What is Accessory Design?

Accessory Design is the discipline of creating functional, wearable and lifestyle-oriented products through material exploration, craftsmanship and design thinking. In this course, students learn to conceptualize, design and develop accessories across jewellery, leather goods, footwear, fashion accessories and contemporary lifestyle products. As the demand for skilled accessory designers continues to grow, Accessory Design has become one of the most dynamic and opportunity-rich domains in the creative industry.

Why choose career in Accessory Design?

In Accessory Design, students are encouraged to engage in hands-on studio practice, fostering creativity, material sensitivity and strong form development. The curriculum is designed to equip graduates with the necessary skills to enter careers in jewellery, leather goods, fashion accessories, lifestyle products, craft-based design and related fields. Students build both foundational and advanced competencies to excel in the profession and meet the demands of evolving global design markets.

What do you learn in Accessory Design?

- Basic Drawing
- Fundamentals of Design
- Technical Drawing
- Material & Form Exploration
- Jewellery & Craft Techniques
- Fashion Accessories & Leather Goods
- Furniture
- Composite Materials
- Toy & Games
- Craft Documentation

Career Opportunities :

- Accessory Designer
- Jewellery Designer
- Leather Goods Designer
- Footwear Designer
- Lifestyle Product Designer
- Craft Collaboration Designer
- Material Researcher
- Trend & Forecast Analyst
- Design Consultant

Course Highlights :

- **Foundational Studies**
Learning principles of design, drawing, photography & material understanding to build a strong base.
- **Material & Form Exploration**
Hands-on learning with metals, leather, textiles, wood and contemporary materials to understand form, function & usability.
- **Jewellery & Metal Craft Techniques**
Studying fabrication processes, mechanisms, surface treatments & detailing essential for accessory creation.
- **Fashion Accessories & Lifestyle Products**
Designing bags, footwear, small leather goods, wearable objects & everyday lifestyle products.
- **Product Development & Prototyping**
Translating concepts into physical models through traditional craft methods and digital fabrication tools.
- **Workshops & Seminars**
Featuring artisans, designers & industry professionals for real-world insights.
- **Craft Documentation**
Research and visual documentation of traditional crafts, materials & cultural contexts.
- **Internship**
Hands-on industry experience under experts. Market-driven research and exploration for the degree project.
