words we have to respect all other religions.

He added to respect every religion as Mahatma Gandhi is 11 vows. Jigar Sir has attempted to relate vows with a person's national character. If a person's national character is not strong then our nation is also not strong, this has come from past experiences. Every Indian needs to understand India's National Character.

Lastly He quoted:

- One bhajan by “Vaishnavajhan to tene kahiye je pidh parayi jane re” emphasizing pain of others and also work for them is true sense of Individual Social Responsibility.
- Be your own version
- Adarsho ka Chayan (Choosing proper ideal)

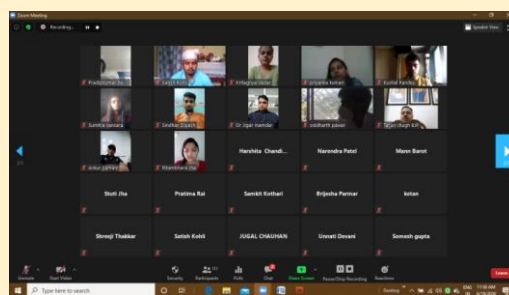

19th June’ 2020 – Shri Tarun Chugh

Valedictory session – “Self Reliance, Sustainable Development Goals”

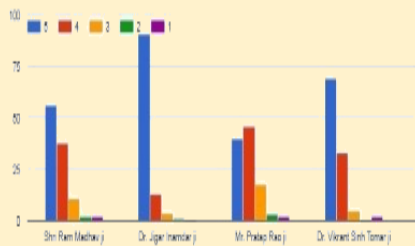

Tarun ji started with greeting all of the participants. And session was started by listing down the work done by BJP government during the course of 6 years of BJP Government. Like URI Army Attack, Phulwama Case, Jan Dhan, Swachata Abhiyan, Ram Mandir Case conclusion, Article 370 & 35A abolishment, Kartarpur express etc...

He talked about Economic growth in India which has reached top 5 economies of world during this course of 6 years. 48 new airport building, Electricity in villages, Health schemes, COVID 19 period fight etc... India is successfully fighting COVID19 better than other developed economies. And Modi government to bring back economy to normal has launched 20 Lakh crore package for the citizens. This government is successfully tackling the problem faced during this COVID19 phase.

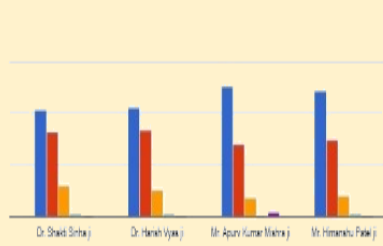

In this fight of COVID19 & economy crisis every Indian has to work to make India grow & make India a Self-Reliant Nation. Every Indian citizen has to work together to make this happen & make India growth worldwide.

8) Launching of Book entitled “વિષાદ એજ વરદાન”

Name of the program: - Launching of Book entitled “વિષાદ એજ વરદાન”

Type of the program: - Book Launch

Date: - June 26, 2020,

Time: - 10:00 am

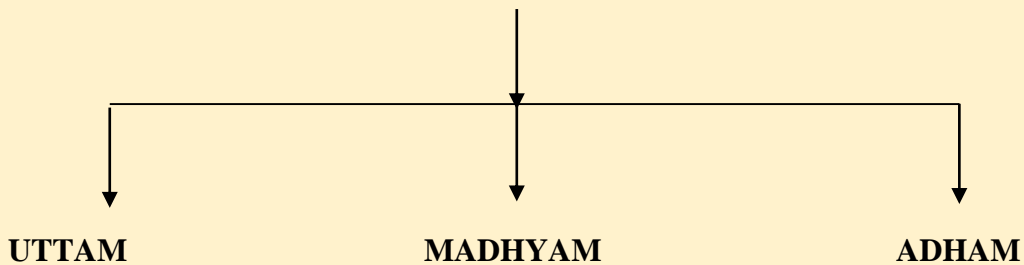

No. of Participants: - 400 participants on Facebook live and in Pandit Deen Dayal Upadhyay Auditorium

Topic:- “વિષાદ એજ વરદાન”

Speakers/Experts/ Resource Person Details:-

Dandi Sanyasi Shri Matswami Punjya Shri Sadanand Saraswati Maharaj

He stated three kinds of children: Uttam, Madhyam and Adham

(Those who take efforts to Learn from their parents what they want from their children)

(those who follow the instructions of their parents regarding their wish)

(those who in spite of getting instruction from their parents, do not follow it)

Objective/ Concept Note of the event:-

This ceremony of book launching was conducted to launch a book entitled વિષાદ એજ વરદાન authored by Adv. Tushar Vyas Ji, Former Member of the Syndicate, and The Maharaja Sayajirao University of Baroda by the pious Dandi Sanyasi Shri Matswami Pujya Shri Sadanand Saraswati Maharaj. This was the first event that was organized after the Covid Lock Down on the auspicious day of આષાઢ સુદ બીજ, under the Centre for Indic Studies, Institute of Leadership and Governance.

Venue / Digital Platform: - Pandit Deen Dayal Upadhyay Auditorium and Facebook Live (ILG and MSU)

Activity Description:-

The dignitaries on the dias included Prof. (Dr.) Parimal Vyas Ji, Hon;ble Vice-Chancellor, Prof. (Dr.) M.N. Parmar, Dean (I/c.), Faculty of Social Work, Dr. Reena Bhatia, Director, Institute of Leadership and Governance, Dandi Sanyasi Shri Matswami Punjya Shri Sadanand Saraswati Maharaj, Adv. Tushar Vyas Ji, Former member of the Syndicate, The M. S. University of Baroda, Dr. Jigar Inamdar, Founder Director, Institute of Leadership and Governance, The Maharaja Sayajirao University of Baroda.

The session was inaugurated by Prof. (Dr.) Parimal Vyas Ji, Hon'ble Vice-Chancellor, The Maharaja Sayajirao University of Baroda with due respect to Dandi Sanyasi Shri Matswami Punjya Shri Sadanand Saraswati Maharaj. He stated the first event that was organized after the Covid Lock-Down Crisis on the auspicious day of આષાઢ સુદ બીજ. He thanked all the participants present on this occasion. Then after, Dr. Rampal Shukla, Principal, Baroda Sanskrit Mahavidhyalaya, offered prayer to this occasion.

Thereafter the author of this book, Adv. Tushar Vyas Ji talked started his speech with our Nation facing multifaceted problems be it border issues, health issues and future challenges. Further he quoted the examples from Shrimad Bhagwat Geeta on positive mindset how it was related to boon. He threw light on those great souls in the past which had no willingness for any kind of boon. He then after ended his speech by thanking all the participants in the occasion.

Thereafter the book entitled વિષાદ એજ વરદાન got launched with the chants of Saraswati Devji Mantra. He insisted that every course should compulsorily include the preaching of Bhagwat Geeta Ji to inculcate certain morals in every individual life by quoting examples of Bhishma Pitamah, Dhronacharya and Arjun. He had a good vision for the Baroda Sanskrit Mahavidhyalaya to impart the holy preaching of Shrimad Bhagwat Geeta Ji. He quoted the values of Nachiketa.

He strongly advocated that no change in the preaching past several thousand years. If we are not able to understand it, we must make efforts to understand it but taking out wrong meaning from this holy preaching should not be entertained.

He then threw light the souls after departing from their body religiously known as જીવની ગતિ. Everybody should have curiosity to go for moral learning. For all these qualities, human birth is

the only and the most valuable birth on this earth. He gave the moral of his speech to wish to reach to the Almighty and hence, all other wishes and wills will be of no value as a wish to reach God is the supreme of all the possible wishes. This would in turn relieve us from the pains of all kinds of sorrows in our life and would path a way towards the aim of ultimate human worth. He explained with a simplest way by giving an example of our wish to have a hut for us would be of negligible worth if we wish to stay in a big or a better house. Finally, Dr. Reena Bhatia, Director, Institute of Leadership and Governance conveyed a warm vote of thanks to all the participants of the seminar.

Duration

Total days: 01 day
Total hours: 01 hour 3 minutes

Feedback:-

All the participants present in the ceremony learnt a lot from the Holy Speech of Swami Shri Sadanand Saraswati Maharaj. Majority of the participants expressed their wish to have the book for them.

10) Book Promotion

Name of the program:- Book Promotion

Type of the program: - Book Review

Date: - July 14, 2020

No. of Participants: - 502 views across Facebook page of ILG05 views across Facebook live page of ILG with 22 likes

Speakers/Experts/ Resource Person Details: - Dr. Bhagyesh Jha (retd. IAS), Eminent Speaker

Objective/ Concept Note of the event:-

- a) To have an introductory interaction on the book entitled Vishad Aj Vardaan
- b) To have conversation with Adv. Tushar Vyas on the topic
- c) To convey in general the essence of the book

Venue / Digital Platform: - Facebook Live page of ILG

Video Link (if any): - <https://www.facebook.com/ilgmsu/videos/725951357981431/>

Activity Description:-

At the outset, Adv. Tushar Vyas introduced Dr. Bhagyesh Jha (retd. IAS). Both of them cited certain shlokas from Shrimad Bhagwat Geetaji. Dr. Bhagyesh Jha gave a brief about the silent preface of the book entitled “Vishad ej Vardaan” which was launched on June 23, 2020 on the holy presence of Dandi Swami Maharaj.

