

Vision

Department of Psychology is dedicated to provide an exceptional, scholarly and intellectual environment to serve students, professionals, and community.

We will strive to promote new directions, partnerships and programs that will enhance personal, professional skills of our students and faculties to make them responsible and ethical global citizens

Mission

The Department of Psychology will relentlessly work to provide excellent learning and training in the science and practice of psychology; emphasizing both research based and applied experiences in the curriculum; develop competent professionals who are competitive in job market; reach out to the community and society at large through mental health assessment, therapeutic services and promotion of social well-being; be in the forefront for generation of advanced and indigenous knowledge in Psychology.

This mission will be accomplished through committed and enthusiastic faculty who are dedicated to high quality teaching, research and service to the university and community.
