CLEANLINESS DRIVE

Chetan Balwadi celebrated Gandhi Jayanti under the theme “Prem, Swachhta, Shram, and Ahimsa” with a cleanliness drive involving both children and parents. The children participated by cleaning their own classrooms, outdoor area and cupboards, while the parents enthusiastically helped clean the balwadi campus, classrooms, corridors, and other rooms. Afterward, the parents and Chetan Balwadi staff took a pledge to maintain cleanliness.

MEDICAL CHECK UP

A medical check-up was conducted for all the Balwadi children. The check-up was carried out by Dr. Paresh Thakkar, a pediatrician from the University Health Centre, and his colleague, in the presence of the parents. Children who required further medical attention were referred to specific specialists.

EYE CHECK UP

An essential eye screening camp was organized for the children of Chetan Balwadi to ensure their visual health and well-being. The camp was successfully conducted by renowned ophthalmologist Dr. Aaditya Sudhalkar and his dedicated medical team. Held under the prestigious aegis of the M.S. Sudhalkar Medical Research Foundation, the initiative aimed at the early detection of vision problems. Through careful examination, the team identified

children requiring further corrective care or treatment, providing valuable guidance to both teachers and parents on paediatric eye health.