He started his talk on “Crisis” quoting the examples of Nachiketa, Mandotari, Arjun in Mahabharat and very nicely explained how they could overcome the crisis without having any kind complaint for it and also stated that what we see as a crisis is nothing before what they all faced. He stated that crisis to be “**Blast of the Moment**” which can give a U-turn in one’s life. He described this pandemic as the outcome of scream of the bats for which we humans are responsible. He further stated that this pandemic is not for the first time by comparing two characters “Chinese Scientist” & “Valmiki”. Valmiki gave a birth to a literature just on the scream of bird while the “Chinese Scientist” committed this offence to feed humans! Dr. Bhagyesh Jha strongly advocated that all humans are a part of nest, even that Chinese Scientist should have concern for an ordinary person in Santrampur now undergoing breathlessness. Regarding the fear, he compared our fear coming out of infections with Arjun who actually was struggling with “MY ness” (feeling of belongingness). He gave many such authentic quotations.

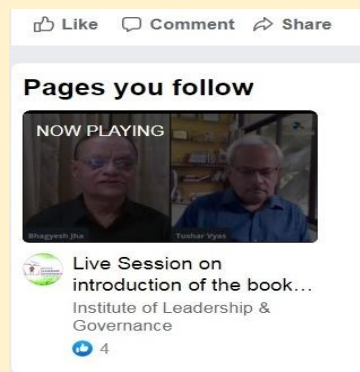

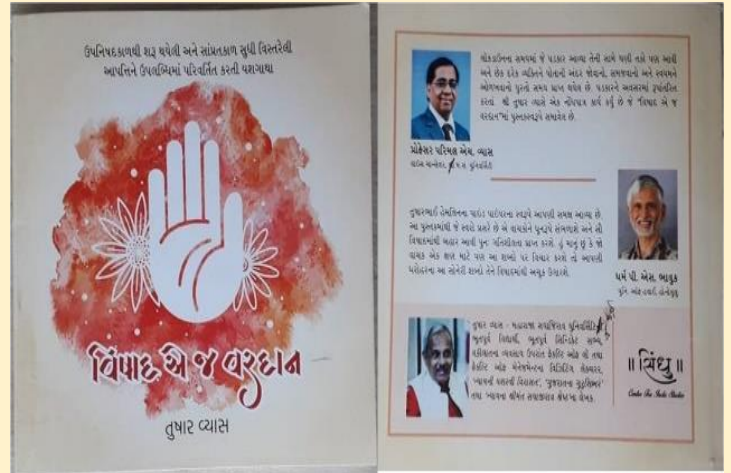

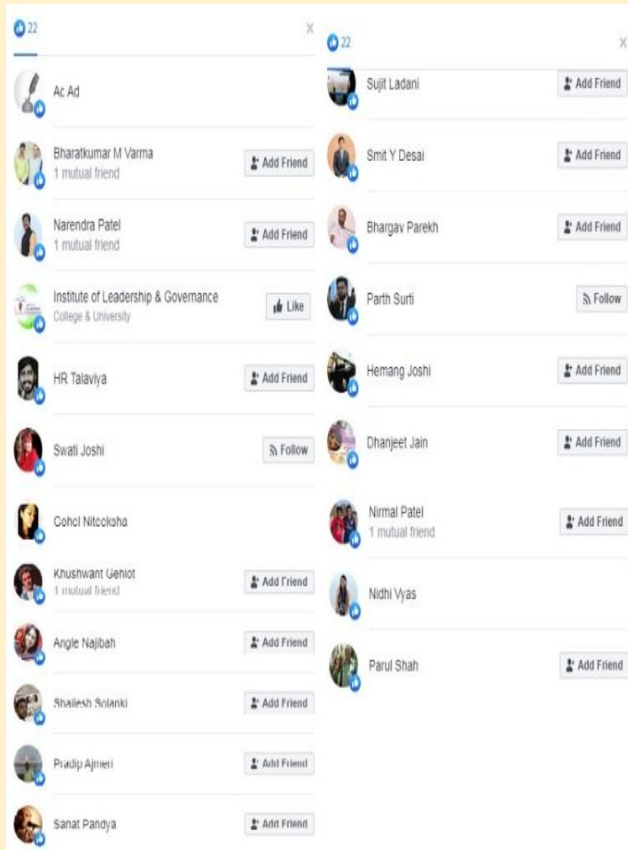

Adv. Tushar Vyas compared two boons, one for Hrinaya Kashyap and the other for Prahlad. He gave some classic examples of good donors who felt humiliate for their ownelves that they cannot cater to the needs of the donee. The session was not just confined to traditional characters, even recent freedom struggle was covered. Even today, Gandhi i’s Ashram has been a focal point for even foreign tourists. During the above interaction, a good thought was layout for authoring a new book entitled: “Vishad ma thi Vishudhi”. He ended his note highly appreciating Sindhu, Centre

for Indic Studies under the aegis of Institute of Leadership and Governance. Adv. Tushar Vyas expressed his gratitude by stating his feeling of being in a lecture at the Faculty of Arts.

12) “Role of Technology in effective Governance and leadership for Higher Education Institutions under the NEP, 2020”

Name of the program: - “Role of Technology in effective Governance and leadership for Higher Education Institutions under the NEP, 2020”

Type of the program: - National Webinar

Date: - October 24, 2020

No. of Participants: - 214

Topic: - National Education Policy

Speakers/Experts/ Resource Person Details:-

Dr. Jay Prakash Narayan (President Loksatta Party)

Dr. Manpreet Manna (Former Director, All India Council for Technical Education, New Delhi)

Objective/ Concept Note of the event:-

With National Education Policy (NEP 2020) approved by the Union Cabinet of India on July 29, 2020, which outlines the vision of India's new education system; we at The Maharaja Sayajirao University of Baroda **plan to bring to the table a set of ideas from the conscious minds on Institutional Leadership and Governance that helps build a culture to cultivate excellence and innovation.**

The common feature of all world-class institutions globally including India has indeed been the existence of strong self-governance and outstanding merit-based appointments of institutional leaders. However, the **NEP 2020 document outlines suboptimal Governance and Leadership of HEIs as one of the major problems currently faced by the higher education system in India.** The policy’s vision includes key changes to the current system which also enlists the formation of an autonomous body, National Educational Technology Forum (NETF) to facilitate decision making on the induction, deployment, and use of technology, by providing to the leadership of education institutions, State and Central governments, and other stakeholders, the latest knowledge and research as well as the opportunity to consult and share best practices, which is envisaged to assist in effective Leadership and Governance

In order to have a healthy discussion on the same with Expert Speakers, a National Seminar on **“Role of Technology in effective Governance and Leadership for Higher Education Institutions under the National Education Policy, 2020”** was organized through online mode on the October 24, 2020 by the Institute of Leadership and Governance, The Maharaja Sayajirao University of Baroda. The said event was organized on online zoom platform and was broadcasted live on the Facebook page of the Institute of Leadership and Governance and The Maharaja Sayajirao University of Baroda

13) Saradar Patel & Foreign Policy

Name of the program: - Saradar Patel & Foreign Policy

Type of the program: - Public Lecture

Date: - October 31, 2020

No. of Participants: - 105

Topic: - Online Interactive Public Lecture on Sardar Patel & Foreign Policy

Speakers/Experts/ Resource Person Details: - Mr. Shakti Sinha Ji (Director, Atal Bihari Vajpayee Institute of Policy Research and International Studies The MSU Baroda.

Objective/ Concept Note of the event :- An interactive public lecture was organized by the Institute of Leadership and Governance, The Maharaja Sayajirao University of Baroda on “Sardar Patel and Foreign Policy” on the auspicious day of Shri Sardar Vallabhbhai Patel Jayanti (i.e. on October 31, 2020) in which Mr. Shakti Sinha Ji (IAS) and the Director, Shri Atal Bihari Vajpayee Institute of Policy Research and International Studies, The Maharaja Sayajirao University of Baroda had been the keynote speaker. The session was organized online on zoom platform and was also broadcasted live on the University as well as Institute’s facebook page.

Venue / Digital Platform: - <https://www.facebook.com/ilgmsu>

Video Link: - <https://fb.watch/1AGiZ2OVnK/>

Activity Description:-

Shri Sinha Ji started with the concern of the Chinese invasion on the Indian Territories taking the undue advantage of the Line of Actual Control after their victory over Tibet. He highlighted that he was Shri Sardar Vallabhbhai Patel who made the Map of our Nation which was the most difficult task. Shri Sardar Vallabhbhai Patel could visualize that the Foreign Policy under the vision of Pandit Jawaharlal Nehru was wrongly framed. He also stated that Shri Sardar Patel was having a great concern for future India in view of the formation of Domestic Parties, Partition of India & Pakistan and so other issues like communal violence & the struggle for the freedom post World War during the year 1950.

He talked on the two blocks which got created in the Cold War viz., one was America and the other was Soviet in which Chinese got their support. He added that Shri Sardar Patel had a foresighted vision on a balanced security of our Nation irrespective of the aid and terms of foreign trade by not encouraging any interference of foreign Countries into India's internal matters.

“The Chinese ideologies were ten times dangerous from the British ideologies.”

-Shri Sardar Vallabhbhai Patel

“We regard Chinese as our Friends but unfortunately, they do not.....”

- Shri Sardar Vallabhbhai Patel

The situation which prevails currently was forecasted 70 years before by Shri Sardar Patel for our Nation to face two major threats from two fronts, i.e. China and Pakistan.

