ABOUT THE PROGRAMME

MASTER OF COMMERCE (GLOBAL BUSINESS AND SUPPLY CHAIN OPERATIONS)

INDUSTRY-ORIENTED CURRICULUM | GLOBAL BUSINESS FOCUS | SKILL-BASED LEARNING

The Master of Commerce in Global Business and Supply Chain Operations is a specialized postgraduate programme designed to develop professionals capable of managing modern global business environments and complex supply chain systems. In the era of globalization, digital transformation, e-commerce, and evolving international trade policies, organizations require professionals who understand both global business strategies and operational supply chain processes.

The programme provides strong academic and practical exposure in areas such as international trade, logistics, supply chain management, export-import operations, international marketing, international banking, and global business regulations. With an emphasis on analytical skills, digital technologies, sustainability, and industry-oriented learning, the programme prepares students for careers in global trade, logistics, supply chain management, and international business, as well as higher research and entrepreneurial opportunities.

SALIENT FEATURES

- NEP 2020–aligned Postgraduate Programme
- Focus on Global Business, International Trade and Supply Chain Operations
- Internship and Industry Exposure
- Practical learning through case studies, field visits, workshops and guest lectures
- Exposure to Export–Import Management, Logistics, and Global Trade Policies
- Emphasis on digital technologies, analytics and cyber security
- Integration of sustainability and green supply chain practices
- Opportunity to develop research, analytical and decision-making skills

KEY HIGHLIGHTS OF THE PROGRAMME

- Internship (Minimum 120 Hours) for practical exposure
- Full Semester Industry Training / Project Work
- Integration of case studies and real-world business scenarios
- Exposure to global trade regulations and international business environment
- Skill development in analytics, logistics management and supply chain optimization

ELIGIBILITY

- A Bachelor's Degree in any discipline from a recognized university with Minimum 50% aggregate marks or equivalent grade