A new trend in addition to the Western trend was from the North East, Shri Sinha Ji stated. Shri Sardar Ji had given 11 points on which our Nation should have a good thought upon. Some of these were:

- ❖ Military Empowerment
- ❖ An examination of our Military Positions for effective guarding our borders
- ❖ A review to strengthen our Army positions in view of the World War
- ❖ Long term needs of our Defense force & a healthy supply of arms and Ammunition to them
- ❖ Road and communication
- ❖ Macmohan Line (frontier between Tibet & Assam in the British India)

In addition to the financial aid from the Developed Countries, Shri Sardar Patel insisted on the defense aid too as he was highly cornered about the security of our Nation. In Nagpur, Shri Sardar Patel commented and questioned upon the Security Council to be the Insecurity Council, he added. Shri Sinha Ji stated that it's not at all easy to face China alone.

The session was then followed with the question and answer session. Questions of the following participants were answered:

- ❖ Hrishikesh Priyank
- ❖ Mehul Rathod
- ❖ Mr. Vasim

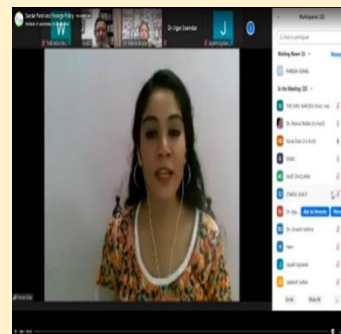

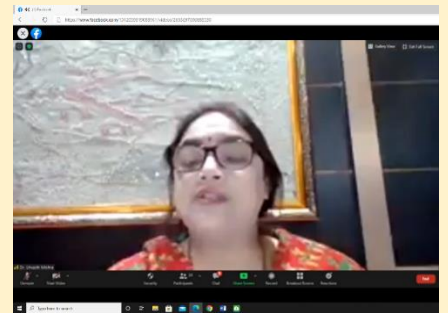

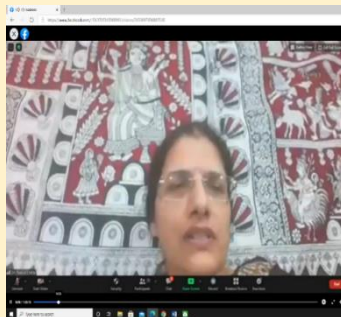

A participant too added that how far we are today from the ideologies of Shri Sardar Patel when we talk about Indian Foreign Policy & Foreign Trade.

Finally, the session got concluded with a vote of thanks to the Keynote Speaker and the participants at 6.15 pm.

14) Gujarat Thinkers Forum “Bihar Election Results”

Name of the program: - Gujarat Thinkers Forum “Bihar Election Results”

Type of the program: - Discussion Forum

Date: - November 21, 2020

No. of Participants: - 20

Topic: - An open discussion on Bihar Election Results

Speakers/Experts/ Resource Person Details: - Participants based event.

Objective/ Concept Note of the event: - Objective is to provide a platform for young minds to speak their minds and discuss and deliberate upon issues affecting our nation.

Venue: - Institute of Leadership and Governance, the Maharaja Sayajirao University of Baroda.

Activity Description :- An open discussion on Bihar Election Results: “Is Narendra Modi the most popular Prime Minister in Indian History?” was organized by the Institute of Leadership and Governance on November 21, 2020 at 5 pm in the Takshasheela Assembly Hall of the Institute of Leadership and Governance where in there was 20 registrations across India. However, there were 6 participants from amongst these registrations and a discussion on the popularity of our Hon’ ble Prime Minister of India was discussed in the light of the Bihar Elections. In view of the Covid guidelines, adequate social distancing was maintained. Participants expressed their views on the same in English and Hindi language and three best speakers were awarded with the memento after the session. Each participant was evaluated objectively (i.e. with marking system).

The following points were discussed:

What makes Hon’ble Prime Minister Modi so popular amongst the masses?

What are the reasons due to which the people of India trusts him

PM Modi’s hardwork on improving the lives of the people

BJP and its ideological commitment

What the opposition parties can do connect the masses

The speakers discussed at length the Bihar Elections and analyzed the reasons for an NDA victory. They also discussed what could be the road map for future assembly elections in the years to come.

The session got concluded at 7.00 pm with a vote of thanks to the Chair.

15) “संविधान दिवस का महत्व”

Name of the program: - “संविधान दिवस का महत्व”

Type of the program: - Webinar

Date: - November 26, 2020

No. of Participants: - 50 +

Topic:- Doctrine of Basic Structure and then on Article 29 which talks about not only the means of livelihood but every basic thing that is required for human dignity.

Speakers/Experts/ Resource Person Details:-

1. (Sr. Advocate, **Aishwarya Bhati**) Madam, Addl. Solicitor General of India, Hon’ble Supreme Court
2. (Prof. (Dr.) **Bhavna Mehta**), OSD (Dean), Faculty of Law, The Maharaja Sayajirao University of Baroda

Objective/ Concept Note of the event :- On November 26, 1949, the Constitution of India was adopted which came into force from January 26, 1950 from when India ceased to be a dominion of the British Crown and became a Sovereign Democratic Republic with the Constitution. Since then November 26 is celebrated as the National Law Day and then is celebrated as **संविधान दिवस** from 2016 every year.

The session began with the lecture etiquettes followed with the University Song and then with a warm welcome address to the all the dignitaries and the participants by Ms. Fiona Dias, Asst. Professor, Faculty of Law, The Maharaja Sayajirao University of Baroda. She moderated the entire event thereafter.

Venue / Digital Platform: - <https://fb.watch/21r9HWJXcM/>

Activity Description :- She then continued on the topic of Doctrine of Basic Structure and then on Article 29 which talks about not only the means of livelihood but every basic thing that is required for human dignity. Adv. Bhati Madam then laid the significance of PIL in the Judiciary System. She further added that every jurisdiction is bound by Doctrine of Locus Standi-i.e. on which basis one approaches to a Court. Further she added that the work of the Courts are supposed to be the watch dog to whether the Law has been correctly framed or not, whether executive and legislative action are in accordance with the Constitution or not. Gender equality was the next aspect on which she threw light further followed on the next aspect on Doctrine of Checks and Balances by quoting the situation of the 1975 emergency when Govt. was proved wrong in the matter of Right to Life by 9 Courts and 5 learned Justice. Finally, she thanked all the participants for investing their valuable time and also assured Mr. Umang Modi for joining upcoming question-answer sessions.

એમ.એસ.યુનિ.માં રાષ્ટ્રીય સ્તરની કોન્ફરન્સનું આયોજન યાણક્ય અને સરદાર પટેલે બંનેએ અખંડ ભારત માટે પોતાના પદનો ત્યાગ કરેલો

વડોદરા, શનિવાર

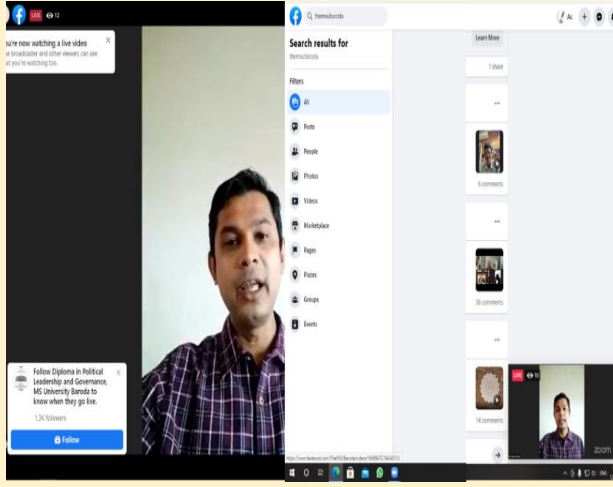

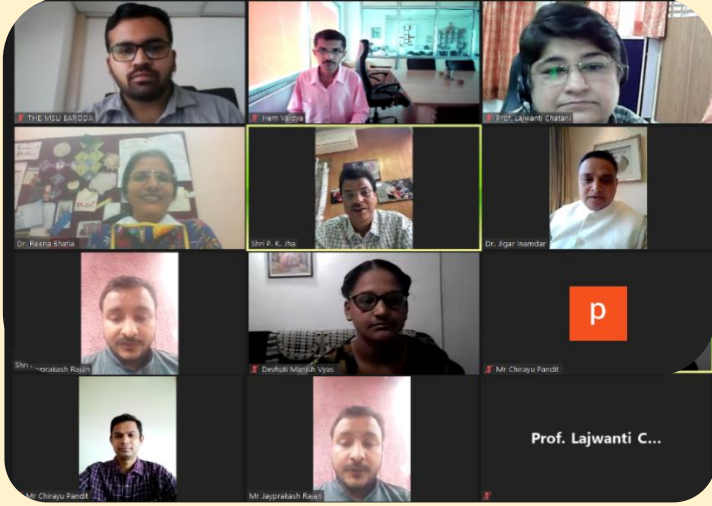

એમ.એસ.યુનિ.ની કેકેલ્ટી ઓફ આર્ટ્સ અને ઈન્સ્ટિટ્યુટ ઓફ લીડરશિપ એન્ડ ગવર્નન્સ દ્વારા રાષ્ટ્રીય સ્તરની કોન્ફરન્સ યુવા સંવાદનું આયોજન કરાયું હતું.

આજથી ૨૩૦૦ વર્ષ પહેલા યાણક્યએ કૌટિલ્યમાં અખંડ ભારતની વાત લખેલી હતી

યાણક્ય અને સરદાર વલ્લભભાઈ પટેલ વિશે યુવાનોએ ચર્ચા દરમિયાન કહ્યું કે યાણક્ય અને સરદાર પટેલ ભારતીય રાજનીતિ અને પરંપરાના પ્રતિનિધિ હતા. દેશ પર આંતરિક અને બાહ્ય આક્રમણો થયા, આંતરિક ઝઘડાઓ થતા ત્યારે બંનેએ પોતાની આવડતથી દેશની એકતા જાળવી રાખી હતી. ચંદ્રગુપ્ત મૌર્યનું સામ્રાજ્ય સ્થિર થયું ત્યારે યાણક્યએ અર્માત્યને સમજાવી પોતાની તરફ કર્યો હતો.

આજથી ૨૩૦૦ વર્ષ પહેલા યાણક્યએ કૌટિલ્યમાં અખંડ ભારતની વાતનો ઉલ્લેખ કર્યો હતો. કૌટિલ્યના ૯માં ભાગમાં તેમણે લખ્યું છે કે સમુદ્રથી હિમાલય સુધી ફેલાયેલા આ વિશાળ ક્ષેત્રનું એક જ સામ્રાજ્ય હોવું જોઈએ. કોન્ફરન્સમાં સરકારી ક્ષેત્રે ફરજ બજાવતા પ્રો.પ્રભાતકુમાર ઝાએ કહ્યું કે યુવાનો વિશે વાત કરતા કહ્યું કે યુવાનો હંમેશા વિચારે છે કે પહેલા પર્મ કે રાષ્ટ્ર પણ આ બંને પહેલા માનવતા હોવી જરૂરી છે. કોઈ દેશનો વિનાશ કરવો હોય તો પરમાણુ કે અણુબોમ્બની જરૂર નથી તે દેશના આધારસ્તંભ એવા યુવાનો કે શિક્ષણને ભાંગી નાંખશો તો તે દેશની હાલત આપોઆપ દયનીય બની જશે.

ત્યારબાદ પોતાનામાં આવડત હોવા છતા યાણક્યે તેમનું પદ અર્માત્યને આપ્યું હતું. તેવી જ રીતે સરદાર પટેલે પણ અખંડ ભારત માટે નહેરુ માટે વડાપ્રધાનના પદનો ત્યાગ કર્યો હતો.

19) हमारे संविधान की विशेषताएँ

Name of the program: - हमारे संविधान की विशेषताएँ

Type of the program: - Webinar

Date: - December 26, 2020

No. of Participants: - 74

Topic: - Lecture-III Constitution by Constitution for Common People

Speakers/Experts/ Resource Person Details:-

Adv. J. Sai Deepak Ji, (Advocate, Hon'ble Supreme Court of India)

Objective/ Concept Note of the event:-

- 1) To let the audience know how our Constitution of India is different from the rest of the Constitutions in other Countries
- 2) To talk on the key features of our Constitution of India especially about its specialty in the context of every common citizen

Venue / Digital Platform:- <https://fb.watch/2POBkZhhO-/>

Activity Description:-

Before sharing the views, Adv. J. Sai Deepak Ji first of all acknowledged with thanks to Dr. Jigar Inamdar and Mr. Umang Modi for their perseverance despite of his busy schedule and further thanked all the dignitaries and the participants.

He commenced his discussion by first elaborating on the below terms:

- 1) Error of applying the prism of presentism to the Constitution
- 2) Constitution is a long product of colonial processes implemented in colonized societies
- 3) How far is this socio-legal document away from the भारतीय Civilization
- 4) How far are we Constitutional Patriot?
- 5) What is the Constitution's Position in respect to important issues on all forms of identity?
- 6) Whether the Constitution be treated some sort of religious book to be treated at par with Geeta?

Adding to it, Adv. J. Sai Deepak Ji expressed his opinion that the above concerns should be discussed by remaining consistent with democratic values and not by a handful of elites.

On addressing to the question of what are the key features of our Constitution which differentiates it with other Constitutions, Adv. J. Sai Deepak Ji said that one should first make it clear from the Article 1 itself of our Constitution which spells भारत as its identity which effectively informs the nature of the Constitution and the nature of the State. As an answer to what makes our Constitution a special one, Adv. J. Sai Deepak Ji answered that one should first accept that we have not been influenced by the European ideologies. Infact, the source or the inspiration for our Constitution is भारतीय by nature. He gave the best example of particularly **Article 26** signifies the religious aspects of भारत and this was exclusively a product of "Indian Minds". He emphasized the audience to have a healthy reading on Indian Constitution and Colonialism **SIMULTANEOUSLY**.

Speakers/Experts/ Resource Person Details:-

Shri Bharat Rathod Ji (ACP “H” Division & Cyber Crime Police Station

Objective/ Concept Note of the event:-webinar was to bring awareness to the people on misusing the personal data on social media

And how you can report crimes related to cyber fraud

Venue / Digital Platform:-Zoom & Facebook Live

Video Link:-

<https://fb.watch/3sEU5YCGvj/>

<https://fb.watch/3sKWDFITvk/>

Activity Description:-Institute of Leadership and Governance, of the Maharaja Sayajirao University, arranged a webinar to raise awareness about cybercrime and cyber-robbery and inform the students and university staff about how such crimes are being handled in the present time, and how to avoid such incidents and what to do if such incidents happen to you. The webinar was started with the introduction of the speaker by the Director Dr. Reena Bhatia in presence of the Registrar Dr. K.M Chudasama followed by the talk. Questions were raised by the participants and were answered and doubts were solved by the speaker Shri Bharat Rathore. The speaker furthermore added a made an appeal to all citizens to check the app or website they use at present and to not respond to any OTP messages or phone calls that come with the bank name on their phones. And also to aware the public about reporting any such information to cybercrime. Last but not the least they should be careful and be safe.

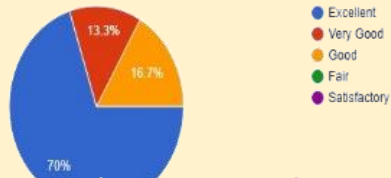

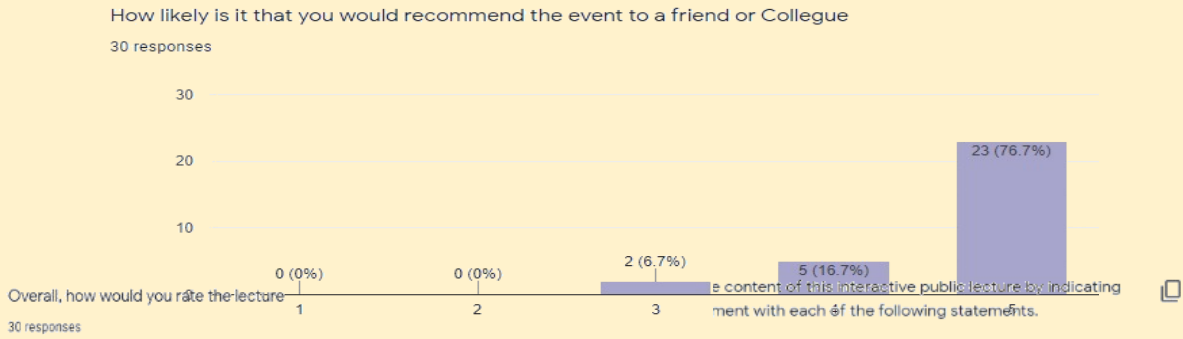

Shri Bharat Rathore Ji also gave examples of how online crimes are committed, such as opt. Sharing, responding to an anonymous email, luring you to find your partner. He said that just as we maintain our awareness in our normal life, it is necessary to keep the internet in mind, such as using common sense, not sharing screen, not being lured into financial gain. He then gave proper guidance to all the questions in the online question answer. About 650 people participated in the event on Facebook live and zoom live.

25) संस्कृत भाषा और साहित्य के विकास में महाराजा सयाजीराव III- का योगदान

Name of the program: - संस्कृत भाषा और साहित्य के विकास में महाराजा सयाजीराव III- का योगदान

Type of the program: - Online Public Lecture

Date: - March 10, 2021

No. of Participants: - 791

Topic: - 158th Birth Anniversary of His Highness The Maharaja Sayajirao Gaekwad III

Speakers/Experts/ Resource Person Details:-

Dr. Yogesh Oza Ji:- (M.A. Gold Medalist), Former Principal and Head of the Department, Baroda Sanskrit Mahavidhyalaya, The Maharaja Sayajirao University of Baroda and Visiting Faculty, Lakulesh Yoga University, Vadodara and Yoga Niketan, Vadodara

Objective/ Concept Note of the event:-

The sole objective of this lecture was to educate the people on the contribution of His Highness Maharaja Sayajirao –III to Sanskrit Language and the development of Sanskrit Literature especially to mark the Birth Anniversary of His Highness Maharaja Sayajirao –III falling on the 11th of March every year.

Venue / Digital Platform:-

<https://www.facebook.com/TheMSUBaroda>

<https://www.facebook.com/ilgmsu>

Activity Description:-

Dr. Yogesh Oza Ji, the keynote speaker of this Online Public Lecture started his speech reciting a Sanskrit Shloka. He explained this shloka in by giving the importance in three folds: Mother, River and Mother Language. Adding to this, he said that the Grand Mother of our Mother Language, be it Gujarati, Marathi, Telgu, is SANSKRIT. And it therefore, it goes without saying that our respect for our Grand Mother Language should be beyond our Mother Language. He felt proud of Shri Sayaji Pratisthan, The Maharaja Sayajirao University of Baroda which is making constant efforts to revive the existence of the mother language, Sanskrit. - 6 - Adding to this, Dr. Yogesh Oza Ji said that the word Sanskrit has its meaning in well- polished, decorated form of language put in an agreeable manner and is the combination of four letters: संस्कृत in which the letter स signifies that there is a kind of shining present in the word Sanskrit itself because of which it has become so much enriched in itself. The base of all the languages lies in the Sanskrit language itself. He briefed the work done by Prof. V. K. Rajwade, who laid emphasis on the letter “S” being the letter representing Sun and its connection with Fire. Dr. Oza Ji stated that the “Bhartiya Sanskriti” is based on three major pillars: 1) River 2) Tree 3) Cow He mentioned that.

Activity Description:-Shri Dhananjay Singh Ji, after welcoming all the dignitaries and the participants, explained the scope of his lecture how it will help the Civil Services or UPSC course aspirants. He had before that studied on which particular type of questions would the participants like to get addressed on. He started with a presentation slide on the Career Paths in present times for us as the Human Capital of our Nation through a Three Stage Model of our life and then he compared the same with a multi-staged model of our life as per the changing requirements. (say for example, we are now updating our knowledge & keeping exploring in the light of Artificial Intelligence)

On giving the example of the scientists, say who recently invented COVAX, leaders can be from any walk of life, Sir added. After this, Shri Dhananjay sir then came to the four aspects of Leadership to be an ideal leader from the Emotional Intelligence point of view through a matrix.

He then came on the positive aspects of persuasion (with good cause) as one of the guiding principle for coming out with the good leadership quality. After this, he came to very crucial leadership domains in view of transitional phase of our society. He added the two major qualities that a good leader must possess :

- 1) Personal Humility
- 2) Professional will

Further Sir elaborated on the objectives of Karmayogi to give birth to quality leader with surrounding qualities. Shri Dhananjay Singh Ji then came to the Strategy for the New India in four main sections :

- 1) Drivers
- 2) Infrastructure
- 3) Inclusion
- 4) Governance

A session on the sustainable development goals after which entrepreneurship and start-ups was taken up where in current trends as well as to means to connect the local articians was discussed.

Activity Description:-

DAY 1

The session commenced with the webinar etiquettes by Ms. Fiona Dias, Asst. Professor, Faculty of Law, The Maharaja Sayajirao University of Baroda followed with the University Song with due honor. Thereafter, Dr. Jigar Inamdar Ji, Advisor, Institute of Leadership and Governance gave the opening remarks in which he acknowledged that Prof. Amit Dholakiasir has been the visionary of the Institute of Leadership and Governance and after which, Prof. Nirmal Kumar Ji, Principal, Institute of Science and Technology for Advanced Research – a constituent college of CVM University, Vallabh Vidyanagar briefed on the theme of this two day workshop. Dr. Reena Bhatia, Director, Institute of Leadership and Governance, The Maharaja Sayajirao University of Baroda thenafter briefly introduced the resource persons – Prof. Amit Dholakia Ji, Professor, Dept. of Political Science, Faculty of Arts, The Maharaja

Sayajirao University of Baroda and Prof. Ranjita Chakraborty, Professor, University of North Bengal, West Bengal with sincere thanks.

Prof. Ranjita Chakraborty

Prof. Ranjita Chakraborty, Resource Person, then highlighted a clear line of demarcation between Administration, Management, Governance, Politics after explaining the meaning of the word Administration and with nearest examples. Administration is not confined to a particular field, it varies with the field, she added. Prof. Ranjita Madam further added that administration is a wheel of the Government which keeps its objectives rolling. Then she came on the key dimensions on the Public Administration – both as a Career and as a Practice. Then, she came on the historical aspects of Public Administration after which she explained three wings under लोकप्रशासन9 लोकप्रशासन Legislatures Institutive Judiciary (i.e. Policy Makers) (Policy Implementers) (i.e. adjudication) Prof. Amit Sir then elaborated on the humanitarian expectations from Public Administration beginning with the scope of Public Administration such as social service, etc. and therefore the objective assessment of Public Administration should be based on the outcomes that it provides, he added to it. He added that we should neither conceive the Government in a minimalistic way nor maximalist way but only in an optimistic way-after all every Government has a common motive of service to its citizen. Sir then came on the significance of Regulatory agencies for the efficacy of Public Administration System. In furtherance to it, Prof. Amit sir gave a light on macroeconomic management systems such as taxation laws under the broad framework of Public Administration. Public Distribution System was another aspect which was taken then after for the provision of essential goods and services to the citizens at large including the enforcement of Law and Order besides the Regulatory framework. ADMINISTRATION PUBLIC ADMINISTRATION INTERNAL ADMINISTRATION (POSDCORB) 10 Prof. Ranjita Chakraborty then came on equitable Governance, the various scope of Public Administration and shift that has been seen in Public Administration on its effective delivery. Under the participatory Governance, a citizen should have a space to speak out, she added and should also be aware about his rights and obligations. Prof. Amit Sir then threw light upon the means to bridge the gap between the expectations of the citizens and the policy implementation. Finally, Prof. Ranjita Madam talked on the present status of Public Administration in the post liberalization period. QA session for the day one was then after conducted in which relevant questions from the zoom chat box and facebook was taken up. Question about on the accountability of Public Administration was answered and in the answer to it, citizens do reserve the right to question upon the accountability from the Legislatures in return of the citizen's duty to question. Three aspects about the accountability should also be considered: Individual Institutional Program Accountability Accountability Accountability Other guidance upon the assessment of Public Administration was taken up then after.

DAY 2

Prof. Amit Dholakiasir

With the webinar etiquettes and welcome by Ms. Fiona Dias, the session commenced at 10 am welcomed. SESSION DAY two11 Prof. Amit Sir commenced with the historical roots of Indian Public Administration from ancient, medieval, pre-Sultanate period, Rajpoot period,

Moghul period and more. He stated that a District is the topmost unit of Indian Administration. Prof. Dholakia then threw light on the concept of Civil Services of India and then upon the Rule of Law.

Prof. Ranjita Chakraborty

Prof. Ranjita Chakraborty then elaborated on the detailed hierarchical structural framework for the Indian Public Administration including the grievance lodging agencies starting from the Union Ministry : 1) Department : Secretary/Additional/Special Secretary 2) Wing : Joint/Additional Secretary 3) Division : Director/Deputy Secretary 4) Branch : Under Secretary 5) Section : Section Officer 6) Office : Assistant, Subordinate, Clerk Then Prof. Ranjita Madam came on the outline of Indian Administrative Services and Indian Police Services. The State's responsibility to deliver the public goods was a question from the chat box which was answered. Prof. Amit Sir then talked on the various complex issues and paradox on the Indian Public Administration in the light of democracy, i.e. mainly the adoption of the 12 Central level policies under the local environment. Then, Sir elaborated on the Administrative Accountability in two broad parts : ACCOUTABILITY Internal External Executive Legislative Prof. Ranjita Madam then took over the session on the rights of us as a citizen to question on the accountability part giving the example of The Right to Information Act, 2005, even NAAC report for the Universities and many more. She came up with a one solution that if the Administration is keeping a healthy connection with the public at large, the system would become more nearer to the coined objectives. Infect, she added that it should be an onus on us to question any lapses seen so as the administration not to deviate from its set objectives. Prof. Amit Sir then presented his thoughts on us as an individual to be the Change Makers for the society at large. QA session like the first day was taken up where in the question on: 1) Decentralization (whether good or bad) 2) How can the system be objectively evaluate of the system 3) How to improvise the present system of administration 4) Guidance on the Civil Services Examination The session for the day one concluded with the collective singing up of the National Anthem with due respect.

Activity Description:-The event was started by Jayant Agrawal followed with the University Song. Dr. Reena Bhatia maam gave the opening remark and welcomed the Guest Speaker. She gave a wonderful speech by highlighting on the topic and enriched the atmosphere. She then gave an introduction of the key note speaker and about the topic. SHRI VINOD KUMAR MALL SIR who is the former Gujarat cadre IPS officer of rank of DGP, government of Gujarat.

Shri. Vinod Mall sir started his speech by telling us about his village , school and college life and life in their home town . Sir thought us how root causing negativity could be controlled and the minds of people be shaped for spreading the message of peace and empathy.He finally came out with the idea of 'Budh Se Kabir Tak', a yatra or journey that led him to travel through the various parts of country spreading the message of peace and brotherhood through young talented members. He told us how india is a dynamically developing nation

and the various cultures and religions prevalent during the Ashoka's time. He very well explained us What Sanatan actually means? i.e. myth, Chirikalik Sarkalik Jeevan. He then shared his experiences about how he got the idea of this Yatra of Budh se Kabir tak and how this Yatra was related to him. He also told us about his achievements briefly and how he was able to achieve them.

He gave an emphasis on the path followed by Gandhiji which attracts the students towards the secularism and towards the Indian culture. Following on the paths of Gandhiji he too believed that our secularism is Sarv Dhansambhav.

He explained us the preamble and its meaning. He told us about the principles of esteemed personalities and invoking the teachings of our great icons such as Buddha, Kabir, Mahavir, Gorakhnath and Gandhi. He also told the students that how our cultural and historical roots are embedded with peace and brotherhood and by attaching to our roots we can develop peace and fraternity among individuals.

He in his speech mentioned about Santa by some static old entity of cultures and elders. India is not Indian culture, Indian religions are not that even the Hindu religion Islam in India has evolved. Today Islam in India is not what Islam came about 1300 years back, it has evolved even Christianity has evolved. There is a tradition of influencing each other and get influenced by others and learn from each other, make some corrections, make some changes, learn from others and move on that is basically India. So when we talk about Sanata it's ever evolving, ever changing, ever correcting ever more beautiful, you know, formation of our culture and religion. He talked about my experiences and not much about his successes. His experiences have been to explore, explore himself and explore this society. He comes from Uttar Pradesh, a place called Bora port which is eastern part of Uttar Pradesh about 16-1700 kilometers from here. And lived there in a small village which is 40 kilometers south of Bora port city and lived there for about 16-17 years did my 12th from intermediate college in the rural area.

His village was 50 kilometers away from there in a district called Mau where he didn't live for a long time but has very sharp memories of that place in his mind because it was very unique. It was a socially and political where education was a much respected value in the society. There was a very decent intermediate college called Shahid, 1942 quit India movement, there were people who sacrificed themselves in fighting with the British at a place and that is why there is a Shaheed Stump Martyrs Memorial there and the intermediate college located at that base is called Shahid Inter College, so to pay tribute to the Malais during the 19, late 1942 quit India movement. But the first Member of Parliament was one Mr. Jacques Kundera, who would opinion it Communist Party of India and he was a MP for almost five terms. And my local MLA was one vision there Gupta who was a socialist for a long time. He basically meant to say that the process of evolution and that the society has changed the social political values have changed and like all other places this place has also undergone a revolution. He the talks about a scholarly person of his college where he written a large number of books, including one called Olga Ganga, which talks about history of India in a very beautiful historical and also creative, creative manner. And one thing he distinctly remember about his school was that there was a lot of place for extracurricular activities in terms of playing games or interacting with the people at social level interacting with all sections of the society, they used to play both with boys, girls have different you know,

sections of society, communities, caste, etc. these kinds of people who were highly educated people very, very respected in that area, and therefore the education was very, very important value in the society

He later told us that at that point of time that Nehru's vision of India was unfolding. He had a vision of a society based on scientific temper, rationality sign, when when he says scientific debate does not necessarily mean science, but what he meant was that rationality was important region was important. He himself was a great historian, his books, discovery of India and glimpses of world history are a beautiful piece and they have inspired him a lot.

So, the language was our typical Hindustani language, which was prevalent in that area, a beautiful example of composite culture and when we are talking about Indian culture, India, we have to take into account this composite ness of our society

He told us about the history how in people of India, how will it end they are and how do they react to if something goes wrong after doing 12, I did my intermediate from that place. He says he did reasonably well though didn't give outshining but reasonably well and got ambition in love with the new city. Because he was from village, he didn't know about the system and all that. So the only thing he knew was that Alga good industry, he went there, that was positive urgency and took admission in Allahabad. And that was a place where that was the first city where he lived it. He told us when you buy a shift from a village to city, it offers, you know, its own challenges. So, first challenge is that the medium changes in the medium to English medium in the New City. And that's a bit of struggle a few months. And then we used to speak in Woodbury in our villages. Now, we had to come to terms with Hello, hi, etc., that was another thing, which was a sort of created some kind of stress. That is why there is the importance to vernaculars in India, and we have to think about the importance of binoculars.

So that was another big opportunity for him and influenced his life to a large extent. There were books of all the subjects but he was particularly interested in literature, history and philosophy apart from science and engineering.

In the literature, he remember that in the first year itself, he studied and read many books. Again, that was a time when he read Nehru after first year, he read discovery of India and the glimpses of the world history. And once you read discovery of India, you realize that Nehru had a very deep understanding of Indian heritage. A lot of people misunderstood and a lot of people even say that he was very westernized, he would say that he had exposure to best, but at the heart of his personality, he was deeply Indian and he has deep understanding of Indian cultural heritage and philosophy, he acknowledged was detailed about India. And you know, sometimes in 1945, somebody asked Gandhi, why you have made Nehru, Nehru, your, your hair, your, you know, your next person in your interesting in your moment. And Gandhi replied, Gandhi didn't get the region but he said one thing and which sticks to my mind, and he said that, I never lose my hair, because he understands India in the best manner than anybody is at that point of time. That was given by the Gandhi. And I was recently reading a book by Dr. Porsche tamagawa book called Bharat Mata Khan Khan have heard at moto and in that he when he was talking about why he formed the non aligned movement in early 60s, he says, and that's very important and that is why I say that you have understood India very, very deeply. He said that India is such a special country that it cannot align with United States, because India's culture and heritage is 1000s of years old. America doesn't have a

history, diet history or culture diet old and we cannot really align and say he said about Russia. And he said therefore, India needs to have special position in the world political order, and that is why you said that India has to lead the non aligned movement of all the struggling nations of the world who are struggling for the freedom who had recently achieved freedom and who could identify themselves with their own identities of you know, cultural and philosophical and political identities. When he proceeded further, during his engineering days, he devoted some time to music learning, he learned Indian classical music or learned raagas there was one professor Shula Bhattacharjee, who was my guru and learned classical music, not much, but three years of classical music I learned and that was a big gain of my stay at that place, during further. His first posting was SCP in 1990.

There was a continuous question in his mind that India with such a diverse culture and a composite culture, why we are fighting by fighting why this violence, can we find a solution to this referring to our culture and history, The violence against women was something very, very disturbing about medicine, although it was a very prosperous district, industry and economically, but this aspect was something which always disturbs me and I couldn't reconcile the development, the economy and industrial development with this gender discrimination and the gender violence in musclehead that I'm talking about 1996 now, I assume and I believe that situation certainly improved, but this was a problem and sometimes also felt that the economic development was also users was also used to consolidate the caste identities, normally people understand that when economic development takes place the cost it and it is get diluted and people merge, you know, that totally happens it has happened many places. In India, we have a very strong tradition of rationality also rationality has been very strong.

If you realize that very strongly, and if you have love for the God, you will reach God, you don't need to go to pundits, or you don't need to go to the books. And that that is how he is rejected, karma can't and he had the conviction to reject the fundamentalism in the society. We all know how he criticized the Hindu fundamentalist and the Muslim fundamentalist at that point, that that point of time, where, you know, to criticize he could sighs even though some of the rulers had that, you know, that point. So that conviction gave him the courage and all these values are ultimately they come down into our Constitution, if you read the preamble of the Constitution, this equality, liberty, second reason, all these they come from the Indian tradition, and that is why when you talk about Buddha soccabet, that basically you are talking about the values enshrined in our Constitution. And that is why this book check that the concept would say, Kavita Kaka has, it came to my mind and this concept was initiated in form of the socio cultural moment, because it talks about the history of India cultural history or religions of the India, and ultimately it culminates into our Constitution. And the last person who was most identified with the Indian tradition was Gandhi. Many people surprised why Gandhi was so popular, I mean, the Gandhi commanded such a respect with a large number of people, which is unparalleled anywhere in the world. The Britishers never could imagine that a person of such a weak, frail body could come up could command the respect of millions and millions of the people. But Gandhi could command the respect because because he understood the Indian tradition

Why I'm talking of this today is because our society today is deeply polarized on caste lines and communal lines, if you go to the social media, if you see how polarized opinions we have, we don't talk to each other, it is absolutely binary look, for instance, we take on any

issue, where it is, we should have nationalism, that is of religion, issue of cow you should have this issue of that even our vegetables will have you know only two conditions India is not like that India is a rainbow India is a continuous change of colors, which has evolved during 1000s of years. And whether you take Buddha weathertec, Mojave, Shankaracharya, kabhi, Gandhi, all of them, they basically belong to this tradition. And this tradition, ultimately, our Constitution is like this because we have a history like this, many people say the political scientists say that, you know, India's constitution was picked up from many other constitution.

People say that Indian Constitution has been taken from other countries, but I would say that Indian Constitution has picked up from our tradition and history. Our, you know, our struggles have been included in the Constitution, our secularism and not the secularism the West. Our secularism is seldom somehow, which Gandhi imbibed in his life. He, you know, you all know that salamat Ashram, people used to read Bible people used to read Gita and people used to read Done. And, you know, Gandhi's, I remember one of his quotations which is there in the film Gandhi, he in during the Novato, he writes, he meets a mob who are very agitated communal mob, and he, you know, they're very stated and Gandhi said, that I am a Hindu, I am Muslim, I am sick, I am a Jew, and you are all you know, like that you are all you know, belong to that multiplicity of religions and all Indians including myself, I am a Hindu, I am a Muslim, I am a sick I'm a Christian, I'm a Jew, I have a Patsy, we have a little bit of a booth, I imagine, I have a little bit of everything in my tradition is very difficult to say that I'm a pure and there's nothing like you're Hindu, I'm in Hindu tradition is so much diverse that this nothing like a pure or a monolithic description. Soboot sectorbeltech was such an experience which HE started three, about three, four years back, and this was basically to invoke the icon sabudanakabhi, to appreciate the rich culture and heritage of India to take pride in that unless we take pride in that, and we should be the most important that we should know the diversity of Indian tradition. Otherwise, we'll fall prey to narrow social political movements, and we will be exploited.

Later jigarinamdar sir joined the session and also enlightened us with a few more words about the speaker.

At last, Umang Modi sir held a Question-answer session where all the participants were given a chance to put forward their doubts and questions. All the students were given a fair chance to interact with the speaker. The event was attended by 100 participants on the online meeting app, Zoom and viewed by over 550 people on universities official Facebook page.

At last, the Vote of Thanks was given by the coordinator, Jayant Agrawal followed by the national anthem. The event was very fruitful for students who aspired to become good leaders of this country.

Activity Description:-The webinar commenced with a formal welcome by the Dr. Jigar Inamdar Ji, Advisor and Founder Director, Institute of Leadership and Governance. SrimanDhiraShant Das Ji gave a brief upon the theme of the webinar and introduced the keynote speaker SrimanAmogh Lila Das Ji.

SrimanAmogh Lila Das Ji after citing a small prayer started first with the leadership qualities which a leader must possess in the context of Shrimad Bhagwat Geeta Ji with suitable and relevant examples in the modern context.

- 1) A leader is not just a position, he has to deal with the people
- 2) A leader must have his roots strongly fixed with spirituality
- 3) A leader is a multiple role player
- 4) A leader is always humble
- 5) A leader is a contributor without expectations for any reward
- 6) A leader is detached (for this he may maintain a distance from the threats)
- 7) A leader should possess all such qualities which he expects the others to have (Law of Magnetism)

QA session was then after moderated by SrimanHaladhar Lila Das Ji, ISKCON and the participants were given answers to their around 12 questions. Dr. Reena Bhatia, Director, Institute of Leadership and Governance and President, Maharaja Sayajirao University Union conveyed the vote of thanks to Hon'ble Vice-Chancellor, the keynote speaker and all dignitaries and the participants for the event. She conveyed her special thanks to the Advisor, ILG, Communication Cell and all those who played an important role to make the event successful.

Activity Description:-Institute of Leadership and Governance and Swami Sivananda Study Centre under the Faculty of Arts, The Maharaja Sayajirao University of Baroda jointly with Divine Life Society, Vadodara organised online interactive lecture of Swami Yogaswarupananda Ji, President, Divine Life Society, Shivanandashram, Rishikesh on the 7thInternational Yoga Day, June 21, 2021.

Followed with the collective singing up of the University Anthem with due respect and then speaking on the subject of Importance of Yoga in Modern Education, Swamiji conveyed that being a medical doctor Swami Sivananda Ji knew very well how ancient culture could be applied to modern society and education. He stressed upon practice of integral yoga that harmonises all aspects of human personality. He held that Hath yoga is the foundation of yoga that helps keep up physical health and prepares one for practice of Raja yoga comprising abstraction, concentration and meditation. Swamiji explained that

sitting Yogasana postures help overcome body consciousness and meditation helps transcend mental consciousness. He explained how Pranayama invigorates body by connecting with universal Prana and bring internal harmony. He explained how Kundalini Yoga helps activation of various plexuses and ascent of Prana from Muladhara to Sahasrar plexus through fine Shushumna Nadi. The concluding message was that yoga enables one to transcend all limitations and reach to the acme of universal, one and non-dual Consciousness. Swamiji answered plethora of diverse questions put up by the participants to their satisfaction. A total of 460 participants comprising students, academicians and other Yoga aspirants felt enriched by the proceedings.

Prof Parimal Vyas, Vice Chacellor and Patron could not join but conveyed his best wishes for the program. Prof Adhya Saxena, Dean Faculty of Arts gave welcome address and gave brief introduction of ILG. Dr Jigar Inamdar, Founder of ILG talked about the importance of yoga in life and IYD. Dr Jayant Dave, President of DLS, Vadodara gave a kaleidoscopic view of life and work of Swami Sivananda, Divine Life Society and Swami Sivananda Study Centre. He also brought out the import of subject of lecture and introduced the key note speaker Swamiji. Dr Reena Bhatia, Director of ILG presented spirited vote of thanks and summed up the event. Devhuti, student of the University compered the program. Mr. Hem Vaidya, Academic Administrator, ILG provided all IT support. The program concluded with the collective singing up of the National Anthem with due honour.

8) वैशेषिकदर्शन: इतिहास, प्रयोजन एवं विस्तार (Lecture I)

Name of the program: वैशेषिकदर्शन: इतिहास, प्रयोजन एवं विस्तार (Lecture I)

Type of the program: -Online Interactive Public Lecture

Date: - July 10, 2021

No. of Participants: - 197

Time:-6.00 pm to 7.15 pm

Topic: -वैशेषिकदर्शन: इतिहास, प्रयोजन एवं विस्तार

Speakers/Experts/ Resource Person Details:-

- Dr. Pankaj Kumar Mishra, (Associate Professor, Dept. of Sanskrit, St. Stephen's College, University of Delhi)

Objective/ Concept Note of the event:-To narrate upon the historical framework, purpose and the scope of Vaiseshika Philosophy with the participants of the said Public Lecture

Registration Link:-<https://bit.ly/ILGCTS-PL-20210710>

Proposed & Coordinated by:-

(Name of the person) : Mr. Vijay Solanki

Contact No. : 8866661617

Email Id : vijay.s-geography@msubaroda.ac.in

Venue / Digital Platform:-Online via zoom platform and was streamed live on the following facebook pages :

- 1) <https://www.facebook.com/TheMSUBaroda>
- 2) <https://www.facebook.com/ilgmsu>
- 3) <https://www.facebook.com/dplgilgmsu>

Activity Description:-With the collective singing up of the University Anthem, a formal welcome and brief introduction of the keynote speaker, lecture one of the lecture series began. The first lecture was aimed to narrate upon the following :

- 1) Historical framework of Vaiseshika Philosophy
- 2) Purpose of Vaiseshika Philosophy
- 3) Scope Vaiseshika Philosophy

Dr. Pankaj Mishra Ji first described the word "Darshan" used in the term Vaiseshika Darshan and then after gave the cultural classification of Darshan Vaidik and Avaidik instead of using the term Atheist and Theiest. Then he came upon the essence of the name Vaiseshika Darshan, i.e. what the name suggests followed it. In the historical part, Dr. Mishra Ji elaborated on the cultural perspective. He then came on the literary work on Vaiseshika Darshan. Finally, Dr. Pankaj Mishraji gave a detailed understanding on the purpose and scope of Vaiseshika Darshan. QA session was then moderated by Mr. Vijay Solanki, coordinator, Centre for Theoretical Studies, Institute of leadership and Governance to answer to the questions some of which were as follows :

- a) What have been the modern scholarly takes on Vaiseshika philosophical discourse?

b) How it's relevant/different with, Sankhya Darshan than or how big bang theory is different from this Darshan ?

The session then got concluded with a vote of thanks followed with the collective singing up of the National Anthem with due honour.

Activity Description:-The fourth and final lecture of a series of lectures was organized today by the Centre for Theoretical Studies and Institute of Governance and Leadership of Sayajirao University on Vaisakhik Darshan.

Dr Pankaj Kumar, Associate Professor, St. Stephen's College, Delhi Global Philosophy and other Indian philosophers and Global Ethics Mishra, with his interesting and factual statement, also explained how other Indian philosophies refute the Vaisheshikha theory when he threw light on spiritual subjects like Purusharth, Dharma, Adharma, etc.

He also said that this philosophy talks not only of the hereafter but also of the world. Thus this philosophy shows the way to coordination. More than a hundred participants witnessed this enlightenment.

Activity Description

All our scriptures and weapons give human beings accurate guidance for the pursuit of extreme happiness and peace. There are 13 types of texts in our cultural heritage. The Vedas (Rigvedas) are the oldest. The Vedas (Shruti) are apostate and are the same. But in terms of symptoms, it has four parts. Which vedvyasji composed. Rigveda, Yajurveda, Samaveda and Atharvaveda have four Upvedas respectively. Ayurveda, Dhanurveda, Gandharvaveda and Economics. There are six vedantas, education, art, grammar, verses, astrology and ninirya.

There are as many as 56 smritigranthos, shatdarshans, hymngranthos, poems, art and subhashigranthos. The purpose of this survey is to attain an indivisible paramattva at the level of discipline and harmony. In the present teaching system, knowledge of religion and spirituality is essential if values are to be developed along with objective education.

On this occasion, Dr. Jigar Inamdar, Dr. Reena Bhatia, prof. Adhya Saxena, Dr. Jayant Dave and Dr. Rajeshri Trivedi made an occasional address and Dr. Urvashi Mishra and Krushnakant Dave coordinated.

Time: - 10 am to 4:30 pm

Event Organiser:-

- **Dr. Reena Bhatia** President of MSU Union and Director of Institute of Leadership and Governance
- **Professor (Dr.) Uma Iyer (OSD)** Dean Faculty of Law

Event Mentor:-

- **Mr. Umang Modi** Assistant Professor Faculty of Law

Jury Members:-

- **Dr. Nandini Kannan**
- **Mr. Rajendra Parikh**
- **Dr. Archana Gadekar**
- **Mr. Vishwas Jambu**
- **Mr. Aparna Vijayan**

Objective/ Concept Note of the event: - To hold debate so as to enable students to learn art of debating.

Venue: - Faculty of Law, The Maharaja Sayajirao University of Baroda

Registration Link: - <https://forms.gle/QuCr6jcgYwLh66DDA>

Activity Description

The event was organized by The Team Buland of the Maharaja Sayajirao University Union in association with Faculty of Law and Institute of Leadership and Governance which was sponsored by Constitution for Common People. The objective of organizing this event was to give the chance to the students of Maharaja Sayajirao University to debate on different bills of central government and keep their point of views and ideas regarding the same. The focus was mainly on giving student a environment and feel of the Parliamentary system as they are future of India and small platform like this can inspire them to be great leaders and get into politics else activities like this will help them grow and make them confident.

The registration of the event started on 13th October, 2021 and it was closed on 20th October 2021. In this short period of time 47 participants participated from 14 different faculties and colleges of The Maharaja Sayajirao University registered for the event. The format of the event was based on the Parliament session following the Lok sabha proceedings.

The event was started with the university song and from introductory session of the event explaining all the rules and regulations of the event and introduction of all the jury members.

The event mainly had 3 rounds namely, Opening Remark Session, Zero hour session and Questioning Answering Session. The session began with thaw speaker calling out the name from the ruling and opposition parties. All the participants were judged on different parameter in opening

remark session and questioning and answering session. The zero hour session mainly was kept for the break to have lunch.

The winners of the Parliamentary debate competition was Ishan Varyani from the Faculty of Law secured the 1st position from the ruling party, Shubh Anam from the Faculty of Social work secured 2nd position from Ruling Party and Apurva Jha from Faculty of Commerce secured 3rd position from the Opposition Party. All the winners were awarded with trophy and certificate. For Prize distribution ceremony Dr. Jigar Inamdar came as the special guest who was quite happy and overwhelmed about the event. He appreciated the whole team for organizing such an event in this difficult time. He also gave his precious word of advice and shared his experience with the participants.

The jury members also gave their valuable advice and motivated the participants regarding the public speaking. Jury members were really happy to be the part of the event and with the professional way it was organized and handled throughout the event. There was also positive feedback from the participants when they were asked to express their views about the event.

At the end of event, President of the Union and Director of Institute of Leadership and Governance Dr. Reena Bhatia conveyed all the members present in the event and she was pleased to see such a positive response from the participants and the jury members. And with this the event officially ended with the national anthem.

Activity Description

Institute of Leadership and Governance and Swami Sivananda Study Centre under the Faculty of Arts, The Maharaja Sayajirao University of Baroda jointly with Divine Life Society, Vadodara organized online interactive spiritual public lecture delivered by Swami Brahmabhutananda Ji,

Followed with the collective singing up of the University Anthem with due respect and then speaking on the subject of Struggle, Swamiji elaborated upon the three dimensions of struggle viz., Dharma, Arth and Kaam which are not permanent by nature but it is the struggle for Salvation which is very much perpetual. He gave an example of sleep and compared with the real knowledge which leads to the body and mind's happiness. It is the knowledge which leads to the ultimate spiritual happiness, he added. In this context he added that Bhagwat Geeta is a unique gift to us. He further added that reactions should always be in a positive manner in any unfavorable situation by giving an example how being neutral diverts the obstacles coming in our way of life.

Dr Reena Bhatia, Director of ILG presented spirited vote of thanks and summed up the event. She thanked the keynote speaker, Dr. Jayant Dave Ji, Dean, Faculty of Arts, Dr. Jigar Inamdar Ji, Dr. Urvashi Mishra Madam, Mr. Kavindra Mishra, Mr. Hem Vaidya. The program concluded with the collective singing up of the National Anthem with due honour.

Pictures

The poster features the logos of the Institute of Leadership and Governance and Swami Sivananda Study Centre. It announces an online interactive public spiritual lecture titled "Struggle for perfection" (पूर्णता के लिए पुरुषार्थ) based on the Bhagavad Gita, presented by Swami Krishnananda. The event is scheduled for 25th Nov 2021 from 5:00 pm to 6:00 pm. It lists several speakers and organizers, including Prof. Jayant B. Dave, Prof. Prakash Vyasa Ji, Swami Brahmbhutananda Ji, Prof. Aditya Vasava, and Dr. Reena Bhatia. A QR code is provided for registration.

The certificate is issued in recognition of participation in the spiritual public lecture "Struggle for perfection" delivered by Swami Brahmbhutananda Ji. It is organized by the Institute of Leadership and Governance and Swami Sivananda Study Centre, Faculty of Arts, The Maharaja Sayajirao University of Baroda. The certificate is signed by Dr. Jayant B. Dave (President, Divine Life Society, Vadodara), Dr. Reena Bhatia (Dean, Faculty of Arts, Institute of Leadership and Governance), and Dr. Jigar Inamdar (Advisor & Founder Director, Institute of Leadership and Governance).

The clipping from the MSU (Maharaja Sayajirao University) mentions the event and the participation of Swami Brahmbhutananda Ji. It highlights the significance of the lecture and the involvement of the university's leadership and governance institute.

19) Constitution club

Name of the program: - Constitution club

Type of the program: - Elocution Competition

Date: - November 26, 2021

No. of Participants: - 40

Time: - 3:00 Pm to 5:00 Pm

Topic: “71 Year of Indian Constitution Achievements, Shortcomings and Future Challenges”

Speakers/Experts/ Resource Person Details: -

Objective/ Concept Note of the event: -

Registration Link: -

Venue: - Faculty of Law, The Maharaja Sayajirao University of Baroda.

Activity Description

Intending to facilitate the students, the Faculty of Law in collaboration with the Institute of Leadership and Governance (Constitution Club) had organized an Offline Elocution competition on the auspicious occasion of Constitution Day, on the topic “71 Years of Indian Constitution: Achievements, Shortcomings and Future Challenges”.

The dignitary judges, all the participants and the faculty members were welcomed by Ms. Aishvi Shah, Temporary Teaching Assistant, Faculty of Law, The Maharaja Sayajirao University of Baroda. The programme began with the University song and with the speech on SamvidhanDiwas by Dr. Archana Gadekar, Associate Professor, Faculty of Law, The Maharaja Sayajirao University of Baroda. Later on, it was taken over by Mr. Umang Modi, Assistant Professor, Faculty of Law, The Maharaja Sayajirao University of Baroda; wherein he talked about Constitutional Club.

There were three esteem judges for the elocution competition:

- Adv. Avadhoot Sumant, Senior Advocate, the Satya Vidhi, Vadodara.
- Dr. Rajendra Parikh, Assistant Professor, Faculty of Law, The Maharaja Sayajirao University of Baroda.
- Dr. Sanjay Solanki, Assistant Professor, Faculty of Law, The Maharaja Sayajirao University of Baroda.

A brief introduction of the judges and felicitation was done by Ms. Reenu Rana, Assistant Professor, the Faculty of Law, The Maharaja Sayajirao University of Baroda. All the enthusiastic participants spoke well and gave their insight on the topic.

Winner and runner ups were awarded and all participants were awarded certificates of participation by the judges. Judges also guided the participants and answered all the questions related to the Constitution. All the judges used a profound way of explaining the complex concepts of the Constitution lucidly is a source of inspiration for us to work harder in our fields of study. These insights and explanations will continue to guide us in understanding the broader functions of the Constitution in a better light. Their practical knowledge and experience in the field aided the students in comprehending the content. The competition at its outset was very insightful and enlightening, and it helped the audients to understand our Constitution in a unique dimension and even should many queries of the audients on the subject were answered by the judges.

The vote of thanks by Dr. Ketan Desai, the Faculty of Law, The Maharaja Sayajirao University of Baroda. The event ended with National Anthem.

The entire event was successfully convened by Aishvi Shah with the support of the young faculty members' team under the dynamic leadership of Prof. Uma Iyer.

Objective/ Concept Note of the event: - Understanding Ecological surprises

Registration Link: - Registration through Tedx website

Venue / Digital Platform: - Google Meet

Activity Description:

The event began with the speakers and Dr. Reena Bhatia exchanging cordial pleasantries. Kousik Patigiri introduced the event's concept and presented the event's idea. Every event at Maharaja Sayajirao University begins with the University Song, which is a Maharaja Sayajirao University tradition. Following that, Dr. Reena Bhatia, Director of the Institute of Leadership and Governance, welcomed the dignitaries and addressed all of the speakers. She praised the team on pulling off the event and acknowledged each team member's contributions. Dr. Jigar Inamadar delivered the opening remarks. He spoke on Maharaja Sayajirao Gaikwad's contribution to Baroda. He thought the team's notion of creating a discussion show was brilliant. Dr. Shailesh Naik's talk on "Environmental Changes and Sustainability: A Perspective" kicked off the event's first session. He offered us a thorough overview of environmental change and a solid viewpoint on it. He provided us with the facts as well as a reality check on how to conserve the ecosystem in a long-term manner. Dr. Alka Sharma, Professor of Economics, former MLA, and Founder Director of Akshar Foundation, was the next speaker. We were speechless when she presented her effort on sustainable schooling. She established the Akshar Forum for Sustainable Education, which teaches students the fundamentals of good education. Good discipline and refined behaviour have educated them. Sapan Joshi performed various psychological magic tricks on the audience to make the event more entertaining. Shri Rakesh Khatri, popularly known as India's Nest Man, then introduced his bird housing effort. He showed how a journey from a straw to a nest evolved into a global bird house initiative. Vimlendu Jha, our next speaker, explained what the future world will look like if we do not stop polluting Mother Earth. He started his lecture by talking about air pollution and its implications. Then he confronted us with the harsh reality of how our fundamental everyday routine acts harm the Earth even when we are unaware of it. Following that, we learnt about a fantastic program known as Eco-Events. Shri Ashwin Malwade and Smt. Nupur Agrawal discussed what an eco-friendly celebration looks like. They provided us with a comprehensive idea of ecological events, such as zero-waste weddings and others. Priyansh Shah, founder of the World Youth Heart Federation, shared his ideas on how dangerous chemicals and climate change are influencing our health and

harming our hearts. His initiative strives to improve societal cardiovascular health. The occasion was completed with words from Chief License, Kousik Patgiri.
